Mr. David Lewis, of Allegany Co., is the first Democrat to announce his candidacy for the United States Senatorial nomination. It is rumored that Mr. Charles Coady, of Baltimore, will also be in the race.

THE disastrous fire at Pocomoke this week should be a lesson to the people of this town and community. Every possible assistance should be given to the local fire department to enable it to maintain and operate an effective fire fighting organization. The old saying, "an ounce of preventative is worth a pound of cure," certainly holds in this case.

THE past week has marked notable events in the Genoa Conference, the most sensational of which is the treaty between Germany and Russia. France, England and Italy are naturally much concerned over the fact that the vast Russian Army of 2,000,000 men may be at the disposal of Germany. According to some authorities, this treaty will amount to very little, while others claim that it will be far-reaching in its effect. At the persent time the Conference seems to be hanging by a thread. This is a golden opportunity for Lloyd George to exercise his wonderful diplomatic and statesmanship qualities in adjusting the situation.

FRIDAY

The case of State vs. Harry Comegys, for the murder of William Epps, which occupied a large part of Thursday, was resumed on Friday and was being concluded when we went to press. This case caused considerable interest, chiefly because of the peculiarities which were connected with the death of Epps. Epps, it will be remembered, was living with Comegys at the time of his sudden death. Apparently, the men were close friends. From all information we have been able to obtain there was no quarrel between the men, and no motive has been shown for Comegys' killing of the ex-soldier. Shortly after the death of Epps, State's Attorney Beck and Mr. Manning, a Baltimore detective, secured from Comegys a confession of his killing of Epps with a shotgun. Recently another confession from the man has been obtained by the authorities. Around these two confessions, especially the second one, has waged one of the warmest legal battles seen here for several terms of court between Messrs. Vickers and Russell, on the one hand, and State's Attorney Beck on the other. After a lengthy discussion, Judge Wickes admitted the second confession, which was the chief point of contention. The trial was then proceeded with and will probably be concluded before The Transcript goes to its readers.

The Report of the Grand Jury was as follows:

To The Hon. Judges of Circuit Court for Kent County:

The Grand Inquest of the State of Maryland for Kent County convened at 10 o'clock on April 17 and have the honor to report that they have examined 104 witnesses and have made 28 presentments and made 28 true bills.

Have visited jail and found premises clean, but the plumbing is in need of considerable repair, and also found that a number of locks on cell doors missing. Were informed by the sheriff that they were being repaired and had not been on the doors since he had been in office. We also found in the jail an old colored man who had been there some time, who has been committed to an institution, but on account of his condition cannot be removed. His is a pitiful case and in our opinion this case needs immediate attention. We also would recommend that the fence at rear of the jail yard be repaired or replaced.

We also wish to call to the attention of the Hon. Court that the Penna. R. R. crossing at the state road at Kennedyville is a very busy crossing and a great number of school children and a number of teams are in use of crossing at the same time that trains are passing and we recommend that the Pa. R. R. be required to place a flagman at said crossing, as it is in our opinion a dangerous crossing.

We respectfully submit this report and have finished all work brought before us, and ask that we be dismissed from further attendance on the Court.

G. ALLAN JARMAN, Foreman.
Joseph W. Howard, Clerk.

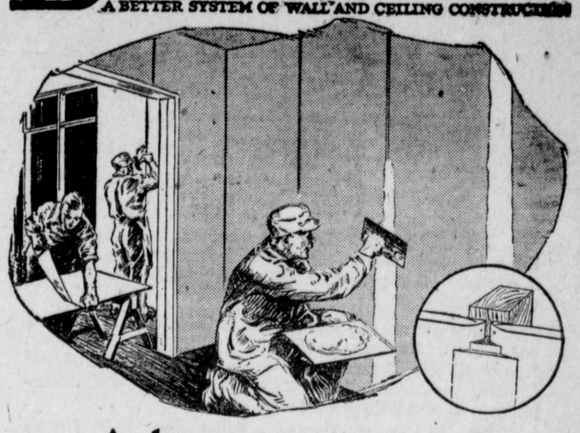
BESTWALL

A BETTER SYSTEM OF WALL AND CEILING CONSTRUCTION



A better system of wall and ceiling construction

Bestwall is the quicker and easier way to build the finest plaster walls—walls that give added fire protection, retard sound and form a superior insulation against heat and cold.

Bestwall slabs can be put up regardless of weather. There's no mixing of materials and no sack nuisance. The job can be done quicker with fewer men. In every case the result is smooth, unbroken wall surfaces that will not chip nor crack.

Going to build? Call or phone for Bestwall sample and more information.
