Pale Faced Women Take Phosphates. Makes Ro Cheeks and Beautiful Forms.
Men Need Phosphates to Make Strong, Healthy, Vigorous Bodies.

Athletes increase their strength, energy and endurance 200% or more by simply taking a few weeks treatment of Argo-Phosphate.

Atlanta, Ga. Dr. F. A. Jacobson says that Phosphates are just as essential to any man or woman who tires easily, is nervous, or irritatable, worn out, or looks haggard or pale to make a strong, robust, vigorous healthy body, as they are to cotton to make it grow. The lack of Phosphate is the cause of all enemic conditions and the administration of 5-grain Argo-Phosphate tablets will increase the strength and endurance of weak, nervous, care-worn men and women 300 per cent. in two or three weeks time in many instances, and their continued use will build up the whole nervous system, and give new life, vim, vigor and vitality to the whole body. I always prescribe Argo-Phosphate to patients who are pale and colorless, and it is surprising to see how quickly a few weeks treatment will transform a pale face to a rosy cheeked beauty. There can be no rosy cheeken, healthy, beautiful women, without their system is sufficiently supplied with Phosphates. In recent interviews with physicians on the grave and serious consequences of a deficiency of Phosphates in the blood of American men and women, I have strongly emphasized the fact that doctors should prescribe more phosphates in the form of Argo-Phosphate for weak, worn out, haggard-looking men and women. When the skin is pale, and flesh flabby, it is a sign of anemia. When the phosphates go from the blood, the pink cheeks go too. The muscles lack tone. They become nervous, irritable, despondent, melancholy, the brain fags, and the memory fails. Therefore, if you wish to preserve your beautiful vim, vigor and vitality, to a ripe old age, you must supply the deficiency of Phosphates lacking in your food by using Argo-Phosphate, the form of Phosphates most easily assimilated.

NOTICE: Argo-Phosphate which is recommended and prescribed by physicians in al enemic cases. is not a secret or patent medicine, but one that is sold and recommended by well-known druggists everywhere, and physicians are daily prescribing the constituents contained in it. Being entirely unlike many other Phosphates, it is easily assimulated and will be found effective in the treatment of indigestion and stomach troubles, as well as for care-worn, nervous conditions. The manufacturers of Argo-Phosphate will forfeit to any charitable institution $200.00 if they cannot treat any man or woman under 65 who lacks Phosphates, and increase their strength and endurance from 100 per cent. to 500 per cent. or more in one month's time, if they are free from organic trouble. It is dispensed by all reliable druggists.

If your druggist will not supply you, send $1.00 to the Argo Laboratories, 10 Forsyth St., Atlanta, Ga., and they will send you a two weeks treatment by return mail.

Use Some Kerosene.

If your sewing machine runs stiffly saturate the parts with kerosene and leave it on over night. In the morning wipe dry, then oil with a high grade machine oil, and the machine will run like a breeze.

Put some kerosene in your starch and see what an easy ironing day you will have. If your irons are rough wet a cloth with kerosene and while the irons are very hot rub them on the cloth vigorously.

Tides Him Over.

"According to this expert, an aeroplane is built like a watch."

"From my point of view," said the impecunious citizen, "a watch has one great advantage an aeroplane lacks."

"What is that"

"It's easier to pawn."—Birmingham Age-Herald.

Sandpapering the Stove.

Before applying the polish if a bit of sandpaper is rubbed on the stove any little accumulations of grime will be removed, and a smooth, even coat of polish will result.

Conflicting Precedents.

A man can't always regulate himself according to history. There was Samson, who lost his life beca[illegible] had his hair cut, and Absalom [illegible] he didn't.

Experimenting.

On entering Milliken's room one day his friend Pingley found him thumping the piano with all his might and drawing the most discordant noise from the instrument. "What in the name of all that is good are you playing?" asked Pingley. "I am trying to play that score of Wagner's," replied Milliken. "But the score is upside down," said Pingley. "That's true," said Milliken. "I had it the other way up at first, but couldn't make head or tail of it, so I thought I might succeed in this way."

Oldest Inhabitants of Europe.

Albania, the population of which approximates 1,000,000, is inhabited by a race that has nothing in common with the Italians. Nine-tenths of the Albanians are Moslems, and only half the rest are Roman Catholics. They speak a language which is a mixture of Slavonic and Greek derivations, engage in primitive occupations and lead a more or less primeval social life. The Albanians are considered the oldest inhabitants of Europe, their history going back to times immemorial.

Answer: They Were Not.

One thing we know for sure. Our grandmothers, who accomplished such miracles of baking, brewing, spinning and weaving, while bringing up families of ten or a dozen or more, didn't have the telephone to keep them discussing the affairs of Tom, Dick and Harry, their wives, mothers, sisters and sweethearts, half the day while dishes went unwashed and beds unmade. Weren't those the good old days?—Whitmore Times.

Room for Everybody There.

Western Siberia, between the Ural mountains and the Yenesei river, is capable, according to reliable estimates, of supporting a population of 800,000,000, or eight times the total population of the United States. Already the huge area is supporting 9,000,000 out of the 11,500,000 that form the entire population of Siberia.

Superhonesty.

We must not look for absolute perfection in this old vale of tears, and probably all that it is reasonable to expect of an honest man is that you can trust him to tell the truth except in letters of recommendation.—Ohio State Journal.

Best Carnations Near Coast.

Californians long have known that the best carnations are grown near the coast. Now Eastern growers near the interior are spraying the plants with salt water and declare good stiff flower stems cannot be obtained without such treatment.

World's Popcorn Center.

The hillsides of Sac and Ida counties in Idaho are said to be the world's popcorn centers. The section covers about 5,345 acres, on which are produced 197,322 bushels of popcorn. The growing season covers about 130 days.

Royal Emeralds of Mexico.

Among the Aztec treasures of Mexico exquisitely cut emeralds were found, and it is from this source that the magnificent emeralds now forming part of the royal collection of Spain were supposed to have come.

Cause of Much Grief.

"What are your qualifications?" "I'm an expert egg cook, mum." "How absurd! Why, anybody can cook eggs." "No, indeed, mum. You're making a mistake that's been the cause of a lot of unhappiness in this world."

More Durable.

The simple life may not contain quite so many thrills as the silly life, but it contains a higher degree of service and more satisfaction and usually lasts longer.—Houston Post.

What's in a Name?

"Why do I call 'em the cutlery family? Well, the daughter spoons, the father forks out the money and the mother knifes the other guests."—Brooklyn Citizen.

Overworked Man Busy.

"De man dat thinks he's overworked," said Uncle Eben, "is mighty liable to be wrong. A sure enough overworked man ain' got no time to think."

Depends on the Man.

The world is getting better to the man who is doing something to make it better, and remaining the same or getting worse to the man who isn't.

Dollar Diplomacy.

"This dollar diplomacy—" "Yes?" "What is it, anyhow?" "Slipping your wife a case note when you haven't got an excuse handy."

Duty and Pleasure.

The path of duty looks harder than it is; that of pleasure is harder than it looks.—Youth's Companion.

Finger Marks.

Sweet oil will remove finger marks from varnished furniture and kerosene from oiled furniture.

Most Important Duty.

"You have not fulfilled every duty unless you have fulfilled that of being pleasant."—Charles Buxton.

The Store That Serves You Best

¶ The Hochschild, Kohn & Co. Store was founded in 1897. It began with a plain announcement of its policy and its intentions.

¶ A clear contract was made—is still made, and will always be made — with every customer. This is the contract — it is printed on the back of every salescheck:

OUR SYSTEM

Reliable goods only, at uniformly right prices. For all articles returned, if uninjured, and within reasonable time, we shall willingly refund money.

¶ Baltimore's Best Store is the store of progress. It is not ideal, but it is striving to be.

¶ Its aim is to please—to satisfy; and it never loses sight of the mark. It is the accepted and avowed shopping place of a great many people—in Baltimore, throughout Maryland, and in almost every other State in the Union.
