New Ruling Halts Wine Making!

Kent countians who, even since the advent of Prohibition, have continued to make dandelion wine, grape wine and other beverages which for hundreds of years have been fermented for home consumption, are now warned by a definite ruling from the United States Revenue Department, that such procedure is now a simonpure violation of the prohibition laws, and those who persist in making wines are just as guilty as the bootlegger or the man who operates a "still."

The new ruling becomes effective May 1, just at a time when the dandelion season probably will be at its height. Copies of the ruling, known as "Regulation 60" are being widely distributed by Edmund Budnitz, prohibition director for Maryland.

"Regulation 60," as the 255-page volume is called, is a complete revision of rules relating to alcoholic liquors. On the point about which Representative John Phillip Hill has long maintained an active controversy with the prohibition unit.

If it goes sour he may sell it to a licensed manufacturer of vinegar. But if it is intended for other than immediate beverage use, or for other than home use, fresh cider and fruit juices must be immediately sterilized and sealed or otherwise preserved.

Dried fruits, dandelions and rhubarb may not be lawfully used for the production of "non-intoxicating cider and fruit juices."

The advertisement and sale of all apparatus and materials for the manufacture of liquor for use in the home or elsewhere for beverage purposes are forbidden.

The sale of malt extract with hops and clarifier to other than permittees is not permissible, notwithstanding the fact that the vender may furnish the purchaser of such materials with recipes containing a warning or caution not to do certain things, as thereby the product will develop a high adcoholic content.

RITCHIE GIVES SWEPSON EARLE MR. VICKERS' PLACE

The appointment of Swepson Earle as State Conservation Commissioner to succeed Harison W. Vickers, of Kent county is announced by Governor Ritchie, effective May 5. Mr. Earle is engineer to the Conservation Department. His term will be four years.

Mr. Earle is considered one of the foremost authorities on the Chesapeake Bay and its industries. He has been a close student of them, from both the scientific and practical viewpoint, for more than 20 years. He is a native of Queen Anne's county, on the Eastern Shore, and has written several books on the Bay and 'Sho.

Born in 1879, the son of W. B. Earle, he entered the service of the Coast and Geodetic Survey at the age of eighteen and had experience in the Chesapeake bay and the Potomac river. He invented what then was the only practical continuous profile sounding machine for use extensively in foreign countries.

Two interesting additions to the literature of Maryland from the pen of Mr. Earle are "The Chesapeake Bay Country" and "Maryland's Colonial Eastern Shore."

TOMATO SEED

The first important step to insure a good crop of Tomatoes is to get good seed.

Experts tell us the best Tomato Seed grown in this country are grown in Michigan, because there is less "wilt" in Michigan than in any other State.

For a number of years now w have been selling this "Michigan" grown seed and we and our customers are fully convinced of their quality. They produce better CROPS, they run TRUE TO NAME, and they cost no more money than many of the seed that are offered whose origin is unknown.

All the standard varieties in this Michigan Seed are offered while they last at $2.50 per pound.

We can refer you to many of our customers who can tell you the value of this particular seed.

If you want cheaper seed we have some good Delaware grown seed in Greater Baltimore and New Stone that we can sell you at $1.50 per pound. These are good seed for native grown stock and run very true to name.

Our Garden Seed stock is very large and our prices are lower than present market would afford. Come see us when you want seed of any kind.

Buick Value—The Measure of Automobile Values

People now-a-days measure automobile values on the basis of Buick value. How often you hear such remarks as: "It's not nearly as good as Buick". People make these remarks both consciously and unconsciously. Consciously, because they actually know Buick value either from their own experience or that of their friends; unconsciously, because for twenty years Buick has been the accepted standard of the industry. Good reasons, both, why you should own a Buick.
