Pale Faced Women Take Phosphates. Makes Ro Cheeks and Beautiful Forms.
Men Need Phosphates to Make Strong, Healthy, Vigorous Bodies.

Athletes increase their strength, energy and endurance 200% or more by simply taking a few weeks treatment of Argo-Phosphate.

Atlanta, Ga. Dr. F A. Jacobson says that Phosphates are just as essential to any man or woman who tires easily, is nervous, or irritatable, worn out, or looks haggard or pale to make a strong, robust, vigorous healthy body, as they are to cotton to make it grow. The lack of Phosphate is the cause of all enemic conditions and the administration of 5-grain Argo-Phosphate tablets will increase the strength and endurance of weak, nervous, care-worn men and women 300 per cent, in two or three weeks time in many instances, and their continued use will build up the whole nervous system, and give new life, vim, vigor and vitality to the whole body. I always prescribe Argo-Phosphate to patients who are pale and colorless, and it is surprising to see how quickly a few weeks treatment will transform a pale face to a rosy cheeked beauty. There can be no rosy cheeken, healthy, beautiful women, without their system is sufficiently supplied with Phosphates. In recent interviews with physicians on the grave and serious consequences of a deficiency of Phosphates in the blood of American men and women, I have strongly emphasized the fact that doctors should prescribe more phosphates in the form of Argo-Phosphate for weak, worn out, haggard-looking men and women. When the skin is pale, and flesh flabby, it is a sign of anema. When the phosphates go from the blood, the pink cheeks go too. The muscles lack tone. They become nervous, irritable, despondent, melancholy, the brain fags, and the memory fails. Therefore, if you wish to preserve your beautiful vim, vigor and vitality, to a ripe old age, you must supply the deficiency of Phosphates lacking in your food by using Argo-Phosphate, the form of Phosphates most easily assimilated.

NOTICE: Argo-Phosphate which is recommended and prescribed by physicians in alcemic cases, is not a secret or patent medicine, but one that is sold and recommended by well-known druggists everywhere, and physicians are daily prescribing the constituents contained in it. Being entirely unlike many other Phosphates, it is easily assimulated and will be found effective in the treatment of indigestion and stomach troubles, as well as for care-worn, nervous conditions. The manufacturers of Argo-Phosphate will forfeit to any charitable institution $200.00 if they cannot treat any man or woman under 65 who lacks Phosphates, and increase their strength and endurance from 100 per cent. to 300 per cent. or more in one month's time, if they are free from organic trouble. It is dispensed by all reliable druggists.

If your druggist will not supply you, send $1.00 to the Argo Laboratories, 10 Forsyth St., Atlanta, Ga., and they will send you a two weeks treatment by return mail.

Drilling the Tongue.

Upon all those who are ambitious to make the world happier and better rests the obligation of drilling the tongue into habits of kindness, purity and refinement. Not by spasmodic efforts nor with occasional hints and gleams of good cheer are men to use the tongue in the interests of happiness. To daily drill the tongue as an instrument of happiness is to enter into the fundamental conception of living.—Rev. Newell Dwight Hillis.

In Case of Pneumonia.

A physician said this is one of the best aids to a speedy recovery from pneumonia. Make a tight-fitting jacket of cheesecloth, sleeveless, and interline with two thicknesses of sheet cotton. Line with the cheesecloth. Fasten in front with snaps; it is worn next the skin. It is best to have two of these little coats. They protect the patient from any chance draft when changing the clothes or bedding.

Cigar Lighters in Italy.

The Italian substitute for the neat and convenient cigar lighter found in every American cigar store is a long rope lighted and placed outside of the tobacco shop. It is made of cheap hemp, of rope waste, and even of rags twisted roughly into shape and held together by strings of twine. The improvised lighter is made by the storekeeper himself. — Popular Science Monthly.

All Should Keep Books.

Probably the most expensive error usually made by our farmers is the failure to keep books that will enable them, at any time, to tell whether they are doing business at a profit or loss. Many of our farmers can't tell at the end of the year whether they have made money or lost money. Should any other business be conducted in this manner, nothing but failure would be expected.—Exchange.

Where a Regiment Is Buried.

In one of the battles before Plevna the Russian infantry regiment "Pensa" lost 1,700 men and every officer out of a total of 2,000 during an attack that only lasted 20 minutes. An obelisk erected on the scene of action bears the inscription. "Sacred to the memory of the Regiment 'Pensa,' which lies buried here."

Jeremiah in the Pillory.

The prophet Jeremiah was confined in the pillory (Jeremiah 29:26), which appears to have been a common mode of punishment in his time. Ancient Hebrew prisons contained a special chamber for the pillory. This was termed "the house of the pillory."—II Chronicle 16:10.

Rubber Plants.

To keep rubber plants in fine condition, once a week wipe each leaf separately with a cloth dipped in sweet oil. Then pour a tablespoonful down among the roots. This adds strength to each leaf and life to the plant.

Nation's Drug Bill.

Five hundred million dollars is said to be the yearly expenditures for drugs in the United States. Since 1880 the expenditure per capita for patent remedies consumed in the United States has risen from 33 cents to $1.54.

It's All Over Then.

If a girl can get a young man to stand up beside the piano, leaning on it with one elbow and looking down into her face as she plays, she doesn't have to be much of a musician.

Strength of Character.

Sometimes a man gives himself credit for strength of character merely because he is willing to hold up the entire glee club till he finds the chord on his own little ukulele.

At the Biffleton School Treat.

Government Food Official (sternly to curate)—This egg-and-spoon race must be stopped in the interest of the country. It might result in the loss of an egg.—Passing Show.

On a Roller.

A list of telephone numbers that can be fastened to an instrument and which is manipulated like a shade on a spring roller has been patented.

Original "Green Room."

The original "green room" is said to have been painted green in order to relieve the eyes of actors dazzled by the glare of the footlights.

In the Majority.

For one man who sincerely pities our misfortunes, there are thousands who sincerely hate our success.—Colton.

Success From Failure.

We mount to heaven mostly on the ruins of our cherished schemes, finding our failures our successes.—A. Bronson Alcott.

Where Feelings Count.

"All great discoveries are made by men whose feelings run ahead of their thinkings."—Charles H. Parkhurst.

Daily Thought.

The strongest man in the world is the man who stands most alone.

All Drug Stores, 25c. *Don't accept any substitute.* Sample FREE. Address, Mother Gray Co. LeRoy, N. Y. n10-6t.

When Accidents Occur.

It is a curious fact that accidents in industrial plants occur, mostly, between 9 and 9:59 in the morning and between 3 and 3:59 in the afternoon. This is the discovery of the safety director of a large steel company after a year's study. Moreover, the high point of the year in his study was August. Curiously enough, his findings parallel those of the German government covering 25 years, and are close to those of our own department of labor.—Ladies' Home Journal.

Nature's Defenses.

Human beings are not the only life that makes provisions against the ant trouble. These active foragers would invest some plants and carry away all pollen, nectar, etc., without performing any service to the plant. So nature has in many cases protected the parts with a sticky substance so that creeping insects cannot approach, while bees and other winged insects may safely alight on the parts above and cross—fertilize or pollenate the flowers.

Europe's First Artesian Well.

The first artesian well to be bored in Europe of which data are available is the tube well at Grenelle in France, which was sunk by the French government between 1834 and 1841 in the hope of obtaining a sufficient supply of water for Paris. The depth is 1,798 feet, at which level a prolific supply of water was reached, giving an overflow at the surface of 600 gallons per minute.

Death to Apple Worm.

The apple worm's mamma, from whose eggs the destructive larvae develop, is the coddling moth. One cure for the mischief is to spray the trees with arsenical or other mineral poisons. The worms eat the poisoned leaves and die. Thanks to this treatment, the choice grades of apples nowadays come to market in perfect condition, with no wormholes and no worms.

Vegetarian Test.

Dr. C. Decker's vegetarian test is as follows: Take an apple and a piece of steak. Set them aside for a week in a fairly warm temperature and note what happens. The steak will smell to heaven, the appple not so. Place the steak under a microscope and you will find it swarming with horrors.

Not His Fault.

"If fate had been kinder to me, I would have married a $10,000-a-year man," said Mrs. Dubwaite. "You did marry a $10,000-a-year man," answered Mr. Dubmaite, with dignity. "The fact that I didn't get it is no reflection upon me."

Copyright Protection.

The copyright law gives an author an exclusive right to print, publish and sell his writings, and generally the exclusive right to dramatize them for a term of 28 years and provides for a renewal for a second period of 28 years.

Joys of Anticipation.

It has been a thousand times observed, and I must observe it once more, that the hours we pass with happy prospects in view are more pleasing than those crowned with fruition.—Goldsmith.

No Difference.

She—"Don't you think you ought at least to make enough money to support me?" He—"It wouldn't make any difference; even then I couldn't support you."—Life.

Hoodooed.

Hokus—"Flubdub complains that none of the girls look with favor on his suit." Pokus—"How can they when he wears a high hat with a sack coat?"—Town Topics.

Select Choice Companions.

You need never want for good company while hundreds of choice companions look down upon you from every library shelf and ask you to take your pick.

Beyond the Law.

An Ohio judge says there is no law against a man's making a fool of himself. Even the law rarely attempts the impossible.—Houston Post.

Better to Be Lucky.

It is better to be born lucky than rich. If a man is born lucky he can attend to the balance.—Florida Times-Union.

To Remove Rusted Nails.

With soldering iron, candle flame or blow torch, heat the head of the rusted nail or screw which you wish to remove and it will come out easily.

The Real Question.

Everywhere in life the true question is, not what we gain but what we do.—Carlyle.

Demand for Cocoanuts.

European factories each week make about 16,000,000 pounds of artificial butter with cocoanut oil as a base.

To Enjoy Prosperity.

To rejoice in the prosperity of another is to partake of it.

Howard & Lexington Sts.
Baltimore

The Store that Gets The New Styles First : :

¶ When you come to Baltimore to shop—as you probably do at intervals during the year—you will naturally feel safest in the store whose stocks are always fresh.

It is a matter of pride with us—and a matter of principle as well—not to allow old-style or shop-worn merchandise to accumulate.

¶ Periodically, we hold special sales in which this merchandise is disposed of at ridiculously low prices. We would rather give it away than permit it to remain in stock.

As a result, whatever is shown to you as new at Hochschild, Kohn & Co.'s is new.

¶ The woman that does not keep in touch with the styles can buy here with perfect safety—and our peo- will be glad to give helpful advice and assistance to any one who is in doubt as to what to choose.
