They are threatening to punish a Mormon bishop because he has two wives. Isn't that punishment enough?

The meanest man in the world has been discovered in Tacoma. In suing for divorce his wife says he not only took all her money, but her false teeth when he left her.

An Ohio baker got caught in a dough mixer and was killed. But the "dough mixers" that are causing the most trouble are frenzied financiers who run the trusts.

A Kentucky negro was turned completely white by being struck by lightning. But most Maryland negroes are willing to depend upon antikinks and face bleaches.

It was the wise coal company that secured a railroad president's son as one of its officials. It not only got the thrifty son, but it got a plentiful supply of coal cars with him.

A Chicago astrologer has been trying to prophesy the date of the completion of the Panama Canal, but he discovered that he hadn't a sufficiently long-distance horoscope.

The money in circulation in this country amounts now to $32.22 per capita. But a knowledge of the fact merely adds to the dissatisfaction of the man who has only the 22 cents.

A German professor has discovered a method of curing appendicitis by the use of silver. The old method was by the use of gold. The doctor took the gold and the patient took the chances.

Because Smith College accepted gifts from Carnegie and Rockefeller, its lady astronomer has resigned This may tend to confirm Commissioner Garfield's impression that he has knocked the trusts skyhigh.

A man in St. Louis is suing his wife for divorce on the ground that she could not keep business secrets. The question is, how did she come to know them if he was aware of her infirmity? Inability to keep a secret apparently was in the family.

The fact that a girl guided the biggest sailing vessel that ever was on the Atlantic is a subject of much admiring comment, and yet what big event in the world's history has happened without in some way feeling the guiding touch of a woman's hand?

According to the Oil Trust, it is like all truly good things, maliciously misrepresented; all it really needs being a halo to make it look the good and pure concern it actually is. The only trouble with this explanation is that self-adjusted halos are generally a misfit.

A prominent Washington woman threw several hundred quarts of ancient wines and liquors in the gutter from her cellar. Poor woman, she must have read in an almanac that the mint crop would be a failure! For the information of others who might do likewise, we say that the mint crop will be the largest for years notwithstanding the drouth.

For years the craze of treading the dewey grass barefooted has found a number of enthusiastic devotees. Now comes the proposition hard and fast that health and beauty conjoin to recommend the general adoption of the habit. The suggestion has percolated from Boston, where it arose in a class of women devoted to the study of the toes of Minerva. It was wafted half way across the continent to Chicago, where the ladies took hold of it as an opportunity to vindicate themselves from the aspersion as to the size of their pedal extremities.

They seem to be still busy stamping out hazing at Annapolis. If the evil is to be abolished past power of resurrection, it should be distinctly understood from now on that expulsion from the academy for the offense is final, and no influence should avail to reinstate a cadet once justly dismissed. If the young men at the Naval Academy are given good reason to suppose they can pursue this unmanly sport with practical impunity, all the regulations that Congress or the authorities can adopt will be of no avail. It should be sternly repressed long enough to allow a new and better standard of cadet honor to [illegible] in place.

Get your tickets for Washington now if you want to see truth rise again!

All the world's a stage. So said Shakespeare. He must have meant a burlesque stage, judging by the number of kickers on earth.

Of course, Senator Bailey didn't intend to convey the impression that he thought the President was a political dead one when he compared him to common clay.

Fortunate Missourians.

"When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using new discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest cough and cold cure and throat and lung healer. Guaranteed by J. S. Denny. 50c and $1. Trial bottle free.

A good complexion is impossible with the stomach out of order. If pasty sallow people would pay more attention to their stomachs and less to the skin on their faces, they would have better complexions. Kodol for dyspepsia will digest what you eat and put your stomach back in right shape to do its own work. Kodol relieves palpitation of the heart, flatulence, sour stomach, heart burn, etc. J. S. Denny and Wye Mills drug store.

Sore Nipples.

A cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the child to nurse. Many trained nurses use this salve with the best results. Price25 cents per box. Sold by B. E. Cockey & Co.

See that your druggist gives you no imitation when you ask for Kennedy's Laxative Honey and Tar, the original laxative cough syrup. J. S. Denny and Wye Mills drug store.

REPEATING SHOT GUN
NEW MODEL No 17

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high *Marlin* standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially bored for smokeless as well as black powder and so chambered that 2¾ inch or 2⅝ inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence. We are glad to make it possible for every lover of guns and bird shooting to get this high grade repeating shot gun at so low a price.
