Prospects for Plastic Plant at Chestertown Bright

There is a good possibility that a plant manufacturing a plastic product will be erected on the property of the Kent Manufacturing Company on the outskirts of Chestertown.

Philip G. Wilmer, president of the plant which was recently destroyed by explosions, said that he had been in negotiations with the representative of such a concern and that another meeting was set for the latter part of this week.

According to Mr. Wilmer the labor at the proposed plant would be approximately 75 per cent women.

He further said that his comany would provide the land for the new plant upon the understanding that it would employ ,for six months at least, workers formerly employed by the Kent Manufacturing Company.

A decided dent in local income occurred when the Kent Manufacturing plant was destroyed. The company had a payroll of approximately $25,000 every two weeks. While a good many of the employees resided outside of Chestertown, a considerable portion of the money was spent with local stores.

In addition to its payroll, Kent Manufacturing, in the operation of its plant, spent many thousands of dollars a year with local business concerns.

50% better mileage—

NOT 5¢ FOR REPAIRS IN 34,400 MILES!"

Here's the typical performance record of GMC Hydra-Matic trucks as being reported from all parts of the country*

A WHOLESALE BAKER, supplying his entire state, put Hydra-Matic GMC's on his longest routes. In racking stop-and-go-work, they're averaging 58 delivery stops per day, 28,000 miles per year.

Here's what their carefully kept records show:

The Hydra-Matic GMC's are getting 12.2 miles to the gallon—50% more than their standard trucks.

In use now up to 34,400 miles, not a nickel has been spent on repairs for any one of them.

Brake linings, usually replaced at 25 or 30 thousand miles, are still in good shape.

Clutch replacement, usually necessary at about 16,000 miles, is completely eliminated.

And the drivers of these Hydra-Matic GMC's are the happiest, most job-contented men you'd want to employ!

Now, how about *you?* From Pickup to heavy-duty hauler, there's a Hydra-Matic GMC to better any trucking operation. Come in and let's see about yours.

**Standard on many models; optional at extra cost on some others*

Get a modern truck!

Be careful—drive safely
