Epsom Salts in Sugar Coated Tablet Form

Anyone May Take Salts Now

The best physicians have always advocated the free use of Epsom Salts to start the action of torpid liver, to clear the blood and to cleanse the system generally. But because Epsom Salts are so "nasty" to take and so upsetting to the stomach, most people prefer to use something else.

But now all this is ended. Now anyone may take Epsom Salts compound—in sugar coated tablet form—a new method just perfected in one of the largest scientific laboratories in the country.

Wonderful results follow the use of this tablet. Thousands are taking them for laxative and blood cleansing purposes. They are actually pleasant to take. In addition to being sugar coated another coating of Salol is given them—this Salol is the greatest intestinal antiseptic known to medicine. Anyone may be sure to get the right kind of Epsom Salt Tablet with this special Salol coating by asking any dealer for Dill's Epso-Tabs. A large box costs only 25 cents. The Dill Company, Norristown, Pa.

At Bacon's Garage may be found the agency for the Chrysler, Hup Mobile and Cadillac cars.

A. M. Culp has erected a large advertising bill board on the roof of his large office building at his plant on High street. The sign board is so erected as will be seen for great distances, both sides of which may be used.

Buick Is More Expensively Built

Buick is built more expensively than any other cars in or near the Buick price class.

"Expensively built" means tha the different parts and units of the Buick motor cars are the best that engineers can design. But, thanks to the large volume which, public demand has given to Buick, and thanks also to production methods that are models of efficiency in an efficient industry, the Buick motor car can be sold to you at a very moderate price.

ARE YOU LOOKING FOR AN ASSURED INCOME?

Every Thoughtful man and woman wants to arrange for investments to provide for old age.

We suggest that you consider the Annuity Plan of Washington College.

1. High Dividends are secured. The semi-annual payments of annuity provide the largest income, consistent with safety. At the death of the annuitant, the principal goes, according to the donor's wishes, either to a designated or an undesignated fund of Washington College.

2. The investment-gift is safe. The $450,000 plant, and property and the good name of Washington College are behind it. The semi-annual dividend remittances will be paid as long as the annuitant lives.

3. Relief from investment anxieties and care is assured. Purchasers of the annuities in Washington College are released from further worry about reinvestments of funds, idle money, the passing of dividends or liability of loss from unsound investments.

4. Your money will work for you as long as you live and will accomplish your desires after death without the possibility of a bitter and costly contest of your will.

5. $100 and up may be thus invested in cash, estate, approved bonds and stocks.

Last year slightly more than 4,000 acres were planted in tomatoes, and it is possible that this may be reduced to 2,000 acres, unless the outlook improves for the growers and packers.
