SATURDAY, JAN. 27, 1906.

There is no longer any doubt about the desirability of encouraging the American girl in athletics. She may want to visit the White House some day.

The pictures of Miss Alice Roosevelt's wedding dress by artists who have never been within 300 miles of it must have been made by the correspondence-school method.

People are being advised by health experts to change their clothing according to the weather, but none can do that except the lightning change artists of the vaudeville shows, and they only on account of their long practice at it.

Since the abolition of the passes the railroads in Pennsylvania have been kept busy getting rid of all the other luxuries. The "newsies" are the latest to go, but the conductors and brakemen still ride free and the engineers and firemen are still looked upon as necessities.

There will be 2500 invitations to Miss Alice Roosevelt's wedding—and it is safe to bet that at least 2499 of them will be accepted. Certainly the Hon. Mr. Longworth deserves to be pitied. Just think of the agony of a bald-headed man exposed to the glare of 5000 eyes!

A man in Georgia who killed his faithless wife has been found guilty of murder. This is a gratifying sign that the unwritten law must eventually give way to that established law which forbids the code of private vengeance, and, incidentally, the possibility of terrible mistakes through the ungoverned impulses of blind passion.

Now comes a food expert to tell us that meat is only a temporary stimulant and really poison as a steady diet. The new theories of living are enough to make centenarians and others enjoying a green old age heartily ashamed of themselves for living so long when, by all dietary logic, they should have been cut off in their prime by wrong eating.

Now that the Princess of Wales has rebelled against the tyranny of dressmakers, and has insisted upon having bona fide pockets in all her gowns, there is every probability that women all over the world will profit by her bravery. If they do mere man will have to look to his laurels, for in recent years it has only been the lack of the pockets that has kept the women from possessing the earth.

On the surface of things it would appear that certain society people of New York, were willing to pay many thousand dollars to have *Town Topics* withhold from publication personal items concerning them. The cream of this magazine's material was, apparently, all spilled before it was made up, for nothing within its pages ever suggested a worth that could not be computed by the use of two figures.

A knotty legal problem of rather an unusual kind arose lately in a Gotham police court. A man was arraigned charged with stealing a crate of eggs. It was when the evidence was to be produced that the knotty point appeared. The policeman in charge of the eggs, forgetting his nature studies in school, put the crate on the steam heater, and when he went to get the eggs as evidence, they were chickens.

It is officially announced by the managers of the Democratic state organization that next year they will renew the fight for disfranchisement of certain classes of voters. The campaign is to be waged on the call for a new constitutional convention. The Constitution directs that a vote shall be taken every 20 years on the question whether a new convention shall or shall not be held. The last vote on the proposition was taken in 1887.

A man has been declared to be a crank and has been under surveillance in Washington because he expressed a desire to abolish the Senate and the House of Representatives, and to send the members to the Philippines. But there are others, and not cranks, either, who have been equally serious in their recommendation of Panama as a desirable place of residence, temporarily if not permanently, for the nation's legislators.

A thrashing machine frightened a Hagerstown horse to death. He had probably read of the hazing methods at Annapolis.

The New York hotels are turning away thousands of visitors, being full to their utmost capacity. Some of their guests are in the same condition.

Burglars broke into two Washington churches and robbed the contribution boxes, and the police have not determined whether they should arrest Congress or the insurance companies.

A Liquid Cold Cure.

For coughs and colds no remedy is equal to Kennedy's Laxative Honey and Tar—the liquid cold cure. It is different from all others—better, because it expels all cold from the system by acting as a cathartic on the bowels. Gives strength to weak lungs. Affords immediate relief in croup, coughs, colds, whooping cough, etc. Children love it. J. S. Denny and Wye Mills drug store.

REPEATING SHOT GUN
NEW MODEL No 17

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high *Marlin* standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrel is especially bored for smokeless as well as black powder and so chambered that 2¾ inch or 2⅝ inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence.
