THE JOURNAL.

SATURDAY,.....AUGUST 17, 1878

LOCAL INTELIGENCE.

THE Orphans' Court for Caroline county will meet on Tuesday the 13th of August.

SCRAPS.

—Corn is fairly jumping.

—The masonry on the new bridge is about finished.

—We publish registration notice in another column.

—This, the last month of summer, is more than half gone.

—The Easton papers are complaining of the tramp nuisance.

—Water rails have made their appearance on our marshes.

—Hasler's Orchestra will give three open air concerts each day at the Dover fair.

—Some of our farmers think the prospect for a corn crop is unusually promising.

—The annual "big day" at Slaughter's Beach was set down for last Thursday.

—"Darby's" communication is not published because the name of the writer was not sent us.

—Major Wm. E. Stewart, of Easton, will be orator of the day at the Queenstown tournament on the 22d.

—Keller's Vegetable Life Drops cure Biliousness, Liver Complaint, and remove all impurities of the blood.

—Around Dublin, Somerset county, it has been five weeks since they have had any other kind of rain than a sprinkle.

—The Delaware State Teachers' Association will meet in Dover sometime during the last week of this month,—the date is not yet fixed.

—The Maryland State Teachers' Association will meet in the Baltimore City College, Howard Sstreet, Balto., on the 27th and 28th inst.

—Several northern colonists, who squatted near Hurlock's Station, Dorchester county, have folded their tents and gone back to New York.

—The steeple of the M. E. Church at Easton, during the recent wind storm, was blown to the ground, damaging to the extent of probably $1,000.

—The third annual fair of the Talbot county Agricultural Society will be held at Hambleton Park fair grounds on the 11th, 12th and 13th of next month.

—The Choptank District Grange and the Agricultural Society of the Eastern Shore have resolved not to buy any more fertilizers until the prices are reduced.

—Absolutely free from Morphia and other dangerous agents Dr. Bull's Baby Syrup is valued most highly as a remedy for the disorders of babyhood. Price only 25 cents a bottle.

—Capt. W. H. Smith left Easton on Tuesday night last to take charge of the field operations in the ship canal survey across the peninsula. Major Hutton will supervise the work.

—Our thanks are due to Mr. Wm. M. Price, Henderson, Md., for a basket of very large and delicious peaches. They are by far the finest colored and largest we have seen this season.

—Mrs. Henrietta Helsby, of Talbot county, attended Church the other day and in class meeting gave in her experience, immediately after which she was so badly paralyzed that she died.

—The town commissioners of Chestertown have passed an ordinance to the effect that all tramps coming into that town shall be arrested and compelled to work on the streets during their stay.

—Don't forget the primaries next Saturday. It is important that the district delegations shall be composed of men who will lay aside past political differences and act in the true interest of the party.

—It is surprising to what a degree sickness influences one's temper and disposition. Sickness, however, means derangement of the blood, and for all blood disorders nothing known equals Dr. Bull's Blood Mixture.

—A committee of enterprising young gentlemen have chartered the steamer Kent, and will give an excursion from Denton to Cambridge and Oxford on Saturday the 31st of this month. We advertise for them in another column.

—The card of Mr. G. W. Wallace, house and sign painter, appears in another column. Any one who will examine Mr. W.'s work will be convinced of his mastery of his business. L. H. Gadd, Esq., has a specimen of his painting.

DOVER FAIR.—With the reduced rates of fare on the railroads it will be possible for many of our citizens to visit Dover during the great fair to be held there during the latter part of September. From the horses it will start in several of the races it may be anticipated that the fastest time ever made on this Peninsula will be made there.

EARLY CORN.—Mr. J. W. Knotts informs us that he had ground at his mill in Tuckahoe Neck last Saturday (10th inst.) a bushel of new corn which was in very good grinding condition, and made good meal. It was raised by a colored man living not far from his mill, named Johns. Mr. Knotts ground new corn for this same man last year on the 17th of August.

BETHLEHEM FAIR.—The Agricultural Society of Bethlehem, in this county, will hold its annual fair on its grounds near that town on the 2d, 3d and 4th of October next, as will be seen by advertisement in this morning's JOURNAL. The managers of this enterprise are men who make it a point to do well whatever they undertage, and we have no doubt, with the experience they have had, they will succeed in making it the best agricultural fair ever held in the county.

NOTICE FARMERS.—At a regular meeting of Choptank District Grange, No. 3, held in Preston, August 7th, the following resolutions were adopted:

Resolved, That we recommend to the members of the order of Patrons of Husbandry, throughout the jurisdiction of Choptank District Grange, to buy no fertilizers, unless it be at a material reduction on the prices of 1877.

Resolved, 2d. That this resolution be published in the county papers within the jurisdiction of this Grange.

By orders of Worthy Master
E. L. F. HARDCASTLE,
F. C. GOLDSBOROUGH, Sec'y.

At a meeting of the board of trustees of the Agricultural Society of the Eastern Shore, held on the 8th, inst., the following resolution was adopted:

Resolved, By the Board of Trustees of the Agricultural Society of the Eastern Shore of Maryland, that we have heard of the action of the Choptank District Grange in reference to the price of the various fertilizers offered in the Market, and that we heartily endorse its action.—adv.

TERRIBLE STORM.—The severe thunder storm which passed over Easton last Saturday and did so much damage in blowing down trees, unroofing barns, etc., visited the neighborhood of Bethlehem in this county, accompanied by high wind and hail. The storm was most severe in a small section of the fourth district extending from the Choptank river between Dover Bridge and Hog Island by Bethlehem across the county in an easterly direction, spending its fury near Friendship M. E. Church.

The store-house of Mr. Wm. T. Hignutt was raised three different times by the assaults of the wind though it was not moved from its foundation. The workshop belonging to Mr. Hignutt, occupied by James H. Pool, in the same village, was moved from its foundation about four inches. The wind blew down from a fourth to a sixth of the corn upon several farms in the track of the storm. The most serious damage being done to the crops of Messrs. Wm. E. Pritchett, R. M. Messick and Wm. H. Harding. The fodder is split into fragments by the shower of hail, and it is thought by some will not be worth harvesting.

Lightning struck the dwelling of Mr. Perry D. Taylor, doing little damage, however, to the house and no injury to the family. The chimney of Mr. Z. Willis's house was also struck and quite a number of bricks knocked off; the current passed down stunning Leonard Willis and Miss Fannie Murphy, who were in the room. The head of the young man was burned slightly, and Miss Murphy's side was also slightly burned and her finger nails blackened. They very narrowly escaped instant death.

HILLSBOROUGH, Aug. 14, 1878.

DEAR JOURNAL,

Feeling that a short news correspondence from our little village would be acceptable to your many readers, I respectfully submit such few items as I can collect, and arrange in my feeble and weak manner. Our town is so quiet and undisturbed that a reporter would soon be compelled to seek another field if he expected much news here.

Peaches—appearently our all absorbing topic—are much short of a usual crop this season, and being more so in most all other sections of the peninsula, causes quite an excitement and interest with the shippers, buyers, etc., here. Mr. R. E. Smith's orchard near town was estimated to contain from twelve to sixteen thousand baskets, which has been sold to Messrs. Willits & James of Middletown, Del., at a rumored price of over seven thousand dollars. The entire crop of this shipping point is supposed to reach to about thirty thousand baskets only.

Several of our enterprising and energetic citizens have combined and purchased a two acre lot of Mr. John W. Knotts, between the depot and town, to be used as a cemetery, for the governance and protection of which they propose having incorporated the shareholders of the same. Cleaning up the lot and putting in order has been undertaken, and with the gentlemen who have it in hand it is expected that in a reasonable time we can claim a permanent and an attractive cemetery.

A goodly number of our farmers have been very much disappointed with their wheat yield, and with the present prices several have not raised wheat enough to pay for the fertilizer used on the crop; and again some others have a very good turn out.

Our town and neighborhood are very much troubled and infested with tramps, plundering, begging and stealing whenever they can. They all profess an anxiety to secure employment, and when thay are offered and given work they are so indifferent and useless that they are soon discharged. A dozen or more have been making the empty cars at Queen Anne's Station their headquarters at night. The citizens of this community are very desirous of seeing some effective means adopted by which they can be relieved of these tramps.

The Steamer Raleigh makes three trips per week to and from Baltimore now. Such an arrangement having been made for the accommodation of the peach shippers.

Hoping to be able to furnish you more news in the future, I am

Very respectfully your,
LOQUOR.

DEATHS

MARIAGES.

BROWER—FRAZIER.—On the 13th inst. at the residence of the bride's father, by the Rev. F. C. McSorley, Prof. Addison C. Brower, of Michigan, and Miss Elsie M. Frazier, of this county.

SPECIAL NOTICES.

It has been customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with Gleen's Sulphur Soap has been found a much better preventive. Sold everywhere.

HILL'S HAIR & WHISKER DYE, Black or brown, 50c. [4w.

In the Whole History of Medicine

No medicine has ever performed such marvellous cures, or maintained so wide a reputation, as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in the throat and lung disorders of children, make an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible.

Eastern Shore Domestic Guano,
THE ENGLISH MIXTURE,
AND
GROUND BONES.
Manufactured by F. H. Nickerson & Co., Easton, Maryland.
The EASTERN SHORE DOMESTIC GUANO is a highly concentrated, first-class fertilizer. After an experience of five years, it has been unqualifiedly approved and endorsed, and is strongly recommended and extensively used by the best farmers in Talbot county as a superior wheat producer. Send for a circular and see the proofs before buying any other fertilizers.
The ENGLISH MIXTURE is made by a formula which has long met the approval of English farmers. It is cheaper than the Eastern Shore Domestic, but is a good wheat producer. It is a fertilizer to suit the times.
PRICES.
EASTERN SHORE DOMESTIC per ton.....$38
ENGLISH MIXTURE per ton.....28
PURE GROUND BONES per ton.....35
CHEMICALS.
The subscribers have for sale all the chemicals used in the manufacture of fertilizers, Potash, Nitrogen, Sulphuric and Nitric of Soda, S. C., Bone Phosphate, Oil of Vitrol, Salt Cake, Plaster, Ammonia, Saltpetre, Kainit, Refuse Salt, &c., &c., &c., which they sell as cheap or cheaper than can be bought in the city.
The orders of the farmers of Caroline solicited.

PERUVIAN SYRUP
From a Physician.
NORTH HYDE PARK, Vt., Feb. 7, 1876.
Messrs. SETH W. FOWLE & SONS, Boston, Mass.
Gentlemen—You may perhaps remember that I wrote to you several weeks ago in regard to the use of the "Peruvian Syrup" for my wife, who was suffering from general debility, the sequence of Typhoid Dysentery. I had tried the most noted physicians in this State and also in Canada, without relief. At your recommendation she commenced the use of the Syrup. The first four bottles made but little impression, but while taking the fifth, she began to improve rapidly, and now, after using six of the dollar bottles, she regained her strength, and is able to do most of the work about the house; and I feel that I can not speak too highly in praise of PERUVIAN SYRUP. I have prescribed it to several of my patients, and have procured the sale of several dozen of it here. You can make any use of this letter you see fit. Yours very truly,
H. D. BELDEN, M. D.
THE PERUVIAN SYRUP
CURES
Dyspepsia, Liver Complaint, Dropsy Chronic Diarrhoea, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Neuralgia, Female Complaints and
ALL DISEASES
ORIGINATING IN A
State of the Blood,
Or accompanied by
DEBILITY
OR
A Low State of the System
From Rev. John Gregory,
Pastor of the Western Methodist Church at Pittston, Luzerne County, Pa.
My Dear Sir—Having at various times, personally and in my own and othee families, tested the great value of the medicine called PERUVIAN SYRUP, OR PROTECTED SOLUTION OF PROTOXIDE OF IRON, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders, As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulents. Whatever may be argued as to their necessity in certain cases, we have in the PERUVIAN SYRUP, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Yours truly, JOHN GREGORY.
