BALTIMORE, MD.

Good Roads Bids Ordered.

The State Roads Commission began preparations for active work in the construction of new roads when it ordered advertisements for bids for about 50 miles of roads in 10 counties. It is believed the bids will be opened on May 27 and the contracts let.

The counties in which the work is to begin and the mileage are as follows:

St. Mary's—Five and three-tenths miles.
Cecil—Three and three-tenths miles.
Kent—Three and three-tenths miles, from Chestertows toward Kennedyville.
Queen Anne's—Two miles, from Centreville toward Church Hill.
Talbot—Three miles.
Caroline—Five miles.
Dorchester—Four and three-tenths miles.
Wicomico—Five and eight-tenths miles.
Worcester—Five and eight-tenths miles.
Somerset—Three and one-tenths miles.

The commission decided to invite bids on stone, gravel, oyster-shell and sampittic roads for the different counties. In some places the four materials will be placed in competition. The sampittic road is built of sand and tar, and Mr. Crosby and the commission believe that it can be used to advantage in certain counties. Miles of it have been laid in Massachusetts, at Cape Cod and in California. The roads can be built at a cost of between $1,000 and $3,000 a mile, according to materials and conditions.

After the bids are received the commission will determime upon the material with which each road is to be improved and award the contract. By placing different materials in competition the commission believes it will get better prices for all of the work.

Worton Items.

The programs have arrived for the Children's Day at the M. E. Church which will be held the first Sunday in June.

Miss Arsula Moffett, of near Still Pond, visited the home of Mrs. Loller several days last week.

THE STANDARD OF THE WORLD

OBJECTS AND PRINCIPLES OF THE Jr. O. U. A. M.

FIRST—To maintain and promote the interests of Americans and shield them from the depressing effects of unrestricted immigration; to assist them in obtaining employment and to encourage them in business.

SECOND—To provide for the creation of a fund or funds for the payment of benefits in case of sickness, disability or death of its members, to members, their legal dependents or representatives, and to issue certificates of membership for the same.

THIRD—To uphold the American Public School System, to prevent interference therewith, and to encourage the reading of the Holy Bible in the schools thereof.

FOURTH—To promote and maintain a National Orphans' Home.

We recognize the landing upon our shores of the ignorant, the vicious and the lawless of the Old World as a constant menace to our institutions, and believe that it should be viewed with alarm by the loyal and patriotic citizens of the country.

We would place a flag upon and a Bible within every Public School-house of our land, that all might learn these to be a beacon light in every storm which may threaten our destruction.

We Are Still Doing Business

in same old style and same old place, and hope to serve our patrons in the usual manner. Our motto—"Square Deal." A brand new line of

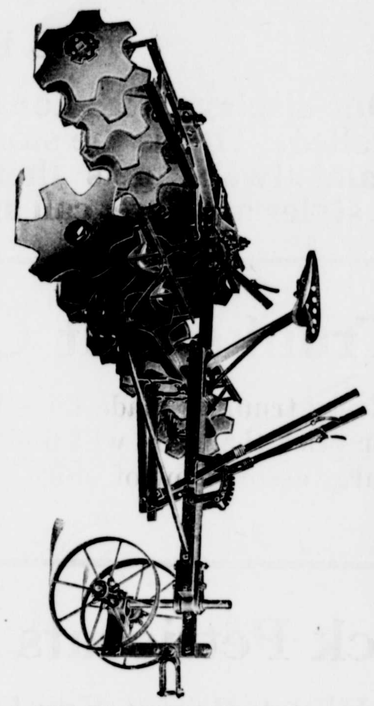
Implements & Hardware

just received. Come in and look them over.

CLOVERLEAF MANURE SPREADERS—run light, very durable and roller bearings.

DEERING BINDERS AND MOWERS,

all sizes, and a full line of REPAIRS constantly kept on hand for them.



IMPERIAL Double Disc Harrow.

It harrows the ground twice in one operation, saving the labor of a man and two horses. It enables the farmer to do his work in one-half the time, making the most of favorable weather and soil conditions. It gives better results than any other implement in broken or cultivated ground.

In construction the Imperial Double Disc Harrow is a complete outfit in itself. The forward harrow with a second harrow (in throw) attached by a flexible frame. The forward harrow cuts the soil and throws it outward, the rear harrow works it again and throws it back, leaving the surface finely divided and perfectly level. The rear gangs follow the front gangs in turning and the dirt is not thrown up in ridges at the corners. Every inch of ground is pulverized and leveled.

Rear gangs may be quickly and easily detached and the machine used as a single disc harrow if desired.

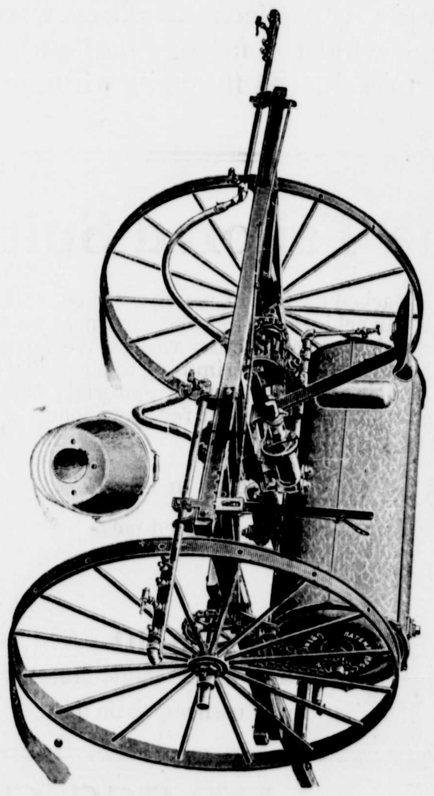
IRON AGE FOUR-ROW SPRAYER.



Insures the most rapid, effective and economical application of spraying solutions to growing crops. It is adjustable for width and height and force of spray; furnished with galvanized or wood tank. Has orchard attachment which when applied gives excellent results. It is also furnished, when ordered, with middle-row attachment which gives facility for spraying three rows of tomatoes, cucumber, cantaloupes, etc., at one operation. Single or double acting pumps. Tanks of 50 or 100 gal. capacity.

IRON AGE POTATO PLANTER.

(IMPROVED ROBBINS.)

This planter makes no misses or doubles; plants 100 per cent. correctly. Does not *puncture* or *bruise* the seed.

The New No. 4 Black Hawk Corn Planter.

Made adjustable in 5 different widths, 3 ft. to 3 ft, 8 inches. Automatic reel, and for accuracy of dropping we have them all skinned to death.
