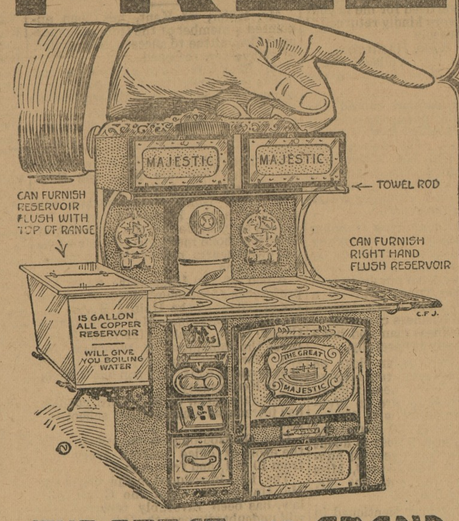
MAJESTIC RANGE DEMONSTRATION

AT OUR STORE ONE WEEK

BEGINNING MONDAY, JANUARY 22d, SATURDAY, JANUARY 29th.

PAUL COMEGYS, Millington, Md.

FREE



THE GREAT AND GRAND MAJESTIC RANGE

THE RANGE WITH A REPUTATION
MADE IN ALL SIZES AND STYLES.

MAJESTIC NEVER-BURN COOKER, STEAMER, CULLENDER AND DRAINER—The Perforated Cooker, shown in center, has small feet which admits water at the bottom. Nothing can burn. Food can be lifted out of main vessel (shown on left), at the same time draining off all the water. The Steamer or Cullender shown on right can be used as an ordinary Cullender. It also fits on top of main vessel, and is used as a steamer.

THE MAJESTIC Extra Heavy Stamped Iron Marbleized Kettle, complete with cover and handle that holds on cover.

THE MAJESTIC 18-oz. All Copper Nickel-plated Tea Kettle. Handsomely nickeled on outside, tinned on inside.

THE MAJESTIC 14-oz. All Copper Nickel-plated Coffee Pot. Handsomely nickeled on outside and tinned on inside.

THE MAJESTIC Marbleized Enameled Pudding Pan. Made specially fine for the Majestic Set.

THE MAJESTIC Patent Never-burn Wired Dripping Pan.—Size of pan 14½ in. x 20 in. Made specially for the Majestic Set.

TWO MAJESTIC Patent Never-Burn Wired Dripping Pans. Size of pan 9 in. x 12 in. Made specially for the Majestic Set.

SET OF WARE FREE.

If you call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great Majestic Range, and will purchase one at the regular price, we will give you Free the beautiful and useful Souvenir Set of Ware illustrated in this advertisement. This ware is made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this set, especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during the demonstration week only.

Reasons Why The Great Majestic You Should Buy.

1st. It has the reputation of being the best range money can buy.
2d. It not only has the reputation but IS the best range made, and we will prove this to you if you will let us.
3d. It is constructed of Malleable iron, material you can't beat, and of Charcoal iron, material that resists rust 300 per cent. greater than steel, is riveted together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.
4th. The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left hand lining, and is movable and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

Majestic ranges use less fuel; heat more water—and heat it hotter; cost practically nothing for repairs; lasts three times as long; bakes better; easier to keep clean and gives better satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once?

Come in Demonstration Week and We'll Prove It to You.

Pomona Items.

The annual meeting and election of officers of Bond M. E. Sunday school was held yesterday at the parsonage. The following officers were re-elected to serve the coming year: A. C. Loud supt.; Henry Brown, asst. supt.; W. J. Maslin secy.; R. C. Leaverton asst. secy.; C. G. Hadaway, treasurer; C. W. Anthony, Librarian; Geo. Townsend, asst. librarian; Julia Antony organist; Nettie Maslin, asst. organist; Lydia Edwards, chorister. The teachers were also re-elected for the year. The average attendance for the past year has been about forty.

The church aid and official board of the church also met and routine business was transacted.

Mr. Jas H. Baker is rapidly recovering from the result of the accident he met with on Thursday last, as the result of his horse running away while attached to a sleigh. Mr. Baker was badly bruised about the face and head and his back injured. Dr. Simmons is in attendance.

Mr. John Chairs, of Pomona, is slowly recovering from a severe cold. He has been bed fast for two weeks.

Mrs. W. M. McCann, wife of the pastor, has been confined to her room for several days with a severe cold.

Mrs. Pearl Vance, of Hillcrest, Wilmington, has returned to her home after a stay of several days with her sister, Mrs. W. M. McCann at the parsonage.

Mr. Wink has returned home after a five weeks trip through Pennsylvania and Delaware.

What might have been a serious fire was arrested by the promptness of Mr. and Mrs. Thomas Starr on Monday night. The flue of the house caught fire about 11 P. M. The glare attracted a number of skaters from R. C. Leaverton's farm, but it was under control when they arrived. The damage done was slight.

Mr. Henry Brown was elected delegate and Mr. A. C. Loud alternate to represent Pomona charge at the Annual Conference of the M. E. Church to be held in Wilmington, Del., March 13th.

A Family Reunion.

The children of Mrs. L. D. Boulden, Sr., of Bohemia Manor, Md., which numbers ten in all surprised her greatly by congregating at the home of her oldest daughter, Mrs. J. A. Vinyard, in honor of her seventy-fifth birthday on Monday, Jan. 15. She was the recipient of many beautiful gifts and post cards. The family assembled into the dining room which was decorated for the occasion, where an elaborate dinner was served consisting of turkey, duck, chicken, ham, salads, jellies, pickles, biscuits, cranberries, celery, ice cream, cakes and all the delicacies of the season. It was a most enjoyable affair, all her children being present, also eleven grand children and three great grand children, and she was more than delighted with her day's surprise.

Those present were: Mr. and Mrs. James A. Boulden, of Bohemia Manor, Md., Mr. and Mrs. R. A. Snyder, of Cecilton, Md., Mr. and Mrs. John Boulden, of Warwick, Md., Mr. and Mrs. William H. Boulden and son, Oscar, of Middletown, Mrs. Emma J. Weir and daughter, Mary, of Wilmington, Miss Nettie Boulden, of Bohemia Manor, Md., Mr. and Mrs. L. V. Kirk and daughter, Hannah and son, Earle, of Middletown, Mr. and Mrs. Herbert Conner and daughter, Mabel, of Cecilton, Md., Mr. and Mrs. L. B. Boulden, Jr., and sons, Tyson and Harry and daughter, Anna of Bohemia Manor, Md., Mr. and Mrs. Joseph Bouchelle and daughter, Mary, of Cecilton, Md., Mr. and Mrs. L. B. Manlove and daughters, Virginia and Mildred, of Cecilton, Md., Mr. and Mrs. T. B. Boulden and daughter, Mary, of Earleville, Md.

After wishing her many more happy birthdays the children returned to their respective homes delighted with their days pleasure.

The Road Drag in Winter.

At this season of the year the road drag should not be neglected. Its use will be followed by results such as do not attend its operation at any other time of the year. If the roads are to be kept in a fit condition to be traveled during the winter and spring, a time of the year when the earth roads are at their worst, they should receive a careful dragging now and at every opportunity during the winter when there is a sufficient thaw to work the road.

It is the water on the road that makes the mud through which travel passes with difficulty cutting the deep ruts and mud holes that make many roads almost impassible in winter and spring. The use of the drag will keep the crown of the road rounded and smooth so that the rain and melted snows will not be left standing in the tracks to soak in and make a mud road. Dragging the road puts on just enough soil to fill all holes, cuts or hollow places, pressing the water out of them into side ditches and by a smoothing effect leaving the surface in condition to shed additional rain. It keeps the crown built up and a smooth, well-compacted earth surface to withstand the penetrating effect of rain and frost. If the roadway is very badly rutted and full of holes the use of the drag when the ground is slushy will give good results. The treatment is particularly applicable before a cold spell when it is possible to have a roadway freeze smooth.

Farmers' Bullenton, No 321, "The use of the Splitlog Drag on Earth Roads," may be had free by addressing the Department of Agriculture at Washington, D. C., and in it may be found many valuable hints that our engineer and others, who have the care of our dirt roads in their charge, may employ to advantage in keeping their sections of road in good repair by the use of this simple and economical device. The main thing is to get our road menders to take hold of the drag and operate it persistently. Experience has demonstated it to be a wonder-worker in road improvement.

Farmers, Beware.

President E. Gittings Merryman, of the Maryland Live Stock Sanitary Board, on Tuesday told of the death in Charles county of no fewer than six horses belonging to one man, their deaths apparently caused by moldy corn which had been fed to them.

Mr. Merryman exhibited specimens of the corn upon which the Charles county horses had been fed. These showed the grains to be badly damaged and covered with mold near the cob, although the outer or exposed parts of the grains appeared to be sound. As proof of his statement that the damaged corn had killed the horses, Mr. Merryman stated that since sound corn had been fed to the remaining horses on the place no further deaths had occurred and none of them had manifested signs of illness.

More than 100 horses have died in Virginia within the last two months from the effects of eating moldy corn.

See HARRY'S NEW STORE

AND it will be better to go there, than to wish you had. We have some sweet surprises here for you, so be sure to see us. We have one of the best lines of plain and fancy Candies on the shore.
