Going OUT OF BUSINESS !

$15,000.00 WORTH

inMen's and Boys', Misses and Women's Clothg, Hats, Shoes, Furnishings, Dry Goods and Silks, Rubber Goods, overalls and Work Shirts must be sold out regardless of cost.

Impossible to follow the steady advance on all goods we will sell out and quit. Don't let anything prevent your coming. Don't compare this sale with so-called reductions at other places. We must sell our stock as we are going out of business.

Price is Out of Consideration

$4,435.00

of Ladies' and Misses' New Spring Suits, Coats, Silk and Serge Dresses, Fine Silk Waists, Jersey Suits and Millinery must be sold regardless of cost These goods have just arrived.

Having always carried a large selection of the above goods and to buy at the right price, we always had orders given from six to eight months ahead. These goods were made up for us, and we were compelled to accept them. These brand new spring and Easter goods will be placed on sale and marked down as cheap as the goods we had on hand.

It's to your interest to see these new spring goods at nearly half price and less.

OUR JUST REASON

FOR SELLING OUT

IN PLAIN FIGURES

Over Fifteen Thousand Dollars capital of a few years ago must tripple to carry the same amount of goods next fall, which we cannot financially accomplish. Hence, we will quit. Having had the question put to us about when will our sale be over.

Judging from the heavy selling of our first month our sale may last only a few months longer.

Men and boys, don't delay if you want a suit for Easter or later on. All new spring suits will be just as cheap as the suits we had in stock.

WHY HIGHER TELEPHONE RATES ARE NEEDED NOW

SOME ONE HAS ASKED why this company is asking now for higher rates in view of the fact that at some points an increase in our rates was made some time ago.

DURING THE PERIOD that our property was under Government control, the revenues from operation belonged to the Government and the Government was responsible for the expenses. When it became apparent to the Federal authorities that, due to war prices of labor and material, revenues from the properties were not equal to expenses and the Government was thereby sustaining a loss, the Postmaster General directed the companies affected to establish rates high enough to produce revenues sufficient to meet expenses.

THE STUDY OF THESE requirements was made shortly after the Armistice was signed, when there were indications that there would be a decrease in the prevailing costs of labor and material. With a desire not to burden our subscribers with any more than was absolutely necessary, this company established rate schedules—not adequate at the time—but which we believed, with the anticipated decrease in costs of labor and material, would prove to be sufficient.

THE EXPECTED DECREASE IN COSTS DID NOT BECOME A REALITY. ON THE CONTRARY, COSTS HAVE RISEN SHARPLY.

GOVERNMENT CONTROL HAS ENDED, and the company is confronted with unusual demands for service from a plant exhausted by the burden placed upon it during the war.

OUR SERVICE MUST BE maintained at a high standard. Our facilities must be expanded to meet the growth of the cities, towns and communities we serve. With inadequate revenues we cannot maintain a service up to our standard, nor can we attract new capital necessary to enable us to expand our plant. We are now asking for an increase in rates to better enable us to fulfill this obligation.
