SATURDAY, MARCH 16, 1907.

The cash on hand at the Chicago Subtreasury is entirely correct. The cash that isn't on hand is what is giving the worry.

The indications are that the railroads will spend more money in fighting the two cent fare laws through all the courts than they will lose by their operations.

A Washington dispatch says the people will greatly like the new design which is proposed to place on $20 gold pieces. That is, if any of them ever see it.

The scientists who deplore the increasing prevalence of heart affections do not agree with the gentleman at the University at Chicago who advocates the establishment of a school of courtship.

Porch climbers, strong-arm men, yeggmen, shoplifters, train robbers and such gentry look like the merest pikers after reading inside history on some of these Twentieth-Century captains of industry.

Senator Patterson thinks the government will own the railroads through condemnation in the course of time, and it looks as if pretty nearly everybody has already turned in to condemn them.

A scientific sharp some time ago detected a human soul in the act of leaving a body, and now a Haverhill doctor has succeeded in weighing one. Somebody may yet catch one of them if they don't watch out.

Out in the state of Washington a member of the Legislature has introduced a bill to prohibit the newspapers from publishing reports of all sorts of crimes, but it does not refer to crimes committed by Legislatures.

A man out West hammered away at a piano for twenty-five hours and seven minutes, and now claims to hold the championship for that sort of thing. Strange to say, there were no reports of an attempted lynching after the agony was over.

A teacher in Oklahoma who attempted to whip one of his pupils was set upon by the others and beaten to death. The new system of teaching pupils to rely upon themselves by abolishing discipline is evidently bearing fruit.

The Delaware legislature passed a special law, authorizing the governor, on the part of the state, to take an active part in endeavoring to trace the kidnappers of the child of a prominent physician. There have been several cases of this particular crime lately, and evidently drastic measures are needed to suppress it. The penalty for the peculiarly dastardly perpetrators of this crime ought to be so severe as to be deterrent.

The death of Dowie will be followed by increased bitterness in the fight waged for the control of the money interests he created. The closing years of Mrs. Eddy's life are marked with a battle over the pecuniary profits of the faith she founded. There is significance in the trend of the creeds founded by the self-styled apostles and prophets toward the commercial in life and in their practical attitude toward the spiritual life as a good earthly investment. Holy poverty is no part of the scheme of the modern inventions in religions. Their inventors have realized vast fortunes from the credulity of their followers.

There is a movement on foot to abolish bullfighting in Mexico, and it is to be hoped the day will come when all these savage amusements, the relics of a barbarous age, will be blotted out from civilized nations. This country has probably gone further than any other in the way of establishing humane standards and in protecting animals from all forms of cruelty, a late striking instance being the action begun by the government against certain railroads for violating the laws providing for humane treatment in the transportation of cattle. The intelligence of the age is awakening to the important fact that cruelty to animals is bound to react directly and indirectly on human welfare in various ways. That our Southern neighbor is seriously considering an attack on her national sport is probably the result of American influence in the matter.

Why should Anna Gould Castellane pay $175,000 for a divorce in Paris when she can get one just as good in Chicago for $2.97?

A Milwaukee aeronaut claims to have reached the North Pole in his airship and planted the American flag there. It has been decided all along what to do with the pole when it was finally discovered. It was to be used as a flagstaff to wave the Star-Spangled Banner over the whole world.

The first woman to go up in a balloon in this country has just died in Connecticut, almost ninety years of age. Her ascent was made in 1865, and the difficulties of aerial travel are well illustrated by the fact that she died without seeing this mode of voyaging brought to practical perfection.

They are killing dogs now in Boston to find out if they have souls. The irreverent public will be apt to make the comment on these experiments that there are a few things yet about the material bodies of humans which the scientists have not yet found out.

The substitution of a graphophone for the usual methods of making church music is said to have been responsible for a great increase in the size of the congregations in a church in Ohio. This use of the choir invisible is something of a novelty, but it will recommend itself to all who have had to face the music.

Nerve Sick

If weak, worn-out, nervous, cannot sleep; have indigestion, headache, neuralgia or periodic pains, it is because your nerves are weak. It is the lack of nerve force that makes the stomach, heart, lungs, etc., work imperfectly—become sick. Dr. Miles' Nervine cures the sick when it restores nerve strength, and puts the power behind the organs to do their work.

"Almost three years I suffered from nervousness, indigestion, and palpitation of the heart. I could not eat or sleep with comfort, or walk or talk without suffering. Altogether I was in a bad condition. My doctor did not seem to do me any good. I had tried so many remedies that I did not have much hope of any of them doing me any good. Dr. Miles' Nervine was suggested by a friend. I got relief from the first, and after a few days I felt like a new person. It not only relieved my heart and nerves, but has invigorated my whole system. I am very grateful because since I have stopped using it, I have had absolutely no return of my old trouble."
MRS. HOWARD FORD,
60 Summit Ave., Worcester, Mass.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Marlin

REPEATING SHOT GUN
NEW MODEL No 17

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high Marlin standard of strength, [illegible] accuracy. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially fined for shotgun as well as rifle purposes and so chambered that 2¾ inch or 2⅝ inch shells may be used. Several improvements have been made in the trigger to make it the easiest, most reliable and best working gun in existence. We are also [illegible] possible for every lover of guns and bird shooting to get this high grade repeating shotgun at [illegible] a price.

Have your dealer order it for you.

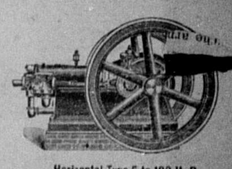
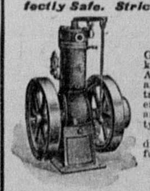
DUBOIS Gas and Gasoline ENGINES

Are adapted for every purpose where power is required. Perfectly Safe. Strictly High Grade.



Horizontal Type 5 to 100 H. P.



Vertical Type 2 to 12 H. P.

Give more power, last longer and cost less to operate. They are known the world over and in Buffalo alone over 500 are in use. As proof of their simplicity, economy and durability Gold Medals and First Awards were awarded at all large expositions in this country and Europe. We build gas engines 2 to 100 H. P., gasoline engines 2 to 40 H. P. for manufacturing, electric lighting, farm and portable work, pumping, etc., both horizontal and vertical types. All the latest improvements. Every engine warranted. We operate a $500,000 plant and every engine is shipped direct from the factory to you at factory prices. Catalogs and full information sent free.

THE NEW IDEA **KENNEDY'S** Moves the Bowels

THE ORIGINAL LAXATIVE **LAXATIVE** Best for Children

COUGH SYRUP **HONEY AND TAR** Red Clover Blossom on Every Bottle

Nearly all other cough cures are constipating, especially those containing Opiates. Kennedy's Laxative Honey and Tar moves the bowels, contains no opiates.

J. S. DENNY and WYE MILLS DRUG STORE

WHEN YOU CATCH COLD

Do not take chances on it wearing away or experiment with some unknown preparation which may leave the bronchial tubes and lungs weakened and susceptible to attack from the germs of Pneumonia or Consumption.

FOLEY'S HONEY AND TAR

not only stops the cough but heals and strengthens the lungs and prevents serious results from a cold. Contains no opiates.

Be Sure You Get Foley's

There are substitutes made to sell on the good name of *Foley's Honey and Tar*. Beware of them. You should have confidence in a cough cure that has been sold with universal satisfaction for thirty-five years. The genuine *Foley's Honey and Tar* is in a yellow Package. See that you get it.

A Mother Testifies

This is to certify that my daughter was down for almost one year with a cold. The doctors finally pronounced it consumption. We had given up hope for her recovery. I was given a sample bottle of Foley's Honey and Tar. I gave it all to her in about three hours. It stopped the cough, and gave her rest. I sent next day and bought a 50c. bottle and began giving it. In three month's time she was well. There can not be too much said in favor of Foley's Honey and Tar. It saved my child's life. Mrs. George Batson, Fountain Grove, Mo.

Three sizes—25c, 50c and $1.00. The 50-cent size contains two and one-half times as much as the small size and the $1.00 bottle almost six times as much.

SOLD AND RECOMMENDED BY
JOHN M. AKER
