LOCAL INTEREST.

DENTON, MARYLAND,

Saturday Morning, February 14, 1885.

☞Items of news from all parts of the county solicited under this head.

TO DELINQUENTS.

All accounts for subscription and advertising due The Journal up to January 1, 1885, have been placed in my hands, and I must insist upon payment, or settlement by note, at an early date; otherwise, I shall be compelled to hand them to an officer for collection by law. This becomes necessary in order to close the business of the late firm.

GEORGE T. MELVIN,
Attorney.

The Teachers' Association is in session at the Denton Acadamy.

Baltimore Grain Markets.—The market for Southern wheat is dull. Sales are reported at 92 to 95 cents. Corn is more active; white sells at 57 to 58½ and yellow at 52.

The First Shad.—G. Lacy Butler, of Fowling Creek, on the 20th of last month captured the first shad of the season at his fishery at Ganey's wharf. He also caught two herrings on the same day.

Court House Improvement. — The county commissioners will meet next Tuesday for the purpose of hearing the views of taxpayers and others interested as to the advisability of building a new court house or repairing the old one. They desire as many to meet them as possible, and to have a full expression of opinion on the subject. Our people almost all agree upon one point, namely, that the county is running great risk in not having the county records properly protected against loss by fire. Some say, however, that the present high rate of county tax will not justify the incurring of any more expense now.

Knocked Overboard and Drowned.—Peter Blanche, aged about 20 years, a sailor on the schooner Mary Ellen, while reefing sail in a gale on Friday of last week, off Cambridge, was knocked overboard and drowned. Young Blanche was sitting upon the fore boom, when a gust of wind suddenly threw it to one side, and he was hurled into the water. The vessel was running rapidly and was 300 yards away before the yawl could be lowered. Earnest efforts were made by the captain and crew to save the young man, who was a good swimmer and kept his head above water for several minutes, notwithstanding the heavy sea. He sank just as his companions were nearing him.

From Ridgely.—A literary and debating society has been organized at Ridgely. At their last meeting the following officers were chosen: L. V. Replogle, president; J. A. Heller, vice-president; I. T. Saulsbury, treasurer, and James H. Smith, secretary. "Resolved, That the United States owes a greater debt of gratitude to Lafayette than to Washington," was the question discussed last evening.

—The statement in last week's JOURNAL that a new depot was about to be erected was a little premature. There is still talk of a new station, and the necessity of the improvement is apparent to every patron of the road; but the company has not as yet taken any definite steps in the matter. We hope, however, to have more encouraging news to report soon.

—Thomas A. Smith intends rebuilding his extensive fruit evaporators, destroyed by fire last year, when it is ascertained that the peach buds have passed the danger point.

—L. V. Replogle has received the machinery for his new grist mill to started at this place.

Church Notes.—Rev. L. W. Haslup, of Easton, will preach in the M. E. church South at Hillsborough tomorrow morning at eleven o'clock.

—The revival in Hillsborough goes on with unabated interest. Twenty-five penitents were at the altar last Sunday night, six of whom were converted. Up to Tuesday night forty-two had professed conversion, thirty-one had joined the Methodist Episcopal church and five the M. E. church South.

—There will be preaching in the Ridgely M. E. church to-morrow at 3 p. m. Rev. W. K. Galloway, of Wilmington, will assist in the services both at that place and at Hillsborough.

—The revival meeting which has been in progress in the Denton M. E. church for the past four weeks has thus far resulted in but one conversion. It is probable that the Rev. W. K. Galloway will be present and assist in the meeting to-morrow evening.

—Revival services at Greensboro' M. E. church, discontinued a few weeks ago, were again commenced last Sunday night.

New Advertisements. — J. A. Trazzare, a former Dentonian, who has lately opened a first-class grocery store, invites everybody to call and see his stock.

—Samuel Amdursky has within the last few days added a very large assortment of silver tableware to his stock. No one need go to the city for goods in this line. Everybody can be assured of fair dealing at Amdursky's.

—Thomas S. Kinnamon, Goldsborough, marks down his stock of winter goods, and invites his friends to examine the bargains while they are going.

—Frederick Fountain, agent for the well-known fertilizer manufacturers, R. J. Baker & Co., Baltimore, publishes his advertisement to-day.

—J. W. Kerr, president of Denton Cemetery Company, requests a meeting of the stockholders of the company next Saturday.

—George T. Melvin, attorney, will offer for sale on the 10th of March, next, some very desirable property in Marydel.

—Curtis A. Wright, late tax collector of the Fourth Election District, advertises real estate and personal property to be sold for taxes.

Town Notes. — The Masonic and Templar lodges have new carpets and furniture for their new quarters in Masonic Building.

—Mrs. Margaret Parnell, of Denton, has been paid the amount of insurance, $1,000, held by her late husband in the I. O. Heptasoph conclave.

School Notes.—R. H. Dill has contracted with the school commissioners to remodel the old M. P. church building at Burrsville, lately bought by the board for a school house. The school house to be vacated will be fitted up for a colored school.

—The commssioners will be in session next Tuesday.

Peach Buds.—It is stated that there is considerable anxiety amongst the fruit packers of Baltimore for the safety of the Peninsular peach buds. Growers hereabout believe that as the mercury has during the coldest weather showed a temperature much above the danger point there is no occasion for alarm. In their present state the buds can be killed only by temperature many degrees below zero.

The Bell Cord to Go.—The passenger cars of the Pennsylvania Railroad Company will soon be equipped with the Westinghouse train signal. The contrivance will do away with the bell rope now generally used, which runs from car to car, and enables the engineer to be signalled at a moment's notice and with great certainty. The signaling is done by means of a tube running from a whistle in the engine to the end car, the connection from car to car being similar to the air pressure and in each car a valve, the escape of air from it when opened sounding the whistle in the engine.

Personal. — The marriage of Mrs. Annie G. Lyden, of Denton, to Mr. George J. Meekins, of Cambridge, will be solemnized at Christ church, Denton, next Tuesday at 12 o'clock noon. Rt. Rev. Henry C. Lay, assisted by Revs. S. D. Hall and Theodore Barber, will officiate at the ceremony. No cards have been issued.

—Since Mr. James F. Melvin assumed charge of the Cambridge Chronicle the paper has undergone a complete metamorphosis. It has abolished the patent outside, has added four columns to its size, and has come out printed in new type on a new Hoe press. It is now one of the handsomest and best edited weekly papers in Maryland. A departure which is especially to be commended consists in the adoption of the system of cash payments. This is a necessary feature in every prosperous newspaper office.—Baltimore American.

—Mr. Bradley J. Fisher, of Baltimore, is visiting friends in Denton.

—Mr. Edward B. Redden, of Farmton, was in town this week.

Items from Greensboro'.—The young people are making arrangements for an Ethiopian burlesque entertainment, which will be put on the boards at Mozart Hall on the 23d. There are some excellent character actors enlisted, and an evening of enjoyment is in store for the lover of the ludicrous.

—Prof. Swann, examiner, visited the Greensborough schools last week and found them in excellent condition.

—There will certainly be no dearth of ice in and about our town this year. About a dozen houses have been filled.

The Choptank Ice-Bound.— During Monday night's rain-storm flashes of lightning lit up the heavens and roaring thunder was clearly heard, which is generally understood, says a weather prophet, to mean a breaking up of winter. Soon after three o'clock Tuesday morning a northwester sprang up, and the heavy clouds were driven southward at a rapid rate. At seven o'clock the mercury had fallen far below the freezing point, and early risers on leaving their homes were greeted with real cold weather. At three o'clock in the afternoon the breath of "Jack Frost" sent the mercury down to 27 degrees, and at night it registered 6 degrees. The mercury had not fallen any lower at daybreak on Wednesday, greatly to the relief of the owners of peach orchards. The cold wave was accompanied by high winds. Several of the steamers which left the Choptank on Monday were delayed. The Minnie Wheeler was first to arrive in Baltimore. The steamer Ida laid over at Oxford and did not reach Baltimore until Tuesday morning at 9 o'clock. She made her regular trip on Wednesday but ice closed navigation in a few hours after her departure. She did not arrive at Denton yesterday.

"The Course of True Love," Etc.—The Seaford (Del.,) Enterprise says: On a large farm, nearly in sight of the quiet little town of Federalsburg, Md., resides a blooming young girl of twenty-two summers, also her cousin and father's ward of two years her senior. Both of these have beaux whom their stern old father and uncle do not approve of. The lover No. 1 and his sweetheart, unbeknown to the other parties, had made all arrangements to steal off in the still night and get married. This was also the plan of the contracting parties No. 2. The ladder was hid back of the garden for the purpose of scaling the walls at the proper time. In the bewitching hours of the night, when the grave yards yawn, lover No. 1 placed the ladder to the window of girl No. 2. The night was dark just at that time. She made her exit out of the window and into the arms of the supposed knight, and was hurried off to the carriage near by. Not a word was spoken as long the ramparts (the old man's back lane) they hurried. The carriage was gained, and the lash was applied to the horses. When they arrived at the preacher's house, who was waiting to tie the knot, the gallant knight then discovered that he had got the wrong girl. Of course, there was some salts and inward cuss words, and the tug of war came—how to get the weeping girl back undiscovered. Lover No. 2 met with an accident by running his buggy against a post and carrying away his port wheel, and failed that night to arrive at the house. The old man has bought a $13 gun, and is nightly in ambush for the raiders.

Our Morning Mails.—For some time past the question, Will the mail route between Baltimore and the Choptank be stopped? has been much talked of. The Maryland Steamboat Company has for years had the contract. Their contraact will expire next June. At the recent mail lettings the route was not contracted for. There were understood to be three bidders for the service, namely, the Maryland Steamboat Company, the Choptank Steamboat Company, and a third party whose name has not transpired. An agent of the Department has visited Easton and other points inquiring into the facts in the case with a view to deciding whether to discontinue the water route. A number of gentlemen, including Congressman-elect Gibson, went to Washington a few days ago to urge the continuance of the service. They stated that the withdrawal of the steamboat mails would work great injustice to the people of Dorchester and Talbot counties, and others. They now get their Baltimore letters at all points tant early in the morning. The same letters would reach them late in the afternoon. This would deprive them of receiving returns (should the ship produce) in time to act for the next boat bound for Baltimore. The same trouble would be met by Baltimore merchants. The letters from the Choptank, which now reach Baltimore early in the morning, would get there late in the afternoon—too late for business.

Names Put in the Box.—The following is a list of the names placed in the box, from which the April grand and petit juries were drawn:

James W. Harris,	James H. Davis,
Thos.A.Smith of S	Foster Green,
Joseph B. Orrell,	Wm. B. Nuttle,
E. S. H. James,	James D. Wilson,

Evan Morgan of O	A. Willoughby,
Zabdial Fountain,	Caleb NCoulbourn
David S. Moore,	John C. Jarrell,
Geo. W. Ranghley	Nathan Flowers.

Cherries, Plums, Grapes and Apples. A correspondent in North Carolina, writing in the American Farmer, inquires: "First, will you name six of the most profitable cherries, the best first, and so on? Second, is it true that the Morrellos are best on Mazzard stocks? Third, how about the Shropshire Damson; is it any improvement on the common variety? Fourth, are any of the Chickasaw plums better than the Wildgoose? Fifth, how does the Excelsior grape compare with Jefferson? I don't like some of the standard fruits; for instance—'Stump-of-the World' peach, and Summer Queen. I find Moultries winter Cullasago and Mason's Stranger, winter apples, to be entirely worthless here." Mr. John W. Kerr, the well known nurseryman, who is a recognized authority on fruit culture, writes in reply: "First, Ida Griffin or Yellow Spanish, Schmidt Bigarreau, Black Tartarian, Early Richmond, and Louis Phillippe. Second, the Morrellos succeed better for me on Mahaleb than on Mazzard stocks. Third, the Shropshire Damson is a decided improvement on the old or common blue variety. The trees are not early in coming into bearing, but quite productive when they do begin, and, as every one who is acquainted with the tree knows, it is a remarkably nice grower. Fourth, if market value is the standpoint from which to answer, then I say that there is none that I have yet tested that are equal to the Wildgoose. If, on the other hand, quality of fruit is best, there is room for discussion. For my own taste I prefer Moseman when fully ripe to any other kind I have fruited. * * Fifth, Excelsior grape is quite distinct in in its foliage. The vine is a vigorous grower and quite prolific. It is, with me, as much a white grape as eith Lady Washington or Eliza, both of which, when bagged, assume an amber color." Mr. Kerr regards Mason's apple as an excellent keeper, although that is all to be said in its favor; and that the Moultrie is our old Grindstone under a new name.

—In no large city on this continent can living be had as cheaply as in Baltimore. The terms of the "Maltby House" fully illustrate that fact. †

—Mr. George J. Meekins, treasurer of Dorchester county, who recently contracted for $3,000 worth of our county bonds, at par, on Tuesday last received and paid for them. It is understood Mr. Meekins bought them with the view of exchanging them with persons holding Dorchester county bonds.

—Surprise is frequently expressed at the superior fare and accommodations furnished at the "Maltby House' Baltimore, for so small a charge. The secret is that its terms are made to suit the times. †

DIED.

SEWARD.—Near Bridgetown, on Saturday, Feb. 7, 1885, Sallie Seward in the 70th year of her age.

—The largest stock and the best brand of cigars at TRAZZARE'S.

—Fresh roll butter, at 25c. per lb, at TRAZZARE'S.

—Coal oil at 12 cents per gallon at TRAZZARE'S.

—Valentines—beautiful designs—at GEORGE & REDDEN'S.

STRIKES ARE OCCURING all over the country, but if you have a cough or cold the best thing you can do is to strike for George & Redden's drug store, and get a bottle of DuLac's "Swiss Balsam." 2-14-2t

Clara Louise Kellogg is to receive $12,000 for singing twenty nights in Paris,—$600 a night! No wonder she is in love with Dr. Bull's Cough Syrup the great remedy for coughs and colds, for what would she do without it, if she should be attacked suddenly by hoarseness?

"He jests at scars who never felt a wound," and a man may with his hands in his pockets laugh at the poor, worn rheumatic, but if he a gentleman, he'll step into the nearest apothecary shop and buy him a bottle of Salvation Oil at the small expense of only twenty-five cents.

If a well be poisoned, woe be to those who drink thereat. It is worse to poison the fountain of life for one's self, and for posterity. Often by carelessness, or misfortune, or inheritance this has been done. Ayer's Sarsaparilla frees the blood, the vital stream, and restores appetite, strength, and health.

No other medicine is so reliable as Ayer's Cherry Pectoral for colds, coughs, and all derangements of the respiratory organs tending toward consumption. In all ordinary cases it is a certain cure, and it affords sure relief for the asthmatic and consumptive, even in advanced stages of disease.

NEARLY EVERY CASE of consumption can be traced to a neglected cold that finally became seated in the lungs, when by a timely use of a few doses of DuLac's "Swiss Balsam" the danger could have been averted.—This remedy will afford relief in ever instance. Contains no morphine or opium. Price 25 and 75 cts. Sold by George & Redden, Druggists, Denton, H. Duffy, Hillsborough, Md. 2-14-2t

TWO VERY UGLY TWINS.—They go hand in hand, and lead their victim a terrible trot down into the valley of the shadow of death. One is neuralgia, the other rheumatism.—These generally proceed from disordered blood. Brown's Iron Bitters knocks out these ugly twins by setting the blood aright and invigorating the system. Mr. W. T. Osborne, of Coxville, Ala., used Brown's Iron Bitters for rheumatism and neuralgia with most happy effect. It also cures dyspepsia.

Mr. E. S. Wells, who needs no introduction to the people of Jersey City, adds: "The testimonial of Mr. Titus is genuine and voluntary; only he does not adequately portray the suffering he has endured for many years. He is my brother-in-law, and I know the case well. He is now perfectly free from his old troubles, and enjoys health and life, ascribing it all to Parker's Tonic."

Unequalled as an invigorant; stimulates all the organs; cures ailments of the liver, kidneys, and all diseases of the blood. 2-7-4w.

HIS SLIPPERY GLASS EYE.—"The Squire," says the author of "The Hoosier Schoolmaster," "wore one glass eye and a wig. The glass eye was constantly slipping out of focus, and the wig turning around sidewise on his head whenever he addressed the people of the Flat Creek District." Sad spectacle. Parker's Hair Balsam preserves and promotes the growth of the natural hair. It also restores the natural color to hair which has faded or become gray. Clean, elegant, beneficial, highly perfumed. 2-7-4w.

An Excellent Medicine, the best I ever used. It goes right to the spot, and a single dose makes a new man of you. This is only a sample of some of the strong expressions used by persons who have tried J. M. Laroque's Anti-Bilious Bitters for Dyspepsia, Headache, Constipation and Disease of the Liver and Stomach. 25 cts. a paper; $1 a bottle. W. E. Thornton, Baltimore and Harrison streets. 2-7-2

BROWN'S IRON BITTERS

Trade Mark. QUALITY P PURITY NOT QUANTITY. On Every Bottle.

PHYSICIANS AND DRUGGISTS RECOMMEND IT.

—THE BEST TONIC.

This medicine, combining Iron with pure vegetable tonics, quickly and completely Cures Dyspepsia, Indigestion, Weakness, Impure Blood, Malaria, Chills and Fevers, and Neuralgia.

It is an unfailing remedy for Diseases of the Kidneys and Liver.

It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives.

It does not injure the teeth, cause headache, or produce constipation—*other Iron medicines do.*

It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves Heartburn and Belching, and strengthens the muscles and nerves.

For Intermittent Fevers, Lassitude, Lack of Energy, &c., it has no equal.

☞ The genuine has above trade mark and crossed red lines on wrapper. Take no other.

Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

FOR

Man and Beast.

Mustang Liniment is older than most men, and used more and more every year.

☞Job printing of all kinds neatly and promptly executed at this office. Send in your orders.

KING'S EVIL

Was the name formerly given to Scrofula because of a supposed property which could be cured by a king's touch. The word is now more appropriate than ever when applied to

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Disease, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

is composed of the genuine *Honduras Sarsaparilla*, with *Yellow Dock, Stillingia, the Iodides of Potassium* and *Iron*, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

Ayer's Sarsaparilla

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

[Analytical Chemists.]

Sold by all Druggists: price $1; six bottles for $5.

BALTIMORE.

ESTABLISHED 1844.

Have always on hand a large stock of Foreign a Domestic Liquors, which they are prepared to sell in quantities to suit.

Their long experience in this line, which they have made a specialty, and the well known

REPUTATION OF THE HOUSE

is a sufficient guarantee that all goods sold by them will be found as represented. 9 1 tf

CEMETERY NOTICE.

The undersigned hereby give notice that the first choice lots in Ridgely Cemetery will after this date, for two months only, be sold at $15 each, and others at $12 and $10 each, instead of $20, $15 and $12. The object is to raise money to defray expense in enclosing the grounds with a substantial fence. JOSEPH H. SIMON, JACOB D. BOWERS.

January 17th, 1885.

ADVERTISEMENTS prepared an inserted in all newspapers in the best manner, at lowest rates. L. Jeff Milbourne & Co., Baltimore, Md.

PAST AND FUTURE.

The Old Year, with whatsoever of joy and gladness, of pain and sorrow, of contentions and staife, is now numbered with those of the past, and the New Year has been ushered in filled with varied anticipations, the realization of which depends largely upon the manner in which we figure in the future whether for weal or woe. Whatever of good we have enjoyed in the past, let us bring it forward as an item with which to open a new account, while the evil let us cancel, with the determination to better results. Let us bury in oblivion every act that has in anywise tended to mar the happiness of any and all with whom we may have had social or business intercourse, and look forward to the prospects of the new year with unrelenting zeal for the promotion of each other's good, thereby adding daily items of good to the page already opened.

Let the pleasant smile supersede the frown. The despondent look melt itself away in the radiance of a bright and cheerful countenance. Look always on the bright side of the picture. Give vim and and energy to the performance of every business transaction. Boldly assert the truth and dare defend it. Be diligent, be courteous, be sober, be charitable, for with these indispensable requisites, the future of life can well be foreshadowed.

Then why should we entertain despondency for a single moment? Let adversity frown—it is one of the natural consequences belonging to our race, but by persistent effort and a determined struggle we can rise above its evil effects, and prosperity will yet perch upon our banners.

While the above suggestions are well-timed and to the point, another important suggestion here presents itself, that economy is consequent to success, and great caution with no little degree of discernment should be exercised in all our business relations.

The future is now before us and it is whether we shall make the New Year prosperous and happy, or by a spirit of indifference, lose all the good results that might otherwise have been obtained, and to this end would direct all buyers to examine and consult the immense stock and prices at T. D. Larrimore's Ladies and Gent's Dress Goods Emporium, where everything has been brought to a level with the depression of the times.

T. D. LARRIMORE,

Opposite Brick Hotel,

CATARRH

Ely's Cream Balm Cures Catarrh, Rose-Cold, Hay-Fever, Cold in Head, Deafness, Headache. Price 50 cents. Ely Bro's, Owego, N. Y. U.S.A. Easy to use.

HAY-FEVER

Couldn't Work. A young man 6 years in my employ was so affected with catarrh as to be incapable of attending to business. Ely's Cream Balm cured him. I have recommended it to several friends, where cures have been effected.—Eugene L. Button, (of Button & Ottley), 56 Warren S., N. Y.

My daughter and myself, great sufferers from catarrh, were cured by Ely's Cream Balm. My sense of smell was restored.—B. M. Stanley, Merchant, Ithaca, N. Y.

A pure remedy. Give it a trial. Ely's Cream Balm causes no pain. Gives relief at once. A thorough treatment will cure.—Not a liquid. No a snuff. Apply into the nostrils. Price 50 cts at druggists; 60 cts by mail, registered. Sample bottle by mail 10 cts. Ely Brothers, Druggists, Oswego, N. Y.
