Kent News

SATURDAY, MARCH 31, 1928

Law is strong but easily broken.

When in doubt listen to your wife.

Use your stumbling blocks as stepping stones.

It is interesting to read the recommendations made by Dr. G. Allen Jarman in his report as State Veterinarian in 1907. He advised all farmers to clean up their herds, to be paid a fair amount for diseased cattle and other recommendations which today have become obligatory.

HISTORICAL DATA

The News is always glad to make corrections and especially in historical data. Last week it was stated that Kent had never been favored with a Congressman. John D. Urie Esq., calls our attention to the following:

William Carmichael served in the Continental Congress from 1779 to 1780.

Philip Reed served in Congress from 1817 to 1823; James A. Pearce from 1835 to 1843; James B. Ricaud from 1855 to 1859.

In the United States Senate Kent has had the following representatives: James Lloyd 1797 to 1801; Philip Reed from 1806 to 1813; Ezekiel Chambers 1826 to 1837; James Alfred Pearce 1843 to 1867; George Vickers 1867 to 1873.

"PARENTS DAY" PLANNED FOR WASHINGTON COLLEGE

Washington College authorities are planning for a big day on April 26 when they will hold their first annual "Parents Day."

On "Parents Day" the mothers, fathers, sisters, brothers, cousins, aunts and all the students relatives are invited to the college to spend the day. They may go to classes with their children, indulge in recreation with them, in fact they are expected to live the life of the college student for that day.

"Parents Day" is the outgrowth of the "Fathers Day" program which is celebrated at many schools.

The following two pieces of poetry are taken from the Washington Collegian of the last issue and are very appropriate:

THE COLLEGE PAPER

Quit knockin' the college paper,
Help the editor carry his load;
For it gathers weight the farther
He travels down the road.
Troubles are numerous an' plenty,
Subscription accounts in arrears,
An' things that daily beset him
Would drive an iron donkey to tears.
Each week there is loads of trouble;
A form may be knocked into pi;
Some fellow disputin' something,
An' sayin' it's all a lie;
The lino gets to buckin'
While the operator's gone away,
Perhaps on a week's vacation,
An' the dickens is to pay.
Quit knockin' and just be patient,
An' he'll get the paper out,
If it don't have all the news
Of things you've heard about.
Bill Smith may have lead the 'once over'
An' some Alumnus may have been wed
An' the Co-Eds have a party,
An' not a word been said.
The Editor's workin' his head off,
Puffin' up that dead ol' school;
He calls the students all eager
An' lies like a circus fool,
He lauds the student council,
An' prints their pedigrees,
An' they pay him back by cuttin'
His publication fees.
He prints the news as he hears it,
But it never satisfies—
One gets his name in the paper,
Another don't, an' he sighs.
He prints the meetin's of the clubs
An' the gossip right down to the minute,
But woe is his if a name's left out.
For they'll say there's nothin' in it.
Somebody, somewhere, quit knockin'
An' give the poor fellow a rest—
With all his mistakes an' failin's
He's probably doin' his best.
An' about his complainin' readers,
He prints not one-half that is true,
But believes that some time in the future
The devil will get his due.

THE OLD GRAD'S SOLILOQUAY.

They still have the same old buildings,
The gyms, the dorms, and such.
But where are the old, old faces,
The ones that mean so much.
There were Henny, and Mike, and Mickey,
In the days that used to be.
Now the yells they give for Bobby
Mean nothing to you and me.
The grass has grown no greener
And they still have the same old trees—
But there is something about the college
That only the old grad sees.
It is something that time has taken,
And left but a memory;
And memory is all remaining
Of the days that used to be.

—W. J. B.

P. T. A. JOINT MEETING

A joint meeting of the Kent County Federation of Parent-Teacher Associations and the Public Health Association of Kent County will be held in the assembly room of the Chestertown High School on the evening of next Tuesday, April 3, 1928.

The subject for discussion at this meeting is health and specific aim is to arouse greater interest in the prevention of disease among school children.

The pirncipal feature is an address entitled "The Bridge of Life" by Mr. Abel Wolman, Chief Engineer, State Department of Health, Baltimore. All who attend the meeting can come with the assurance of hearing a very instructive as well as an instructive discourse. Motion pictures will also be shown emphasizing the wisdom of one consulting his doctor at stated periods so diseases can be caught in their early stages and thus greatly increase the possibility of a cure.

WANTED—POSTAGE STAMPS ON ENvelopes used before 1890. Mail them to me and I will make a prompt cash offer Returned at once if not satisfactory. D E. Eastlake, Ridley Park, Penna. m17-3t*

IN MEMORIAM

In sad but loving remembrance of my dear sister, Ellen Smith, who departed this life one year today, March 31.

Sad and sudden was the call
Of one so dear and loved by all.
Her loving heart had ceased to beat,
Before we knew it she was gone.
A bitter grief, a shock severe,
To part with one we loved so dear.
God loved her, too, and thought it best,
So he took her home to eternal rest,
But only those who loved her best can tell
The heartache of not saying a last farewell,
I miss you, oh, how I miss you,
While in your grave you calmly sleep,
While your sister who fondly loved you
Is left here alone in sadness to weep.

By her loving sister, Lusile.

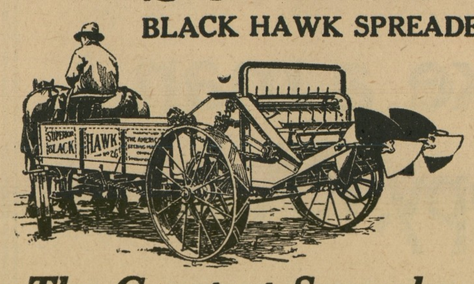
SUPERIOR
BLACK HAWK SPREADER



•The Greatest Spreader Ever Built

IF YOU are hauling and scattering manure by the old, slow, costly and back-breaking method—if you are using a spreader that wasn't built right to start with—if you are using a spreader that has seen its [illegible] days—come in and see how you can save work and money with a SUPERIOR Black Hawk Spreader.

Thousands of users know that it produces earlier crops, bigger crops, better crops—crops that bring the highest market prices. It insures quick absorption—prevents burn-outs—*doubles the crop-producing value of your manure.*

No Other Spreader to Compare With It

The SUPERIOR Black Hawk pulverizes every particle of the manure. It spreads it in a broad, smooth layer. None is wasted. No part of the field gets too much—no part gets too little. It is built low for quick and easy loading. It's the easiest hauling spreader ever built. Alemite lubrication keeps all working parts in perfect condition. Automobile type mounting in front gives a shorter turn.

These are just some of the reasons why thousands of farmers choose the SUPERIOR Black Hawk in preference to all others. Come in and see it for yourself. See how it will save work for you and for your horses. See how it will boost your crops and your profits.
