### A New Back for an Old One. How it Can be Done in Chestertown.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame to stoop is agony. No use to rub or apply a plaster to the back in this condition. You cannot reach the cause. Exchange the bad back for a new and stronger one. Chestertown residents would do well to profit by the following example.

James H. Thomas, machinist, 244 Prince George St., Annapolis, Md., says: "For years I suffered from lumbago which was no doubt brought on by heavy lifting. My back often became very weak and ached so severely that I could not rest well. In the morning on arising I was sore and lame and any stooping caused sharp twinges to dart through my back. A frequent desire to pass the kidney secretion annoyed me greatly and I hardly ever had a well day. Seeing Doan's Kidney Pills highly recommended, I procured a supply and after I had used four or five boxes, I was in good health. I can praise Doan's Kidney Pills highly in return for the great benifit they have brought me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## Proposed Model Farms.

Senator John Walter Smith, of Maryland, has announced his intention of conferring with those interested in the suggestion of Mr. William M. Ellicott, of Baltimore, that the United States Government create a great national park in the country lying between Baltimore and Washington and adjoining the District of Columbia, with a view of seeing whether the plan cannot be put immediately into such practical shape as to justify him in introducing in the Senate at this session a bill authorizing the establishment of such a reservation and appropriating the money necessary to begin the work.

Senator Smith strongly indorses the suggestion, but thinks that it can be worked out in such a way as to be and mean something more to the country than a mere park or forest reservation. His idea is that with the reservation contiguous to Washington and right at the door of the Department of Agriculture, there could be established and maintained under the direction of the Secretary of Agriculture within the reservation a group of model miniature farms upon which crops could be grown under the most modern and scientific methods and with all the advantages of the knowledge and experience possessed by the department. These model farms—each an acre or so in extent—he thinks would not mar the beauty of the national forest park reservation, but would add to its charm, its interest and its value. These farms would, he believes, bring to this part of the country thousands of farmers from all over the United States, and from other countries as well, to whom the actual demontration of growing crops under scientific cultivation would mean more in agricultural education than they could obtain in any other way.

## Two Weeks Course In Fruit Growing.

The State Horticultural Department of the Maryland Agricultural College announces a two weeks' course in practical Fruit Growing, the control of Insect Pests and Plant diseases, and Spraying. This course is offered free and is open to all persons interested in these subjects in the state. It is an opportunity for the growers to gain an insight into the practical methods of growing trees, packing and storing fruit, and the control of many of the pests that are detrimental to successful fruit growing.

This course is announced to commence January 30, 1911. The local inspectors that are employed by the State Horticultural Department to conduct the inspection of orchards, etc., will be selected from the persons taking this course. It is hoped that each county will have a large number take this course. The course is given at a convenient time for most persons and the cost is simply board, at $5.00 per week. Therefore, growers of this county should make use of this opportunity to learn up to date methods of successful fruit growing. Persons interested should communicate with the Maryland Agriculture College, College Park Maryland

**IF WE KNEW.**

From the Chicago Tribune.

Could we but draw the curtains
That surround each other's lives,
See the naked heart and spirit,
Know what spur the action gives,
Often we should find it better,
Purer than we judge we should,
We should love each other better
If we only understood.

Could we judge all deeds by motives,
See the good and bad within,
Often we should love the sinner,
All the while we loathe the sin;
Could we know the powers working
To overthrow integrity,
We should judge each other's errors
With more patient charity.

If we knew the cares and trials,
Knew the efforts all in vain,
And the bitter disappointment,
Understood the loss and gain—
Would the grim, external roughness
Seem, I wonder, just the same?
Should we help where now we hinder?
Should we pity where we blame?

Ah, we judge each other harshly,
Knowing not life's hidden force;
Knowing not the fount of action
Is less turbid at its source.
Seeing not amid the evil
All the golden grains of good—
Oh, we'd love each other better
If we only understood.

## Fund of Fifteen Thousand Dollars for Local Option Organization in Every Precinct.

Headquarters committee of the Anti-Saloon League of Maryland has authorized the organization of a committee of 100 leading men of all parties throughout the state, and appeals not only to temperance people, but all friends of good goverment, for a fund of fifteen thousand dollars ($15,000), in addition to the contributions received at the churches, to be used in securing a working local option organization in every precinct in the state. The committee itself started the fund with five subscriptions of five hundred dollars ($500) each.

The committee announces that the preliminary and experimental work of the last four years has cost about $75,000, which has been paid by about 5 per cent. of the members of the churches committed to the support of the league movement, and that because of the small size of the state, as compared with the strength of its liquor traffic, the contributions from this source are no longer enough.

The committee catalogues in detail the facts showing that the proposed local option bill is the most pressing political and moral issue in Maryland, including the statement of Governor Crothers that it was a mistake for the last Legislature not to pass it, and declares that no State league has ever done more in the same time or with the same money, or has ever come so close to victory without winning next time.

The members of the committee are: Rev. J. F. Heisse, D. D., State president, and Messrs. Jonathan K. Taylor, David H. Carroll, Henry S. Dulaney, Daniel Baker and Charles W. Dorsey.

A Western paper received the following letter: "Please send me a few copies of the paper which had the obituary and verses about the death of my child a week or so ago. Also publish the inclosed clipping about my niece's marriage. And I wish you would mention in your local columns, if it don't cost anything, that I have two calves to sell. Send me a couple of extra copies of the paper this week. As my subscription is out, please stop my paper. Times is too hard to waste money on newspapers."—Sacred Heard Review.
