"The Fordson at Work"

A MIGHTY valuab'e booklet just issued by the Ford Motor Company. It is yours for the asking. Drop in and get one or drop a card or letter and we will mail you a copy free.

This book is not what the Ford Motor Company has to say about the Fordson Tractor, but what the tens of thousands of users have to say. Get the book! It is yours for the asking. Keep in mind the fact that behind every Fordson Tractor are the resources of the great Ford Motor Company, likewise that reliable "Ford After-Service" which assures the keeping of the Tractor in working order every day in the year. Remember also that the Fordson Tractor, like the Ford car, is simplicity itself in design and construction; easy to understand and easy to operate. Come in and let us tell you more about it. It is more important to the farmer to-day than anything else.

The Age of Machine Power on the Farm is no longer a matter of speculation; it is here—an establish'd fact. It is the latest advanced step civilization has taken. It comes to the farmer with the full promise to lift the great burden of drudgery and wearisome, wearing-out toil from the muscles of man and carrying them with much more profit by power of machinery, with the result that larger production, more comfort and greater wealth will come to the farm homes wherever the Fordson is employed. *Come in and talk it over.*

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

In some sections of the county it is impossible for the people, not owning cows, to secure milk. As ilk is an essential food for growing children, every individual community should see that its children have milk of good quality and in sufficient amount to assure normal development.

It's Cheaper

TO TELEPHONE
THAN TRAVEL

Just compare the small cost of a long distance telephone message with the cost of railroad fare.

Just consider the convenience, ease and economy of completing a matter in ten minutes by telephone as compared with the long drawn out method of the mails or an expensive, time-consuming trip.

Use the long distance telephone. The cost is reasonable and the convenience is great.

Your telephone directory explains the different kinds of long distance calls.

Ask the operator the rates to any place.
