Petition For Ferry Rock Hall to Baltimore

Petitions are being circulated in Kent county requesting Governor Theodore R. McKeldin to have a survey made and to establish a ferry service between Rock Hall and Baltimore.

This petition is reported to have the backing of the Rock Hall Business Men's Association and the Rock Hall Mayor and Council, as well as individual business men of both Rock Hall and Chestertown.

A. W. Owens ,of Rock Hal, is circulating the petitions in the interest of the sponsors of the project and he appeared before the Chestrtown Business Men's Association at the regular weekly luncheon meeting on Thursday of last week.

The farmers, merchants and citizens of this county are so far removed from Baltimore that the new bridge or route 40 does not attract them to carry on commercial or personal shopping on the WesternShore They, therefore, find it more convenient to drive to Wilmington or Philadelphia.

A ferry making at least two trips daily between Baltimore and Rock Hall will be of great benefit to the merchants and citizens of both Baltimore and the Eastern Shore.

We are of the opinion that the traffic between the two points will more than pay expenses of operating an adequate ferry system.

GOOD MANNERS EMILY POST MODERNIZES

What is correct pocedure when unexpected guests drop in during your favorite TV show? Should a man leave bus before the lady? Emily Post says you may be following etiquette rules that you really don't have to follow. See guide to modern manners in January 27 issue of The American Weekly. Nation's popular magazine with the Baltimore Sunday American. Order from your local newsdealer.

I've Discovered that Fryryte has the LARGEST Cooking Capacity

Cooks more food in only 4 pints of oil than any other domestic deep fryer

LARGER ON THE INSIDE ON THE OUTSIDE
ULANE
Original
Fryte
ELECTRIC DEEP FRYER
Light weight—"tru-balance" design makes it easy to pour out oils for cleaning. No need for a drain spout which may clog or accidentally spill

USE INFRARED LAMPS for BROODING CHICKS TURKEY POULTS

Millsboro, Delaware
Broiler House, 20,000 Capacity
uses INFRARED LAMPS to provide warmth for chicks. Heat is controlled quickly and easily by thermostats and heat regulators.

With Infrared Lamps
- No hovers are necessary
- Fire hazards are minimized
- Chicks are always in full view for checking
- Chicks seek degree of heat they need
- Chicks feather faster
- Labor is greatly reduced. Heat is quickly provided by the flick of an electric switch
- One lamp provides warmth for 85 chicks at an economical cost. Lamps have long life.

Now Available!
Complete 4- or 6-lamp units with bulbs, thermostat, chain, outlet box, etc. For information write Industrial Sales Dept. Eastern Shore Public Service, Salisbury, Md.
