December 28, 1907

...es from Kentucky of a ...o, in a murder trial, lost his mind through brooding over the case and grew to believe he was to be hung. He probably thought himself a member of a hung jury.

Dr. Aked, the pastor of Mr. Rockefeller's church, recently raised $7,000 at one service. This pastor has evidently taken some lessons from his successful parishioner in the art of successful financiering.

This may be the day of big things, but the little things count up, too. In New York alone $90,000 worth of postage stamps were bought for one-cent post-cards. Facts like these emphasize the immense factor the postoffice is in modern human life.

After all, the opinion that $300 a day is not an exorbitont price for a physician to place upon his skill is open to discussion, especially in the one case cited, when the patient died. There are few of us who will so highly appreciate the opportunity of dying even with the most skillful medical assistance.

Phonograph records of the greatest singers of the age are to be placed in a vault in Paris, not to be disturbed for a hundred years. The generation of that distant day will then have a chance of comparing the greatest voices of this age with their own song birds. This is a wonderful achievement, and yet that time may be as far ahead of ours in scientific marvels as we are ahead of our predecessors who met every discovery of man or nature by hanging or burning the unfortunate experimenter for practicing the black art.

If Lee J. Spangler, of York, Pa., who seems to be a prophet by trade, proposes to continue to do business at the old stand, he ought to leave something for future operations. If he is going to destroy the world and the solar system in the year 1908, there will not be any great demand for prophecies in 1909 and the employment of prophets will be extinct. Mr. Spangler's program for the new year can scarcely be considered short of sensational. The people are warned that in this year the Treasury will go dry, the bright sun will be extinguished, and the stars will fall. Also that mothers-in-law and daughters-in-law will not dwell together in harmony. It might happen that these ladies would fall out and still the stars might not fall, especially as it has been hinted before now that they do not always dwell together in unity. But Mr. Spangler insists, not only that the stars will fall in the early part of the coming summer, but that in addition to the inconvenience which might be occasioned by Jupiter bumping down over our heads, we are to be stung by locusts and bit by various insects which are not usually discussed in polite society. But if we are to be smashed by a big planet the subsequent proceedings of the bugs will interest us very little.

The first national cement exposition is being held in Chicago this week. On the opening night 10,000 poople attended, showing the general interest in the use of the comparatively new building material. It is an educational exhibit, there being shown in miniature houses, bridges, factories and "skyscrapers" in artistic surroundings. The Government has a fine display, demonstrating the uses of concrete in bridges, tunnels and canals, especially in reclamation of arid lands in the West. There is also on exhibition a model of one of the "mold houses," which Thomas A. Edison says can be constructed in twenty-four hours. As illustrating the varied uses of the material, there is shown a complete set of household furniture made entirely of concrete. Of course, it is generally known that concrete construction has grown with amazing strides in the last few years. The scarcity and high price of timber have brought it into great prominence, and its own merit seems to have done the rest. Science and engineering skill are constantly finding ways to enhance the value of cement as a material for building, and it bids fair toward solving a part of the big problem which the rapid depletion of our forests has made a pressing and perplexing one.

...se for wrong-...ng, which began with Adam, has not yet become obsolete among his modern sons.

"The poor man need not have any jealousies of the rich these days," says Mr. Stuyvesant Fish. We will shortly have the piteous spectacle of the so-called millionaires of the country selling their steam yachts and automobiles in a sad endeavor to keep the wolf from the door.

A blind boy who was graduated from the University of Chicago wants to make politics his life work. He says he believes "politics makes a great field for blind men," and is surprised more of them are not in it. Wouldn't that be too much like a case of the blind leading the blind?

Mr. Lawson is now going to form a new party for the purpose of electing President Roosevelt and a Democratic vice-president in Governor Johnson. Mr. Lawson may not be able to carry out this rather strenuous program and save the country, but he can still add to the gayety of nations.

A Chicago minister now comes forward with advice upon the proper time to propose. The question is not one requiring much discussion. If he is the right man, any time will do, and if he isn't, any time is wrong. A favorable answer depends entirely upon the man; the time is immaterial.

...rous system, ...e organs are strengthened. The heart action is better; digestion improved, the sluggish condition overcome, and healthy activity re-established.

"Dr. Miles' Nervine is worth its weight in gold to me. I did not know what ailed me. I had a good physician but got no relief. I could not eat, sleep, work, sit or stand. I was nearly crazy. One day I picked up a paper and the first thing that met my eyes was an advertisement of Dr. Miles' Nervine. I concluded to try it and let the doctor go, and I did so. After taking two bottles I could dress myself. Then I began taking Dr. Miles' Heart Cure and now I can work and go out, and have told many the benefit I have received from these remedies and several of them have been cured by it since. I am fifty-nine years old and pretty good yet."
ANNA R. PALMER, Lewistown, Pa.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Marlin
REPEATING SHOT GUN
NEW MODEL No 17

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high *Marlin* standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially bored for moderate as well as black powder and so chambered that 2¾ inch or 2⅝ inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence. We are glad to make it possible for every lover of guns and bird shooting to get this high grade repeating shot gun at so low a price.
Have your dealer order it for you.

Send for the Marlin Catalogue and Experience Book to-day. Free for 3 stamps.

Nearly all other cough cures are constipating, especially those containing Opiates. Kennedy's Laxative Cough Syrup moves the bowels, contains no Opiates.
J. S. DENNY and WYE MILLS DRUG STORE

KIDNEY DISEASES CAUSE ONE-THIRD OF THE TOTAL DEATHS.

When the Kidneys fail to perform their functions properly by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

FOLEY'S KIDNEY CURE

corrects irregularities and cures Kidney and Bladder diseases in every form, tones up the whole system, and the diseases that have resulted *from* disordered Kidneys disappear, because the *cause* has been removed. Commence taking FOLEY'S KIDNEY CURE at the first sign of danger. Do not risk having Bright's Disease or Diabetes.

CURED OF BRIGHT'S DISEASE.

Mr. Robert G. Burke, Kinora, Saratoga Co., N. Y., writes:—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began it I had to get up from 12 to 20 times each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family across the room. In fact, I was so badly used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One 50-cent bottle worked wonders, and before I had taken the third bottle the superfluous flesh had gone, as well as all other symptoms of Kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. Every few days some one comes from miles away to learn the name of the wonderful medicine that cured me of Bright's Disease, and not one that has tried it has failed to be benefitted.

Two Sizes, 50 Cents and $1.00.
