They never made a cigarette like this in my day—

The Camel idea wasn't born then. It was the exclusive expert Camel blend that revolutionized cigarette smoking.

That Camel blend of choice Turkish and Domestic tobaccos hits just the right spot. It gives Camels such mellow mildness and fragrance!

The first time I smoked Camels I knew they were made for me. I knew they were the smoothest, finest cigarette in the world, at any price.

Nobody can tell me anything different.

CHESTERTOWN ORGANIZES

Will Have Baseball Club Again This Summer—Season Starts on Thursday, June 30

Chestertown will have its summer baseball team again this summer, managed by Captain J. T. Kibler. The team will be composed something like this: Davis, catch; Schelberg, Wright and Blackway, pitchers; Usilton, first base; Kibler, second base; Flowers, short stop; Johnson, third base; Derrick, Duffy, Bounds, Seigenfuse in the field.

At a meeting held on Tuesday evening in the Business Men's office in the Eastern Shore Inn, the following officers were elected: C. H. Morris, president; H. F. Jefferson, vice-president; E. J. Clarke, secretary; Harry R. Graham, treasurer; J. T. Kibler, manager; Wm. F. Russell, assistant manager.

These officers will also make up the Board of Directors of the club.

The season will open on Thursday, June 30, in Chestertown with a good club.

Mr. Graham will arrange a strong schedule, with three games at home a week and two away from home. An effort is being made to arrange two games with the newly-organized Dry Docks of Baltimore, for the fourth of July. Sam Frock has reorganized the Dry Docks and will have a good team again this year.

Mr. Graham wants to hear from all baseball managers on the Shore and Peninsula regarding baseball games for the summer.

BUSINESS

Will Be Increased Through Success Of Home Trade Campaign

The buy in Chestertown campaign, if strictly adhered to, would prove to be the greatest co-operative affiliation with the ultimate results of great benfits to all classes, because:

First—It would increase the volume of all business and therefore the profits and dividends of all firms.

Second—The expansion of business and profits would increase the working forces and salaries.

Third—The increase of business would naturally increase the population of our city.

Fourth—The increase of population means expansion of territory, thereby a large demand for real estate, residences and stores.

Fifth—It would naturally increase the deposits of our banking institutions and give the money markets a broader elasticity.

Sixth—It would make Chestertown a greater trade center.

Seventh—It would invite investments of manufacturers.

Eighth—It would become necessary to enlarge our truck farms and stock raising.

Ninth—It would invite out-of-town trade, because our merchants, manufacturers, truck farmers, etc., could compete with the world.

Tenth—It would entirely eliminate the mail order houses; keep our money at home, and select merchandise with our own eyes, cheaper and better, from as good selections as could be purchased in the United States.
