☞ Obituary Notices exceeding six lines in length, are also subject to a similar charge.

☞ For terms of subscription and advertising; see first page.

☞ Accounts of over six months standing are chargeable with the usual interest.

☞ Books received by mail will be promptly noticed under the editorial head.

THE RAILROAD AND THE APPROPRIATION.—We are pleased to learn that the residue of the million of dollars appropriated by the act of 1835 to Works of Internal Improvements on the Eastern Shore, is in a fair way to be obtained through the favorable consideration of the Legislature.

Already a bill for the purpose has been introduced into the Senate by Mr. Daniel, a stern, active, and determined member from Somerset, which has been favorably reported upon, and if it has not already, will doubtless pass, by a large majority.

Viewing the important measure in all its phases and aspects, the unanimity of feeling in favor of it on the Eastern Shore, the great justice of the claim, the importance of it, the plighted faith of the State to pay it as a just and honorable debt, we cannot indeed see why it should not pass without a single dissenting voice.

The Eastern Shore has been heavily taxed for like improvements on the other side of the Bay, and though she has not received any the benefits arising therefrom, yet she has always nobly responded to the call for her quota of the taxes. Now we simply ask only what is due us, as of right and justice, and demand that the faith of the State which stands pledged to the payment of the debt, shall be redeemed.

We most sincerely hope there will be no objection to it and that the bill may be passed without unnecessary delay. We have no fears of the result. We rely strongly in the integrity and intelligence of the members of the Legislature, and have too much confidence in their capabilities to appreciate the *rights* of the people on this Shore to believe for a moment they will trifle with their interests or deprive them of those rights. They would scorn to take one cent away that is justly due us, and on the other hand to give us a farthing to which we are not entitled.

But the progress of the bill in its passage, we fear, may be somewhat retarded by the efforts of one or two anti-appropriation anti railroad and anti-enterprising men, who have been for several days past hunting down persons to sign a petition or petitions for the *professed* purpose of *aiding* the measure, when at the same time it is known that they are and have always been violent opponents thereof. Finding a strong and overwhelming current of feeling in favor of the appropriation, they for a while desisted in their open denunciations of it, and resorted to this means of throwing such restrictions around it as would render it null and void, to all intents and purposes, and thereby accomplish their avowed determination.

We can assure the members of the Legislature that a large number, if not all the signatures to the memorials to which we refer, and which we believe have been presented to that body, were obtained under misrepresentation, yes, under the *pretence* that the object of the petitions would greatly aid the measure and further the completion of the rail road. And since the matter has become known, many we understand, who signed the petitions so industriously circulated, and which professed so much *friendship* for the project, have since openly avowed that they were deceived, and have since signed a counter petition in favor of the appropriation and the rail road.

The people of Talbot county are almost unanimous on this point and are as violently opposed in this respect, to the instigators of the effort to defeat the great measure as they themselves are opposed to the appropriation.

We advert simply to the fact of these petitions having been circulated and having received signatures thereto upon the professed plea of friendship to the enterprise, in order that a like deception may not be practiced upon the Legislature. The guards these men would have thrown around the important measure are such as would render the whole thing nugatory and defeat the very object for which it is asked. And they know it. Their efforts to defeat a measure wherein not only this county, but the whole Shore is deeply interested, will redound to their own mortification and insignificance in the future.

That the bill will pass is the earnest wish of every friend of the Shore, particularly those interested in the completion of that great enterprise—the Maryland and Delaware Rail Road. No man can foresee or foretell the great benefits and advantages it will develop to the people of the Shore. And when the iron horse shall come snorting upon his tri-daily course, there will be one acclaim of rejoicing and praise sent up in favor of those to whose zeal and untiring efforts are due the construction of the noble work.

Let us have a rail road then, so that when we are hemmed in by the ice—as we have been for several winters past, and almost to the exclusion of the necessaries of life—we can go to and fro without having to take the cold and disagreeable stage route.

DISGRACEFUL PROCEEDINGS IN CONGRESS.—In the House of Representatives, on Saturday last, was another of those disgraceful scenes which so often, of late, happens during the session of Congress. But the participants in this affair outstrip in number, any former one we have ever heard of.—The following are a few of the circumstances; which we have taken from a despatch in the Baltimore Patriot of Saturday evening: "It appears that while Mr. Grow, of Pennsylvania, was walking down the aisle on the Democratic side of the Hall, Mr. Keitt, of South Carolina, and a friend approached him, and a slight squabble ensued. Mr. Keitt struck Mr. Grow. The parties were separated by their friends. They exchanged words in an evidently excited and menacing manner. Mr. Keitt again dealt a blow at Mr. Grow, the latter knocking him down. Crowds of their respective friends rushed to the rescue. The various members on each side engaged in the fight in the area fronting the Clerk's desk. Mr. Washburne, of Illinois, was conspicuous among the Republicans, dealing heavy blows. The Speaker loudly called for order, and called on the Sergeant-at-Arms to interfere. At least a dozen members were engaged in the fight. Some minutes elapsed before this truly fearful contest was quieted, the members having reluctantly returned to their seats. There was a dead calm compared with the scene just enacted.

Mr. Quitman moved that they now adjourn, and take the question on the reference of the Message of the President on Kansas affairs on Monday, at one o'clock. Emphatic and general responses from the Republican side of "No! no!"

Confusion began to break out afresh, when the Speaker said he would direct the Sergeant-at-Arms to put under arrest those who disregarded the order of the House.—Mr. Campbell, of Ohio, said he foresaw disagreeable feelings would result here from the exciting questions connected with Kansas, and was called to order by Mr. Barksdale. Mr. Campbell, said he wished the gentleman from Mississippi to know that he was his peer."

The proceedings in the House on Monday were, in part, as follows: According to the agreement adopted upon Saturday morning the first business taken up was the call for the previous question upon the motions for the reference of the President's Kansas Message. The call was sustained, and the question then recurring on the motion to refer to the Committee on Territories it was lost, yeas 113 nays 114. The amendment of Mr. Harris, referring the Message to a Select Committee of Thirteen, to inquire into all the facts relating to the formation and adoption of the Lecompton Constitution was adopted, yeas 114 nays 111, and a motion to reconsider the vote just had laid upon the table by a vote of yeas 115 nays 111. Mr. Keitt, of South Carolina, made an apology for the violation of the decorum of the House on Saturday morning, admitting that he was the aggressor and taking the entire responsibility of the occurrence upon himself. He denied any knowledge of having received a blow during the collision. Mr. Grow also apologised, and the House then adjourned.

JNO. WILMOT, Esq., Adjutant General of the State of Maryland, has made his report, giving the number of arms, their condition, &c. He thinks from the "lamentable" condition of our militia, the military system should be thoroughly reformed and suggests that a Military College be established in Maryland as a State Institution, similar to the United States Academy at West Point. And if this proposition fails for want of patronage, then in lieu thereof, compel all our colleges and endowed academies, chartered rights not interfering therewith, to introduce therein, the study and practice of military tactics.

Thinking it may be of interest to our readers—especially in the county—we give the report of P. Robinson, late Armorer at Easton, made June 29, 1857, giving the number, condition, &c., of arms, then in the Easton Armory:

"308 muskets in good order; 293 bayonets in order; 50 muskets not in order; 225 muskets in rack for show; 150 bayonets; 19 rifles in order; 8000 musket cartridges condemned; 500 lbs. musket balls, drop; 300 pistol holsters; 100 artillery swords; 12 pistols in good order; 2 six pound cannon, mounted; 1 old gun carriage; 400 cannon balls, 6 lbs., lot of grape shot, 500 lbs.; 300 old muskets and rifles, condemned; 14 spontoons; 3000 old cartridges, condemned.

The house and shed is in very bad order, and wants repairs. I would say that the three hundred old muskets and rifles should be sold before they are eaten up by rust."

As will be seen by the above there were, at the time that report was made, but 308 muskets in good order, in the armory.—Gov. Ligon, last fall, when gathering up arms, made a descent upon our armory, and we suppose taking such arms as were most certain to *plug* the "know nothings," when rightly aimed, has left our means of defence rather slim, in the way of muskets.

The main building and shed spoken of above certainly is in a miserable condition. The windows, especially, we think, are unsafe for a building containing combustibles.

THE communication of "Othello," will appear next week.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—This Association, which we noticed some time ago, and when in its real infancy, has made rapid strides in the increase of the number of its members. It has also, since its formation added to it the "Young Men's Library Association." As the Library Association has been in operation for some time, it has accumulated a large number of useful books. With those and the constantly increasing library, the "Young Men's Christian Association" is increasing in usefulness and interest. They have made arrangements and are receiving all the leading newspapers of the country, periodicals, &c., which are filed regularly, and tastefully and conveniently arranged. Farmers desiring the leading works of the country on Agriculture can have their thirst appeased by the expenditure of a few cents, in joining this Association. The interest which is being taken in this matter by the leading men of our town is a sufficient guarantee of its success and a prospect of becoming in a very short time, of considerable note.

A course of lectures were commenced on last evening, by the President of the Association, Dr. C. C. Cox, and will be continued for a week by other eminent lecturers from a distance: such as Messrs. David Paul Brown, Wm. P. Preston, E. Yeates Reese, Wm. H. Brisbane and L. H. Steiner.

By reference to an advertisement in another column the full particulars can be seen.

"ARE WE GOING TO HAVE WINTER?"—To this so repeatedly propounded query, we can answer, yes! We have it now upon us attired in its most beautiful garb. All nature around is being hid from our vision; and while some hearts are regretting others are leaping and bounding at the thought of swiftly gliding along over the silvery surface amid the gingling of bells and merry laugh of jolly companions. From the manner in which the snow began to fall, it was pretty generally predicted that we were going to have a considerable *dish*. It commenced about 8 o'clock in the morning and continued to 8 o'clock at night.

GREAT IMPROVEMENT.—We understand the Masonic Lodge, Young Men's Christian Association and the County Commissioners have in contemplation the tearing down of the old Market House in this place, and erect in its stead, about ten feet nearer the middle of the street, from the old site, a new and larger one. Over which will be two stories, one to be occupied by the Christian Association, the other by the Masonic Order. This would be as great an improvement in the way of re-modeling as has been done in Easton for some time—the old building being in a miserable condition and hardly fit for use.

THANKS.—Messrs. Edmund Law Rogers, and Wm. B. Clark, of the House of Delegates, and Wm. A. Willis, Sergeant-at-arms of the Senate, will please accept our thanks for keeping us supplied with the regular journal of proceedings, of that honorable body.

Also Mr. Rodgers, for a copy of the report of the Adjutant General of the State of Maryland.

WE received one day last week, a very neatly published abstract of the thirty-third annual report of the American Sunday School, giving a history of its condition.

THE tradesman who does not advertise liberally has been very appropriately compared to a man who has a lantern, but is too stingy to buy a candle.

WE are requested to state that hereafter the M. E. Church bell will ring at 9 and 11 o'clock on Sabbath mornings, and not at half past ten, as heretofore, in this place.

SHOCKING AFFAIR.—*Hyena in the Woods.* A distressing tragedy occurred last week in the western part of this State. Ganning's Menagerie is wintering two miles west of Paulding, Paulding county. Among the other animals, was a hyena, said to be the largest in the United States. The animal was very ferocious, and had twice bitten his keeper. Early on Wednesday morning week the hyena escaped. Search was instantly made, and later in the morning he was discovered in the grave-yard, having dug up and partly devoured two or three dead bodies. Several of the citizens rushed in to take it, when it turned on its assailants, striking down a German day laborer named Jacon Poffenberg, and crushed the head of the unfortunate man in its jaws, killing him instantly. The brute then made its escape, after tearing the flesh from the right arm and chest of a lad, who is not expected to recover. The citizens are much excited. Parties are scouring the woods, and the menagerie men have been notified by some of the citizens to remove their establishment at once.—*Cleveland (O.) Herald.*

AN APPLE GIRL TEACHING SCHOOL.—While Mr. Westervelt was mayor of New York, he became interested in a very pretty and intelligent little girl who peddled apples in a basket around the city hall, and with the aid of other gentlemen she was put to school and kept there until she had acquired a thorough education. Now she is engaged as a teacher in one of the public schools in New York city, in which capacity she gives entire satisfaction.

THE CAMBRIDGE HERALD boasts of having the "largest circulation of any paper in this Section of the State." This may be so, but a fair statement of the number of quires weekly printed would enable its cotemporaries to determine with certainty whether the assertion be correct or otherwise. What say you gentlemen? What number of quires does it take for your regular weekly edition?—*Denton Journal.*

THE EARTHQUAKE IN NAPLES.—From Naples the latest accounts raise the computed number of victims from the earthquake. It is now supposed that 30,000 perished, while 250,000 have been rendered houseless.

News Items.

☞ The Secretary of the Navy has formally notified the Atlantic Telegraph company that the steam frigate Niagara will be again detained to assist in laying down the submarine cable in the spring. Chief Engineer Everett, formerly of the Niagara, has been granted leave of absence, and will proceed to England to arrange the preliminaries for laying the cable. It is stated that he is to have entire charge of the work.

☞ The woman, Mrs. Hays, of Saratoga county, N. Y., who is said to have lived nineteen months without food, is not dead, as reported, but still existing. So reduced has she become, that the back-bone can be easily felt, by placing the hand upon the abdomen. Great pains has been taken to prevent deception, and it is indeed difficult to conceive a motive sufficiently strong to induce the endurance, of the lingering agony of intense exhaustion she must have have suffered. The case is altogether one of great interest.

DEATH OF AN INFLUENTIAL CITIZEN.—Frederick A. Schley, Esq., died at his residence in this city, yesterday morning about 7 o'clock. The deceased was one of our oldest and most respected citizens, and possessed in an eminent degree the confidence of the people of this community. He was one of the ablest and most learned members not only of the Bar in this county, but was reservedly ranked among the ablest lawyers of the State.—*Frederick Herald, of Saturday.*

ROUT OF RURAWAY SLAVES.—For several years a number of runaway slaves have lived secluded in the Big Swamp, in Robeson county, N. C. A few days ago their camp was attacked by a number of armed whites, and quite a battle ensued, resulting in the death of two of the slaves and the flight of the rest. At their camp were found a large house, well shingled over; a smoke-house; a dairy; fattening hogs and all other things in the housekeeping line.

RUMORED SLAVE INSURRECTION.—A rumor has reached Chicago, Illinois, of a fearful insurrection near Fayetteville, Arkansas, incited among the slaves by two white men. The negroes, so says the report, attacked two settlements, killing 23 persons, burning the houses and killing the cattle.

Finally they were subdued by an organization of volunteers, who killed seven and captured eighteen. This report is doubted.

OFFICERS ELECTED.—The following gentlemen have been elected by the Legislature to the several offices mentioned:

Dr. Dennis Claude, Treasurer.

Lemuel Jones, Esq., Keeper of the Records of the Court of Chancery.

John H. Harris and Purnell Toadvine, Esquires, Directors, on the part of the State, in the Easton Bank of Maryland.

Trueman Belt and Samuel Duer, Esquires, Directors on the part of the State, in the Mechanics' Bank of Baltimore.

Frederick D. Herbert and Thomes G. Robertson, Esquires, Directors, on the part of the State, in the Hager-town Bank.

Rignal D. Woodbury, Esquire, Director, on the part of the State in the Farmers' Bank of Maryland.

MELANCHOLY.—A young lady residing near Cumberland city, who was to have been married on Thursday week, was a few nights previous stricken speechless. She lingered a few days in this condition and died. Her remains were followed to the grave on last Sabbath week. Her bridal robes were, by an inexorable decree, converted into the habiliments of the grave.—When she was looking forward with bright anticipations of future happiness with the idol of her heart, fate interposed, dashed the chalice from which she was about to drink from her lips, touched her brow with death's icy finger, and bore her bright form, but a few days previous radiant with life, health and beauty to the consecrated chambers of the dead. Truly, "in the midst of life we are in death." This is a sad but true story, and shows that we are but shadows pursuing shadows; here to-day, animate with bright hopes, and to-morrow inanimate, a thing of clay, a tenant of the tomb.

HEAVY EMBEZZLEMENTS BY A BANK OFFICER IN HARTFORD.—$100,000 *Missing—Escape of the Defaulter.*—The Hartford (Conn.) Press of the 1st instant has the following particulars of the heavy embezzlements just brought to light in that city:

The annual meeting of the association has been held, and though we are not aware that there were any suspicions of Mr. Seymour's integrity, a committee was appointed to make a thorough examination of the stocks, bonds, mortgages, &c., held by the association as security for its loans.

An examination had been commenced on the Saturday previous, (January 23d,) but Mr. Seymour had in some way avoided bringing forward his securities. On Friday one of the directors told Mr. Seymour that he wished to have an hour's conversation with him on Saturday, (the 30th) and they agreed to meet at 9 o'clock. A. M., on that day. Mr. Seymour told a friend that he had used about $100,000 belonging to the association; that he was going away and that his friend would never see him again.

An incomplete examination discloses the loss of between $60,000 and $70,000, but we hear that the total will probably exceed the figures named by Mr. Seymour.

MARRIAGE EXTRAORDINARY.—January 21st, at Medina, Charles Metzger, negro, was married to Mrs. C. Metzger, white.—The parties were residents of Liverpool, in Medina county. Mrs. M. is the widow of the father of her present husband, and being the second wife of the elder M. was consequently the step-mother of her present husband. She had by the father of her present husband three children. She is thirty-two years old, and her step-son husband is only twenty-one. Her present children, are half-brothers and sisters of their father and her children from the present marriage will be half-brothers and sisters of their father, and be half negro at that. A more "mixed up" and disgusting state of affairs can scarcely be imagined.—*Cleveland Review.*

☞ A pawnbroker of Sacramento, named Gavard, has in pawn a gold watch, made in 1799, which was presented in 1781 by Washington to Lafayette.

The citizens of Millington, Md., have engaged the Rev. Mr. Brisbane to deliver a course of lectures in that town, commencing on last Thursday evening.

☞ 683 persons have united themselves with the Methodist churches of Newark, N. J., on probation, during the last ten weeks.

UNFOUNDED REPORT

We have seen, recently, says the Baltimore Patriot, statements in various journals throughout the country, to the effect that negotiations were in progress between the Administration and Mr. Bernhisel, for the withdrawal of the army from Utah, the emigrations of the Mormons to some island of the ocean, and the purchase of their lands in Salt Lake Valley by the Government, &c.

The Washington Union contradicts all these rumors, and asserts that "the army was despatched to Utah, as one of the military departments of the country, where its presence is required independently of the Mormons; and it would probably remain in that department in the strength that has been despatched there, though every Mormon should evacuate the Territory.

"The lands of Salt Lake Valley have not, we believe, been yet sold to the Mormons. They occupy them as squatters, and have never yet derived titles from the Government. It would be remarkable if the Government should negotiate for the purchase of its own lands, which it has never sold.

"The Mormons are believed to have no present intention of evacuating Utah. The march of a formidable force of United States troops in that direction would probably induce a serious consideration of the subject on their part; but, strongly fortified as they are behind their canons and mountain gorges, well provided with provisions, arms, and ammunition, strengthened by manifold and formidable alliances with Indian tribes far and near—not to speak of the strength they command in Washington through the opposition that is manifested towards an increase of the army—the thought has not yet entered their minds for any early removal from Salt Lake Valley. The information received by the Government from reliable sources all concurs in ascribing to the Mormons the very opposite temper and purpose to the one reported; and it is not believed that they will be disposed to think of recapitulation upon any terms so long as the Government is prevented from sending a military force against them formidable enough in numbers to inspire them with trepidation.

"So far from any relaxation being likely to occur in the efforts of the administration to press on reinforcements to the army in Utah, we have conclusive reason to believe that every resource at its command will be exhausted by the War Department for swelling and expending those reinforcements.

WE invite our readers to the perusal of Dr. Ayer's advertisements which appear in the columns of our paper. They deserve attention as treating of what interests us all, and from a source which all have long respected. The Doctor is well known as one of the leading Chemists of this country, who devote his great acquirements to the discovery and manufacture of remedies for popular use. The unparalelled success which has followed his labors is too well known in this community to need any elucidation from our pen.—*Washington Co. Observer.*

AGAINST LECOMPTON.—The democratic Legislature of New Jersey, has passed a series of resolutions against the Lecompton constitution, as well as the democratic City Convention, Philadelphia, Pa.

☞ The consumption of snails in Paris has increased to such an extent as to seriously injured the oyster trade. A whole side of the new fish market is devoted to these delicacies.

☞ A late Dublin paper contains the following advertisement: To Let—The upper part of a cellar—to a small family, rent low. P. S.—Privilege on the sidewalk for a pig.

Brood Mares for Sale.

THE subscriber being overstocked with Horses, will sell four good Brood Mares, on six or twelve months time, as may be desired. Among the number is one four years old, very sprightly, and will make a fine road animal.

dec 19-3teo JOHN BAGGS.

COLORED SILKS.—Selling out my stock of Colored Silks (plain and figured) below cost—persons in want of a silk at the smallest kind of a price would do well to call and examine my stock.
