CHESTERTOWN

ice was received last week from Dr. Albert S. Cook, State Superintendent of Schools in Maryland that one of the four group meetings of supervising teachers to be held in the state next month is scheduled for Chestertown, Notice reads as follows: "A group meeting of supervisors will be held in Kent County on Wednesday evening, Thursday and Friday January 26, 27 and 28, 1927, for the purpose of studying the work of Miss Woodley. Supervising Teacher of this county. The program has been arranged as follows:

Wednesday evening, 8 to 9, Preliminary Conference in the Elementary School Building, in Chestertown.

Thursday, 8 a. m. to 4 p. m., Visiting schools.

Thursday evening, 8 o'clock, Discussion of Work Observed.

Friday morning, 9 o'clock, Discussion of the October Bulletin, "A Supervisor of Town Schools Analyses Her Work;" and Presentation of Tentative Goals in History.

The conference will adjourn at 12 o'clock on Friday.

Besides the supervising teachers of the other eight counties on the Eastern Shore, one supervising teacher from Harford county and three from Baltimore county have been specially invited by Dr. Cook to attend this conference. Some of those in the other counties are also expected. Dr. Cook has urged the county superintendents of schools to attend one of the four conferences, and a number of them are already making plans to attend the one to be held in Kent.

Miss I. Jewell Simpson, Assistant State Superintendent of Schools in Charge of Elementary Instruction, assisted by Miss M. Theresa Wiedfeld, Assistant State Supervisor of Elementary Schools, will conduct the conference.

The selection of Kent county by the State School Officials as one of the four centers in which to hold these conferences this year is a well deserved compliment to Miss Helen Jane Woodley, Supervising Teacher of Elementary Schools in Kent county. She brought to the county a little more than two years ago a wealth of training and experience that has enabled her to help the teachers to raise their work to a standard never before attained in the schools of Kent. The loyal support that the teachers are giving her in the plans that she makes for them is an omen of much greater educational advantages that will continue to result to the boys and girls attending the schools. Her work too is highly commended by the members of the State Department of Education.

LOUIS C. ROBINSON,
County Superintendent.

JOS. N. WHEATLEY & CO.
INSURANCE
CHESTERTOWN, MD.

Surpassing all its former achievements as the world's largest manufacturer of three-speed transmission cars, the Chevrolet Motor Company, today, announces an entirely new line of automobiles, heralded as the most beautiful in Chevrolet history.

Embodied in the new line, which goes on display throughout the country today, are hosts of improvements, many of which were found hitherto only in larger and more costly cars. The economies of tremendous volume production have made possible the marks of distinction which individualize the new line, according to a factory statement.

The new cars are mechanically finer, entirely new in body lines, smarter in appearance, complete in equipment and outstanding in the display colors. Seven models, five closed and two open cars, comprise the line. One model, a rakish, beautiful sport cabriolet has been added.

Some of the standard features on the new models are as follows: AC air cleaner, AC oil filter, balloon tires, bullet-type head-lamps and cowl-lamps, newly designed radiator shell, one piece full crown fenders, heavier running boards, larger steering wheel, new instrument panel, new tire carrier assembly and co-incidental ignition and steering lock.

Beauty and refinement has been stressed in the design. Appointments have been catered to with a thoroughness that promises to please the most fastidious motorist. Succeeding the smoothest Chevrolet, the new line has been built to establish a new standard in the low price field.

All closed bodies are by Fisher and finished in Duco. The seven models are finished in five smart color combinations, with contrasting color stripes emphasizing the body bead.
