SATURDAY, DEC. 30, 1905.

A life insurance company in Louisville has made an assignment, with $2.87 in the treasury to offset its liabilities of $87,000. New York doesn't know it all.

Should passengers on any of the railroad trains in this State engage in a quiet game of cards after the first of the year, none of them will have the temerity to say "I pass."

Two members of a New Jersey basket ball team were killed and several injured by being struck by a train. Had they been football players the train might have been wrecked.

Next week or next year—whichever one pleases—we will be having troubles of our own, especially in the way of dating letters and selecting the least appealing of pet faults to give up.

Dr. Osler may be right in declaring that the men who are doing the work of the world are between the ages of 25 and 40 years, but he might be fair enough to add that the older men are bossing the job.

A Spanish senator has been accused of frauds on the treasury involving some $7,200,000. Really, since the war over in Cuba those Spaniards seem to have taken a delight in imitating us Americans.

The old year has only two more days to leave, and much of its history-making is running into the new year. 1905 is a typical year of the times; it has not been slow in furnishing events and in keeping up with the sensational procession.

The highest-price vote on record apparently comes from Rhode Island. Its value is fixed at $10,000, that being the amount the voter is suing his native town for damages due him for the deprivation of his right to vote, his name being taken off the voting list.

The statesmen at Washington are talking about the "most important question that confronts the American people," but none of them has defined it correctly. Just now the most important question is how to get the money to pay those Christmas bills.

Tabloid tea is the latest experiment of the Department of Agriculture. But it is beyond the power of the most scientific and resourceful department in the world to make a condensation of scandal gossip to match the tea. The latter is something that expands by its nature.

A young man in charge of a newsstand in a Boston hotel received a considerable estate by the will of a wealthy patron in reward for his politeness. His example, however, is not likely to result in an epidemic of startling courtesy towards the general public, as considerable estates are even rarer than general, all-around politeness.

As January 1 approaches thoughts of swearing off are passing through the vacant field known as the brain of those whose will power is so weak that they have to resort to oaths to stiffen them until the tempter comes along, which he is certain to do in less than a week. Swearing off is a method of patching up a conscience which already contains numerous holes. The worst of it is that the more frequently swearing off is done the oftener it must be done, until finally the victim loses respect for his oath. And then his finish is near.

Among those things that give us pause is the weather man, and there is particular occasion just now to consider this amiable gentleman, who toils not, neither doth he spin. And the direct purpose of giving him consideration is to determine if maybe something of that immediate future lying just before us, concerning which he has recently lifted up his voice in public utterance. His prediction is that the present winter is to be a mild one, a statement which was somewhat unexpected in view of the large chestnut crop last fall and other usually reliable harbingers of severe climatic conditions. Whether the winter is to be mild or hard is a matter of individual interest to the [illegible] and there has been some [illegible] of the

There is one comfort about the proposed one-hundred-and-fifty-mile-an-hour automobile. Its victims will never know what killed them.

Some persons encourage peace on earth and good will towards men on Christmas and the next day return to their old practice of trouble brewing and backbiting.

A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of piles. "I can truthfully say," writes Harry Colson, of Masonville, Ia., "that for blind, bleeding, itching and protruding piles, Bucklen's Arnica Salve, is the best cure made." Also best for cuts, burns and injuries. 25c at B. E. Cockey & Co druggists.

LA GRIPPE—PNEUMONIA
So many people who have apparently recovered from an attack of *La Grippe* are stricken with *Pneumonia*. This is due to the fact that the Bronchial Tubes and Lungs are left weakened and unable to resist disease.
FOLEY'S HONEY AND TAR
not only cures *La Grippe Coughs*, and prevents *Pneumonia*, but strengthens the Lungs so they will not be susceptible to the development of serious lung troubles. Do not take chances with some unknown preparation that may contain some harmful drug when FOLEY'S HONEY AND TAR costs you no more and is safe and sure. Contains no opiates.
I had a bad case of La Grippe about ten years ago which left my Lungs so weak that I have been troubled more or less every winter since until I used FOLEY'S HONEY AND TAR, which cured me completely and my Lungs no longer trouble me.—J. H. BROWNING, D.D.S., Orrick, Mo.
G. VACHER, 157 Osgood St., Chicago, says: "My wife had a very severe case of La Grippe, and it left her with a very bad cough. She tried a bottle of FOLEY'S HONEY AND TAR and it gave immediate relief."
Three sizes—25c, 50c, $1.00. The 50-cent size contains two and one half times as much as the small size and the $1.00 bottle almost six times as much. Refuse Substitutes.
