It will be seen by reference to a notice in this morning's paper that the Commissioners of Easton will hold a special meeting on Monday the 30th inst., for the purpose of taking the sense of the citizens as to the expediency of lighting the town with gas, and also with the view of applying to the Legislature for an increased rate of taxation to supply the wants of the town. This movement on the part of the Commissioners is truly commendable and it is hoped will be seconded by every one who feels an interest in public improvement and convenience. The subject of lighting the public streets has been long entertained, but the town authorities have been unable to carry out the project, owing to the inadequacy of the present rate of taxation. Now that the introduction of gas affords an easy facility for its accomplishment it is hoped that the citizens, generally, will respond to the call and sanction the action of the Commissioner in their laudable enterprize.

We see it is prophesied in various quarters for a mild winter. May Heaven grant it. For a winter of such severity as the last, what would be the result? Owing to the present state of affairs in labor and money, what can be the feeling of thousands at the mere thought of the cold, pinching winds and biting frosts which we have had of late years? It may be that our winter will be *light*—and the coming spring cast an entire different shade over the whole nation, and cause every heart to rejoice at the change.

Notice.—We dislike very much to dun those indebted to us at so early a period; but owing to the scarcity of money and having to lay in a quantity of printing material, or else, in all probability, be compelled to—owing to the closing of navigation—we must undertake the disagreeable task. We are almost ready to make an appeal like the following, from a Pennsylvania editor to his patrons at times:

'The editor wants grain, pork, tallow, candles, whiskey, linen; beeswax, wool; and anything else he can eat.'

Court.—Owing to indisposition of Judge Hopper, there will be no court until the 2d Monday in January next. Sickness is a matter that cannot, of course, be helped, but were there more than one Judge on the bench this delay of public business would not occur. There is no doubt the people are getting tired of the one Judge system.

A Mild Winter.—The Chicago Times says the knowing ones are prophesying a mild winter. The corn-husks are remarkably thin—a sure sign, in the rural districts, that the winter will not be severe. A wiseacre in Canada also foretells a mild winter. There has certainly been more "Indian summer" than usual.

Military.—An effort is being made to get up a military company in Easton. Success, we say, to the undertaking. Nothing gives more life to a town than a well-drilled military company.

We have several original articles which will appear in our next. Among them is a letter from our fair correspondent 'Adele G,' and a poem from our much admired contributor, "Harry Grenville."

Snow Storm.—On Thursday night we had a fine beginning of winter, in the way of a snow storm. The wind blew quite hard and the snow fell very fast, but for a short time only.

The Governor General of Canada has appointed Friday, the 27th of November, to be observed as a day of general fast, humiliation and prayer, in view of the state of affairs in India.

Fred Douglas publishes a card in the Watertown (N. Y.) Journal, expressing great indignation, because the proprietors of a certain hotel in that town refused to entertain him on account of his color.

Hours Changed.—It will be seen by advertisement in another column that the steamer Kent has changed her hours of starting.

A private letter, received in London states that 10,000 Sepoys were slaughtered at the capture of Delhi.

Changed Hands.—Acworth & Dougherty have sold their interest in the Somerset Union to Jas. D. Wood, Esq.

The report of the Union Dorcas Society is crowded out of this week's paper, but will be in our next.

For the Easton Gazette.

Mr. Editor: I congratulate you from the bottom of my heart that there is an end of democratic rule in the good old State of Maryland—and for ever I hope.

We have had enough now at home and abroad to convince the most skeptical that they only want the *power*, to rule with the high hand of despotism.

At home we have been told we will use your money as we please, and we will pay our friends what we please, as you have given us the power, what we deem proper for doing certain duties, although others, and as competent, if not more so, may offer to do the work for less. This high handed measure has been rebuked in the late election, though not to the extent I had hoped by discarding all of the same class or politics, and trying a new and independent set of men; still by keeping their bare faced acts before the people from time to time, we may hope for better government in our county as well as State. Although on its last legs locofocoism will out, and at the end of its reign tell you how you should be ruled—by a surrender of our bill of rights—and melancholy to be told, high legal authority of the State can be found who would uphold our Governer and attempt to make the good people of the State believe he had not exceeded his power. What will not party tempt man to do? But thanks to an All-Wise Creator, there are others *equal in ability*, have been induced, for good government sake, to come forward and point out his Highness's error, and he had the magnanimity to confess it, and abandon a manœuvre which instead of allaying, would have caused ten thousand times more confusion, had it been persisted in on the day of election.

I have said enough. Gov. Ligon's attempted rule has been counteracted at home and condemned abroad; we therefore have good reason to rejoice again and again that we are rid of such rule—and trust we may yet live to see other States in the union following the example of old Maryland, and give us all a good government, as pointed out by the Father of our country—*the immortal Washington*—under native born American citizens.

By an Old American Whig

Talbot County, Nov. 10, 1857.

P. S.—Under locofoco rule Baltimore had not power enough, and her State representation was increased; may we not now, there has been a good change wrought (if the same consistency of action is kept up by them) soon expect to see a demand from the locofocos that her power is too great and should be reduced, now they have lost control. It would only be keeping up the thread-bare game.

FOREIGN NEWS.

DETAILS OF THE NEWS BY STEAMER CITY OF WASHINGTON

The Great Eastern not Launched—Reported Loss of the Steamship Hydaspes, with Troops—A New York bark in Trouble, &c

The screw steamship City of Washington, from Liverpool at noon on Wednesday, the 4th of November, arrived at New York on Monday. Her dates are the same as those reported by the Ariel via Newfoundland. We give the details of her mails.

[illegible] ship heretofore known as the 'Great Eastern,' but now formally christened 'Leviathan,' was commenced at noon on the 2d instant. The usual means were taken to move the vessel, but for sometime without avail. After about three hours' labor, the ship had moved about six feet by the stern and a little over four feet by the bow, when one of the powerful purchase chains broke, and the work had to be temporarily suspended.

Operations were to be resumed as soon as the accident could be rectified, and the London papers of the afternoon of the 3d say it was confidently hoped that the ship would be afloat at high water on Wednesday the 4th. During the operations a sudden strain on one of the drums caused it to revolve with great velocity, throwing several of the men into the air like straws, and knocking down others with great violence.

Four men had their arms and legs broken, and one died as he was being carried to the hospital. Immense numbers of people, including many distinguished men, assembled on shore and on the river to witness the launch.

France.—The death of Gen. Cavaignac was the most important topic in France.—The event took place while he was out shooting, on the 28th ult., near Fours.—The General was in the act of raising his gun to his shoulder, when he felt a weakness suddenly creep over him, and he had scarcely time to hand his gun to an attendant who stood by when he fell to the earth and expired. He had just completed his 55th year. His widow forthwith proceeded to Paris with the remains.

The funeral obsequies of the General took place on Saturday, the 31st, in the Church of St. Louiard Autin. All was conducted with order and regularity, although the streets through which the procession to the Cemetery of Montmatre passed were crowded, and about 15,000 people followed the hearse to the gates of the cemetery.

As the hearse passed along, every hat was raised, and the spectators often remained bare-headed until it was out of sight.—No address was spoken over the tomb, but the soldiers paid the usual military honors.

In Paris, on the 3d, the funds closed at 66 90 for Money.

Sardinia.—The inundations in Piedmont were subsiding. The damage done was great, and the populace were suffering much from the visitation.

Austria.—According to a Paris letter in the new Prussian Gazette, in June last, a Convention was entered into by the Austrian and British Governments, to the effect that in case of a revolutionary outbreak in Italy, Austria may rely for protection of her dominions on the friendly services of Great Britain. The authority for this is not very reliable.

Denmark and Sweden.—The German intention of interfering in the Danish Holstein affairs, is said to have caused considerable sensation in Denmark and Sweden.—The official organ of the Swedish Government taxes the Germans with a desire to possess themselves of the Duchies by means of unjust interference with Danish rights.

An energetic debate on the subject of liberty of conscience was being carried on in the Chambers of the Swedish Diet.

Latest.—After seven days' debate, the religious liberty bill was rejected.

China.—The Paris Pays says:—"We have private intelligence from Hong Kong to September 8.—The Viceroy Yeh was expected at Canton about the 12th, on his return from Pekin. The emperor had conferred upon him the title of Hen-vzy-pank, which means heutenant of his person.

This is a rank which is never given except to princess of the imperial family when on a mission. It is said that Yeh has positive orders to summon the English to evacuate Canton, and is authorised, in default of compliance, to make an official declaration of war against England.

Miscellaneous.—Mr. James Morrison, one of the wealthiest of the "merchant princes" of London, is dead. The value of his property is estimated at nearly £4,000,000 sterling, a considerable portion of which is invested in sound securities in the United States.

The Catholic Bishop of Toronto, Canada, in addressing a congregation at Kilkenny, is said to have "earnestly entreated the people, if they could, by any possibility remain in Ireland, not to think of emigrating, as it was almost incredible, the misery and wretchedness he constantly witnessed among the unfortunate Irish emigrants.

The Liverpool Albion says:—"The bombardment of Greytown is a subject painful to the reflection of all right-minded men, both in England and the United States.—The facts are now familiar to the public, and we shall not repeat them. On Saturday, Sir Wm. Gore Ousley, K. C. B., sailed for America in the Arabia.

"It is understood that he is intrusted with full powers to arrange this delicate question with the President of the United States, and also the other vexed questions relating to Central America and the Mosquito Indians. In making this appointment Lord Palmerston has selected a minister not connected with his own political party, but connected with the United States by means of his wife, who is the daughter of an American citizen.

Pigs and Humans.—Mr Rives, of the Washington Globe, is in New York, and occasionally favors his friends with some sententious criticism on municipal affairs. Here is his last view:

"I don't believe in this feeding the poor from the public crib. I always noticed when we used to feed the hogs from a crib down in Virginia, two or three big hogs got all the corn and did well, and the rest got lean, but they all staid in the lane where the corn was thrown, and never put their nose to the ground to help themselves the whole winter. But those that were turned out and not fed from the crib, went off to the woods, and in the spring were all fat as butter, and their tails curled so tight that they could hardly get their hind legs on the ground. It is the same with men as with pigs; if you want their tails to curl, you must make them root for themselves and not teach them to go to the crib.

Baltimore, Nov. 12. 1857.

Dear Sir.—Upon consultation this morning, with Doctors Buckler and Bordley, my attending physicians here—they recommend most positively that I should not attempt to hold the Talbot Court until January. That under the most favorable turn of my disease I should [illegible] therefore adjourn your Court until the second Monday in January. I regret the public inconvenience that will be thus occasioned. Providence permitting I shall return home on next Tuesday, when I will approve the Clerks' Bond and swear them in if they will take with them their respective Test Books. I will also attend to Chancery business.

Yours most respectfully,

P. B. HOPPER.

S. T. Hopkins, Esq.

HARDWARE ESTABLISHMENT.

Among the leading commercial interests of Baltimore the Hardware business has a prominence and importance inferior to none. That city, indeed has long, by direct importation sustained this department of trade, upon an equality with its position in any other commercial mart. In connection with this primary fact we take pleasure in naming the house of Mr. E. M. Bosley, No. 4 Light street wharf, who has by long experience, business sagacity and zeal, established a highly successful and reliable enterprise. As an importer to a large extent he is enabled to supply the wholesale demand in all its variety, while from a well selected stock of fine and common goods, he offers to the public a choice which cannot fail to please the most fastidious.

Mr. Bosley's place of business on Light street wharf is not only within the scope of the Southern and Western trade, but exceedingly convenient to all persons, dealers, farmers and others visiting the city from the bay. While facilities of shipment by steamer or rail are at his very door. As a man of energy and enterprise, Mr. Bosley cannot fail to command success, and it is only in our appreciation of these qualities that we direct attention to this establishment. [s26 2m*

NOTICE.

ALL persons indebted to me will please call and close up their bills without delay. As I am going to leave the county, further indulgence cannot be given, for I must have the money, to enable me to meet my just demands, before I leave this town Those failing to "toe the mark," will find their accounts in the hands of an officer for collection. I shall continue to carry on my Blacksmith Shop here until the end of the year, and for all work done by me from this date, the cash will be required

HOWARD ASSOCIATION,

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

TO all persons afflicted with Sexual Diseases, such as Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the Vice of Onanism, or Self Abuse, &c., &c.

The Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago, directed their consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice Gratis, to all who may apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.

Just published by the Association, a Report on Spermatorrhœa, or Seminal Weakness, the Vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail, (in a sealed letter envelope.) FREE OF CHARGE, on receipt of TWO STAMPS for postage.

Address, for Report or treatment, Dr. GEO. R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa. By order of the Directors,
EZRA D. HEARTWELL, President.
GEO. FAIRCHILD, Secretary. nov 7—1y
