SEVENTY DOZEN CRABS CAUGHT AT STILL POND

Joseph H. Moore, Martin Abbott, Jr., William and Zell Fulton and Leo M. Moore, with Capt. Alonzo Frederick, on the "My Oakington," enjoyed a delightful crabbing trip ao Still Pond, Kent county, on Sunday. The party left here Saturday evening about 6.30 and reached Still Pond shortly after 9 o'clock. At 10 o'clock the line was cast and immediately the crabs began biting. Crabbing was continued throughout the night, and when the line was taken up Sunday afternoon, seventy dozen members of the crustacean family had been taken.

As the crabbers were returning home just before sundown Sunday evening a small boat in the middle of the bay was sighted, with a man on the bow waving his hat frantically. The "My Oakington" changed her course and headed toward the distressed vessel. The small boat contained two men and two women, and the boat was drifting out into the bay, as the gasoline supply had become exhausted. When asked where they were from they replied Betterton, and Capt. Frederick gave orders to hook on and they were towed safely to port, the crabbing party reaching Havre de Grace about 10 p. m.—Havre de Grace Ledger.

This is the first instance of "Still Pond" being a crabbing centre.

EASTERN SHO' FERRY BUSINESS GROWING

Amusement Places Planned For Bay Shore And Rock Hall.

The Baltimore and Eastern Shore Ferry Line, Inc., was organized and two double-end ferry-boats were purchased, with a carrying capacity of 38 automobiles and 1000 passengers. A concrete pier was constructed at Bay Shore, 1028 feet long and 25 feet wide. A creosote wooden bridge, 350 feet long, was built at Rock Hall and other facilities were provided. Considerable dredging was done at both Rock Hall and Bay Shore.

Since August 11, 1920, when the ferry started, the amount of traffic has been phenomenal. By rail or road the distance from Baltimore to Rock Hall is 106 miles. Via the ferry it is a 12-mile drive plus 90 minutes on the water. Thus Rock Hall has been made an important suburb of Baltimore. When the Swan Point bar is dredged the time of crossing will be reduced to less than 50 minutes.

In 1921 the ferry carried approximately 60,000 passengers and 13,000 motor-driven vehicles. From January to June, 1922, there has been an increase of 70 per cent. in business done over the corresponding period in last year, the increase in number of trucks being 107 per cent. The passenger business in that period increased 50 per cent., the automobile business 96 per cent. and the commercial truck business 151 per cent. The Company expects to carry this year more than 100,000 passengers and 22,000 automobiles and trucks.

The officers of the Company are: Clarence M. Lehman, chairman of the board of directors; Howard W. Jackson, secretary, and Michael Schloss, treasurer.

A MOSQUITO TASTE

Sir Arthur Shipley and Professor Nuttall, of Cambridge, have been making tests in order to discover what color of dress is the best safeguard against the bites of the malaria mosquito. Sixteen colors were tested. It was discovered that dark blue is the most tempting and yellow the least attractive.- The Isle of Sheppey is the principal breeding ground in this country, and according to an official booklet issued by the British Museum, essential oil of orange is one of the best preventives of mosquito attacks.

ATLANTIC CITY CITIZENS SHOVEL AWAY HAIL

A mid-summer blizzard, with hailstones the size of marbles in lieu of snow, swept Atlantic City shortly after 6 o'clock Saturday night. When the storm finally subsided the ground was blanketed in white and lawns and trees were crusted in ice, giving the whole scene a genuine mid-winter appearance.

Persons caught on the streets and boardwalk hastily sought shelter, no one caring to brave the deluge, the icy pellets when driven against the face stinging like a lash of a whip. Several windows were broken by the fury of the storm and basements in all parts of the city were flooded by the downpour. Streets at some points in Atlantic City and Ventnor were impassible, the water being anywhere from four to eight inches deep.

The storm continued until after 7 o'clock, when it began to clear. Then householders took their snow shovels and cleared the blanket of ice from in front of their doors. Many gathered the hailstones in bucketful.

ALWAYS TIRED NO AMBITION

Nervous and Dizzy, Everything Seemed to Worry Me. How I Got Well

Larwill, Indiana.—"My back was so bad I could not do my washing. I was always tired out and had no ambition, was nervous and dizzy and everything seemed to worry me and I had awful pains in my right side. I felt badly about four years and could not do my work as it should have been done. I saw Lydia E. Pinkham's Vegetable Compound advertised so much and it did so many people good that I began to take it myself. I am feeling fine now and every one tells me they never saw me looking so well. I live on a farm, do all my work, and have three little girls to take care of. I am recommending this medicine to my friends and know it will help them if they use it like I do." — Mrs. HERBERT LONG, R. R. 3, Box 7, Larwill, Indiana.

Many women keep about their work when it is a great effort. They are always tired out and have no ambition. When you are in this condition give it prompt attention.

Take Lydia E. Pinkham's Vegetable Compound, for it is especially adapted to correct such troubles, as it did for Mrs. Long.

VENTILATING
PORCH SHADES

exclude the heat and glare of the sun, yet they ventilate through their entire surface, admitting every vagrant, cooling breeze. They are easily, quickly hung and the adjustable No-Whip cords prevent their flapping in the wind. The beautiful finish and variety of colors make them appropriate for living porch, sun parlor or sleeping porch, on cottage, bungalow or mansion.

They are made from lindenwood splints—tough, pliable and weather-proofed. So light they can be raised by a child—strong enough to withstand wind and rain—durable enough for many seasons of all weather use.

Nash Leads the World in Motor Car Value

NASH

Nash Again Reduces Prices

Effective August 1, 1922

At the time of the last Nash price reduction C. W. Nash frankly declared his policy of keeping faith with buyers by passing on the savings earned through increased business.

The response on the part of purchasers was immediate and nation-wide. Sales rose to new records monthly and at this writing we are running 100% beyond last year's business.

So again we announce new and lower prices on every model in the Nash line, and this proves, as nothing else could prove, the truthfulness of the statement that "*Nash Leads the World in Motor Car Value.*"
