EVERYBODY TREATED ALIKE

This Bank Pays 4 Per Cent. Interest On All Savings Deposits

If you deposit it on the 12th day of the month you get 18 days interest if you draw it out on the 30th day of the same month. If you deposit your Savings Account on the 18th day of the month it draws interest from the 18th of the same month and does not lie idle for 12 days and then for another calendar month before interest begins. Nor does it have to remain four calendar months in bank before interest is allowed.

Your interest is accumulating all the time, and is compounded semi-annually, while your money lies in the bank. On the first days of June and December, we pay you interest and add it to your account or you draw it in cash. You thus get compounded interest semi-annually on your Savings Deposits.

WE ENCOURAGE SAVING SMALL AMOUNTS. If you deposit $1 it draws interest. It is not too difficult for us to calculate interest on small sums. WHEN INTEREST AMOUNTS TO ONE CENT YOU GET IT. Does any other bank offer you these inducements?
