"The late CASAR A. RODNEY told the iter of this article, that when at Bues Ayres he inquired of a North Amean that he found there carrying on the Hering business in a wind mill, what antity of wheat was usually raised to acre in the neighborhood of that city, d was told that it varied from twentye to eighty bushels per acre. The ne matter, in substance, was mentionto the writer by the late Doctor LDWIN, who accompanied the Comssioners sent out by our Government that state. It would seem idle for rmany to suppose that flour can be ported to a country so abundantly caole of supplying itself. It is much re rational to conclude that in a few rs those States of South America will ome our and their competitors in evemarter of the globe."
