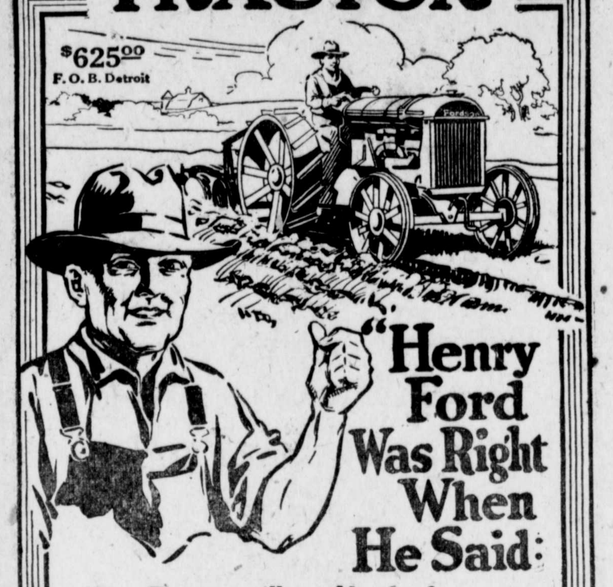
Fordson TRACTOR



'The Tractor will enable the farmer to work fewer hours in the day, giving him more time to enjoy life. I believe the tractor will make farming what it ought to be —the most pleasant, the most healthful, the most profitable business on earth'."

This tractor has done much—very much—in bringing true Mr. Ford's prophecy; for in it is a machine which has harnessed one of the most dependable, efficient, adaptable, economical sources of power in the world—a machine that saves from thirty to fifty per cent of the farmer's time — a machine which many farmers claim plows, harrows or drills as much ground in the same time as four, six or even eight horses. And more —a machine that takes care of every power job on the farm.

Call and let's talk it over, or telephone or drop us a card and we will bring the facts to you.
