Damage by Storm.

The damage done by the severe wind and electrical storm on Monday evening was considerable. The wheat stacks on Mr. Purnell Jefferson's farm on Flatland was struck by lightning and burned, destroying all of his last year's wheat crop. There was an insurance of $500.

A cow belonging to Mr. Richard C. Leaverton, of near Pomona, was killed by lightning. It was insured for $30 with Joseph N. Wheatly & Co.

The apple orchard on the Vannort farm on Worton creek tenanted by Mr. William Plummer, was badly wrecked by the wind as were a number of other trees.

On Mr. Walter U. Lusby's Tolchester farm several of the fine old shade trees on the lawn were torn to pieces and many of the poplars in the lane were twisted and broken. His corn field was as flat as if it had been rolled, and his wheat was also blown down. Mr. Hendrickson, the tenant, says it was the heaviest storm he has experienced since he has been living there.

Telephone communication was interrupted with the lower part of the county.

The wind in Chestertown and vicinity was light, and there was very little rain until late. Chestertown is a favored place, and our people should be very thankful for the blessings they enjoy.

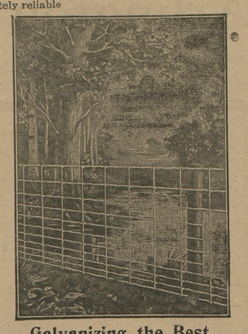
American Fence!

The development of the American Fence, the years of experiment and hundreds of thousands of dollars that have been put into the work of perfecting machinery and producing the grade of special steel that makes AMERICAN FENCE what it is to-day, is a long story. The makers say:

We have succeeded in producing a composition in steel that is perfectly adapted for fencing making. We have been using this special steel long enough to know that it has increased many fold the value of American Fence to the user and firmly believe it to be as near perfection as can be obtained. Wire drawn from this steel, while hard is not brittle. It is stiff and springy, but pliable enough to be easily spliced. There is such a distinction as live steel and dead steel. Every wire in AMERICAN FENCE as now made is alive all the time, always ready for emergencies and absolutely reliable



Galvanizing the Best.

We fully realize the great importance attaching to this part of the work, and we spare neither pains nor expense in an honest effort to have our galvanizing the best both as to quality and method of application.

We know beyond possibility of doubt that our galvanizing to-day is immeasureably better than in years past. We are now able to cover the steel more uniformly, make the galvanized coating more elastic, and on the whole furnish the best article in galvanizing that is possible to produce.

Our Stock of AMERICAN FENCE

is now full and complete and we are prepared to furnish you with any style and quantity. REMEMBER that American Fence has stays six and twelve inches while on some makes of Field Fence the stays are as much as fourteen inches apart, and yet they cost as much money as American.

You can rest assured that when you get American you get the best.

NOW IS THE TIME
To See About Your Painting.

I give my personal attention to every detail of every painting job. A large part of my success is due to the fact that we use only the best material, Lewis white lead, (Dutch Boy painter, trade mark) and absolutely pure Linseed Oil, our other materials are of equially high value. Always ready to show sample cards and quote prices. Let me estimate on your painting.
