Come to the Store

When a man comes to the store to buy his paint, he needs impartial, intelligent and friendly advice. A wrong selection of material is often a serious mistake, and a mistake in paint lasts a good while. We make it our business to know as much as possible about the goods we sell, and our customers are welcome to the benefit of this imformation. Perhaps we can give you some useful hints about color and decoration, as well as some general knowledge on the subject of paint. Our staple stock includes

LEWIS PURE WHITE LEAD

guaranteed by the well-known

DUTCH BOY PAINTER TRADE MARK

It is worth your while to talk it over with us before you buy.

COWED BY MOSQUITOES.

A Clergyman's Experience on a British Columbia Trip.

In 1860 the Rev. John Sheepshanks, later on the bishop of Norwich, was traveling through British Columbia. His book, "A Bishop In the Rough," relates his experiences on the Douglas trail, where the greatest discomfort was caused by the swarms of ferocious mosquitoes. He met with Indians covered with paint, carrying branches of trees in their hands, which they were sweeping around them as they walked. They were evacuating their country, being temporarily driven out by these pests. If by chance a traveler arrived at a clearing or an open space where there appeared to be an immunity from them, ere long they would appear.

"Quite early in the morning after meeting those Indians I issued from my tent and found an open space on the river's side where I could get my bath. But no sooner had I emerged from the water than I found swarms of mosquitoes assailing me, and, do what I would, slaughter them by dozens, I suffered severely.

"It was on that same day, dining at a wayside house, that I took part in a scene which I can never forget. There were twenty-five men going up to the mines. Food was on the table. There was a ceaseless hum in the apartment, for it was literally brown with thousands of mosquitoes.

"It was swelteringly hot, yet every man had made himself as impervious as he could. Each man wore his coat buttoned up, strings were fastened round his cuffs, and trousers also if he had not on top boots. They had gauntlets on their hands, their hats were on and veils hanging down covered face and neck. A man would stick his fork into a piece of meat and pop in under the veil as quickly as possible. When drinking their coffee the men would hold the cup underneath the veil, first clearing out the bodies of the mosquitoes which possibly had been feeding upon the hairy miner close at hand.

"Not a word was uttered during that brief meal, for we were beaten down and cowed by the insects. The first words spoken were by a miner in pushing away his chair from the table, 'Oh, this God forsaken country!'"

Consolation.

There was once a Billville citizen who could never rid himself of the chills, but went shivering through the hottest days of summer. When at last it seemed that all was up with him, his good wife to comfort him said:

"John, you've been a-shakin' an' a-shiverin' all yer life, but you'll get warm over there!"

"For the Lord's sake, Mary," said the shivering man, "don't talk so! Which way do you think I'm a-goin'?"—Atlanta Constitution.

Music Hath Charms.

"So you are fond of music?"

"Yes," answered Senator Sorghum; "I have the highest regard for it. When you go home and meet a crowd of constituents there is nothing like a brass band to take their minds off the explanations they have been looking for."—Washington Star.

An Instance.

Knicker—Time brings many strange changes. Bocker—Yes; the boy whose mother can't make him wash his neck grows up to be a rich man who goes abroad for baths.—Harper's Bazar.

It's folly to try dear mutes as servants; they won't answer.

Food Scarce.

"This circular describing the Mountingvue says you can sit at the dinner table and see the beautiful mountain peaks," said the man who contemplated going.

"That is true," replied the one who had been, "and that's just about all you can see."—Yonkers Statesman.

He Wouldn't Die.

Mrs. Peachblow—Why does your husband carry such a tremendous amount of life insurance when he's in such perfect health? Mrs. Flicker—Oh, just to tantalize me. Men are naturally cruel.—Life.

Not Unanimous.

She—There's Mrs. Toozle. She seems quite reconciled to the death of her first husband. He—Yes, but I'm afraid her second never will be.—Illustrated Bits.

In the adversity of our best friends we often find something which does not displease us.—Rochefoucauld.

FAIRFIELD FED FOWLS FEEL FINE

If the Egg Sac of a Hen is not supplied with pure, rich blood, the Embryotic eggs it contains cannot develop properly. Fairfield's Blood Tonic and Egg Producer purifies the blood and furnishes it with the materials from which eggs are made.

Cows coming off pasture will fall off in milk production unless they are fed Fairfield's Milk Producer regularly. It supplies them with the elements they have been getting from the juicy grasses all Summer, and puts them in trim for Fall and Winter milk production.

You have been experimenting with the old-fashioned "Cure-all" Condition powder long enough. It's time you were using the Modern, sensible and Scientific kind, the Fairfield Blood Tonics. A separate, and Different, Conditioner for each kind of animal. (Ask for Fairfield's Free Book).

Your horses have worked hard this past Summer. Their blood is filled with worn-out Cells and wast material. Build them up; perfect their digestion and purify their blood by the regular use of Fairfield's Blood Tonic and Regulator for Horses Only.

The Egg Factory on your farm will work full time if you feed your hens Fairfield's Egg Producer regularly. It provides them with egg-making materials and makes egg production regular and exceedingly profitable. Costs but a trifle. (Ask for Fairfield's Free Book).

Hog Cholera, Catarrah and all diseases of Swine are prevented by the regular use of Fairfield's Blood Tonic for Hogs Only. It fills the Arteries with pure blood, increases the functional activity of every organ and keeps the bowels in perfect order.

Forced feeding for egg production either causes indigestion or produces too much fat. In either case egg production is hindered. Fairfield's Egg Producer increases egg production in Nature's way by providing the hen with the elements of which eggs are composed.

Dairymen in this section attribute their increased profits this year to their regular use of Fairfield's Blood Tonic and Milk Producer for Cattle Only. They have proven that it saves feed, increases and enriches the milk supply and keeps cattle healthy.
