545 Persons Killed By Autos Last Year

545 persons were killed by motor vehicles and 13,195 injured on Maryland roads and streets last year.

Colonel E. F. Munshower, Superintendent of the Maryland State Police, said "without the help of every motor vehicle operator and pedestrian the number killed and injured in 1952 will be even higher.

It all depends upon the public's recognition of seeral primary factors.

1. You, as a driver and as a pedestrian, must realize that it is the little things done unthinkingly each day which cause accidents. Passing on a hill, just once, or a little im- [illegible] can cause [illegible] cars or off the curb without looking is ultimate suicide.

2. You must realize that an accident can happen to you just as quickly as to the "other fellow." You con't expect to be killed when you try to make up time lost in a late start while driving to work. But it could easily happen. Six thousand persons will be killed and one hundre dan dthirty thousand injured in Maryland by motor vehicles in the next ten years unless the motoring public changes its attitude about minor violation.

HELP US STOP THIS UNNECESSARY KILLING.
