Saml.E, Hubbard Son's Son's Son's FERTILIZERS

The time is fast approaching when you will need a good Fertilizer, and you want the kind that will pay you the most and cost you the least, and that is just what we have this year. Our fertilizer is not an untried quantity, but as a producer, an assured fact. Most of the fertilizers are sold

on the merits of Webster&Son's Fertilizers. The salesmen will approach you saving,"We guarantee these goods to be as good as Webster & Son's," which shows that the fertilizer men themselves consider our goods the best on the market, and their only endeavor is to do as well. But don't be deceived, always use that which you know is good and has been tried by the best farmers in Dorchester and adjoining counties; and if you will take our advice you will leave your orders with us early.

Our brands are No. I, No. 2, Times, Poudrette,

Rock and Potash, and Rock. We are selling Rock at \$11.00 cash. We want your trade. If good and cheap fertilizer will get it, then we deserre it. Having been in the business for more than 15 years, and studying the nature of all crops, and what they need as nourishment, enables us to boast of our fertilizers, being absolutely a complete plant food, and for wheat we defy competition. Call and see and get our prices. We

are always at your service. S. L. WEBSTER & SON,
