## Democratic Primary Election.

Notice is hereby given to the Democratic voters of Queen Anne's county to hold Primary Elections to elect five delegates in each of the several Election Districts of said county:

At Sudlersville, for the First District;
At Church Hill, for the Second District;
At Centreville, for the Third District;
At Stevensville, for the Fourth District;
At Queenstown and Winchester, for the Fifth District;
At Ruthsburg, for the Sixth District;
At Crumpton, for the Seventh District, on

**Saturday, May 23, 1908.**

The delegates elected for the several Election Districts will meet in Centreville

**Tuesday, May 26, 1908,**

to elect four persons as delegates to represent Queen Anne's county at the Democratic State Convention to be held at Baltimore

**Wednesday, June 3, 1908,**

and elect four persons as delegates to represent Queen Anne's county at the Democratic Congressional Convention to be held at Ocean City

**Thursday, July 23, 1908,**

to nominate one person for Congress from the First Congressional District for the term of two years, beginning March 4, 1909.

The polls will be open from 1 P. M. to 6.30 P. M. The Primary Election will be held under the same rules and regulations governing the Primary Elections prior to 1907.

All District Delegates selected by the respective districts to be voted for and counted by the judges at the above called Primary Election must be filed with the State Central Committee for Queen Anne's county on or before noon Tuesday, May 19, 1908. A failure to comply with this requirement may prevent delegates so failing or neglecting from being legally elected members of the Democratic County Convention.

The Judges will be furnished with a set of rules governing the above called Primary Elections.

JOHN E. GEORGE,
JAMES E. KIRWAN,
JOHN K. BROWN,
Democratic State Central Committee for Queen Anne's County.

---

A New York girl has been sent to prison for three years for shooting a lawyer. It must have been the closed season for lawyers.

A New York newspaper publishes a long editorial upon "The Right to Be a Fool." Well, go ahead, brother. Nobody is making any objections.

John Wesley Gaines declares that there is too much hot air in the National House of Representatives. Strange that he hadn't noticed it before.

While all this talk about bogus art work is going on why not let's have it out about the girl with the kalsomined face and false bangs curled gracefully over a "rat"?

An exchange suggests that now is the psychological moment for the unmarried ladies of the country to make themselves popular by appearing in a neat little "merry old maid" hat. Doesn't our brother know that the term "old maid" is obsolete. There are no longer any old maids, the nearest we have to the phrase is "bachelor girl."

The turn of the tide seems to have set in and there are now real signs of genuine business revival. The outlook for crops is good and for profitable prices for wheat and corn. The Ferguson-McKinley Dry Goods Company, of St. Louis, has sent out notices to re-engage 1,000 of its discharged or suspended employes and other large St. Louis houses find it necessary to enlarge their working force and equipment. E. H. Harriman, the great railroad magnate, who is in close touch with the business pulse of the country, spoke in Washington on Saturday of the business situation in the most hopeful manner. "The country is all right," he said, "everything is normal and there is no reason why we should not have prosperity in plenty. The basis of prosperity in every country is the product of the soil, and crops here could hardly be better."

Reports from all the great winter wheat states promise an abundant harvest. The mild winter has been of advantage to the growing crop and the growth is greater than usual. This condition of the growing wheat crop promises well for the prosperity of the country. A bountiful wheat harvest means a large surplus for export, and the exported wheat will bring to the United States a great volume of gold. Foreign demand at this time is active and the constant tendency of the market is upward.

As soon as the factories resume, the working people will resume the purchase of cotton fabrics, and that will bring prosperity to the cotton planters and the cotton mills. In fact, things begin to look more cheerful and hopeful all round, and the prospect is that our old friend, General Prosperity, will soon be with us again.

Undertakers complain that people are not dying fast enough to make their business profitable. Here is a chance for somebody to run for the Presidency on an Osler-theory platform.

Insanity is becoming more popular every day, as witness the minister who Monday went crazy, killed his wife and then immediately afterward became sane again. But we wonder if the jury will really swallow it?

A dispatch from Hammondsport, N. Y., says that Prof. Alexander Graham Bell couldn't take his flying machine out because the rains had made the track soft. We had noticed that the Milky Way has been sort of muddy of late.

Certain Chicago club women have adopted "smile when at breakfast" as a hobby. This is unquestionably a more auspicious way of starting the day than beginning it with the question: "What time was it when you came in last night?"

The season is approaching when the boat-rocking idiot steps merrily into the lime-light, prepared for the annual slaughter. Why he cannot be restrained, like other murderous nuisances, is one of those problems which the century may soon solve.

Miss Emma Virginia Ice of Kansas City has refused to pay a dentist's bill because the tooth-carpenter fixed her molars and bicuspids so that when she talked she whistled an obligato. In other words, the dentist has received a cold throw-down.

A man who recently was a candidate for the position of alderman in Kansas City is "pointing with pride" to the fact that he did not spend a cent during the campaign, but unfortunately there is very little moral to the story, as he did not win the election.

In a recent official statement Mrs. Mary Baker Eddy remarks that she is quite well and "minding her own business, and recommends this surprising privilege to all her dear friends and enemies." This sounds very much as if Mrs. Eddy is a member of the "Let Us Alone Club."

A New York theater has began discriminating against the "Merry Widow" hat, ordering that all women wearing hats measuring more than thirty-two inches in diameter must remove them during the matinees, while the smaller hats need not be removed. However, it appears that the "Merry Widow" has been rightly named—there seems to be no way of downing it.

A brave judge in New Haven has established a precedent which ought generally to be followed. When two collegians were brought before him for disorderly conduct and resisting the police, and their lawyer made a plea of the fact that they were Yale students, the judge replied that Yale students and hod carriers were on the same level in his court when either class broke the law. This is a refreshing departure.

An Ohio scientist claims to have discovered the germ of paresis. This, of course, will lead to the discovery of other brain disease germs and their cure. It will be a great gain to humanity in one way, but it will be very hard on the murderers who are insane just long enough to gratify their passions and then recover in time to plead that they couldn't help it then but that they are all right again now.

The head of the asylum for the criminal insane in New York declares that Thaw is a dangerous maniac. Every man is that, more or less, who takes the law into his own hands and makes himself judge, jury and executor in his own case. In all cases the benefit of any doubt should be given to the community, rather than to the man who has once demonstrated that his liberty is a menace to the safety of others.

Serious Results Feared.

You may well fear serious results from a cough or cold, as pneumonia and consumption start with a cold. Foley's Honey and Tar cures the most obstinate coughs or colds and prevents serious results. Refuse substitutes. W. E. Butler & Co.

## What Would You Do

If three good physicians should pronounce your case hopeless. If they should decide that you could not live longer than six weeks. And if you should get well, after using only $12.00 worth of Dr. Miles' Heart Cure and Nervine, what would you advise a friend in like condition to do?

"I have to thank you for saving my wife's life two years ago. We had continued with the doctor until the third doctor, like the two previous ones, said that nothing could be done for her; that she had better be taken home from the hospital to quietly wait her time, which would not be over 6 weeks at the most. I brought her home, and then I thought probably Dr. Miles' Heart Cure and Nervine might help her, so I got a bottle of each and some Nerve and Liver Pills and commenced to give them to her. We soon seen an improvement, and encouraged by this we continued giving the medicine. We gave her eleven bottles in all of the medicine. She takes it occasionally now if she feels the need. I am in the ministry, and have been for 44 years."

REV. P. MILLIGAN,
Genda Springs, Kans.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Miles Medical Co., Elkhart, Ind

## Examiners' Road Notice.

Notice is hereby given that the undersigned, examiners appointed by the County Commissioners at a regular session held on Tuesday, April 21, 1908, will meet Monday, May 25, 1908, at a point on the public road beginning at the entrance to Summerfield Tilghman's farm, where Howard Shortall resides, opening on the Tilghman's Neck road, in the Fifth Election district of Queen Anne's county, Md., the same being the beginning point of the proposed road, to examine and report upon the feasibility of building the proposed new public road to run as follows:

Beginning at the said Tilghman's Neck road, and running through the said Summerfield Tilghman's farm and crossing the said farm, and running between the Carroll farm and the farm now owned by Harry S. Covington, and then between the said Wm. K. Carroll farm and the farm known as New Market, and entering the public road leading from Centreville to Queenstown at a gate at the entrance to the said Carroll farm, the entire length of the said road being about 2½ miles.

The County Surveyor will attend without further notice.

Marlin

REPEATING SHOT GUN
NEW MODEL No 17

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high Marlin standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially bored for smokeless as well as black powder and so chambered that 2¾ inch or 2½ inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence. We are glad to make it possible for every lover of guns and good shooting to get the high grade repeating shot gun at so low a price.

Have your dealer order it for you.
