What Do I Know? What Do I Think? What Will I Do? And When Do It?

This is to advise the readers of this paper that the Chestertown Volunteer Fire Company will hold its Annual Carnival from September 10 to 18. They need your support, both financially and otherwise. They will aim to have things better than ever. The big Thursday Parade, September 16, promises to be far superior to that of last year, providing we all help? Will you help?

They want Kent County represented in every possible way. The Polo Team, The Fox Hunters, The Boy Scouts, The Camp Fire Girls, Sheen's Cavalry, Business Men's Association, Chamber of Commerce and above all the School Children of the entire county will be asked to be in the line of march on big Thursday Night.

Committees of ladies over the entire county, section by section will be formed with a view of getting subscriptions to help defray part of the expenses as well as to put life in the enterprise. They will be asked to endeavor especially to get the consent of the parents of the children to enter the parade and also the County Teachers will be asked to use their best efforts in this respect, small children will of course be accompanied by larger ones.

The Firemen feel that the school children have never marched close enough to a band of music to realize they had one, but in this case it is their desire to furnish one for their own special benefit, not only during the parade but at either the High School grounds or the Elementary School grounds they will be treated to a special concert in advance of the parade.

Now reader you may ask the question what do the Firemen do with their money? Our answer is just come to any meeting you wish on any Monday night in the year and you will find out, but in order that certain matters may be brought to your attention and correct evil thoughts will say that they

Do not pay salaries to any living person
Each man has bought personally his own musical instrument.
Every man works without pay.
The business is carried on in a business manner.
They want the public to call on them at any and all meetings.

They are abused at times for not coming to your rescue more promptly, but does the public give at all times sufficient information? The boys are not kickers, but ever ready to risk life and limb for others, so just give them water, they have the rest and they will at least protect the outbuildings or if they are on fire, they will protect your home.

Help the boys and from now on, do not forget you will be asked to contribute to the expenses of Big Thursday. You thought their other parade was good, well this is going to be much better and larger. Do not wait until your home, your barn your wheat or your straw has been lost to help, but help now.
