GOOD ROAD FOR ROCK HALL.

Senator E. E. Goslin and Mr. Miller, of the State Good Roads Commission, were in Chestertown on Monday evening and met a delegation of citizens from Betterton and Still Pond, and also a number of Chestertown citizens in reference to the building of roads in this county under State aid. The visitors stated that on October 1, 1912, there will be to the credit of this county, under the Shoemaker Act, the sum of $7,500 which may be used in the erection of good roads in this county, provided the County Commissioners put up 40 per cent. and the landowners whose property border on the route put up 10 per cent. of a similar sum. The visitors advocated the construction of a shell macadam road 9 feet wide, which they estimated would cost from $4,000 to $5,000 per mile, and would make a most satisfactory and economical road. It developed at the meeting that the people of Rock Hall are clamoring for good roads, and it was thought by many of those present that in justice to the good people of that section who have neither the benefits of railroad transportation or a State road, an effort should be made to at least make a beginning of a good road leading from Rock Hall to Chestertown. Of course the people of Still Pond and Betterton want a road as proposed by them from Betterton to Still Pond Station, a distance of 4.14 miles, and they have put up a bond of $1,000 which they agree to contribute in the construction. Senator Gosiin and Mr. Miller believed it would be better, as an incentive to the people who want good roads, to build 2 miles of road from Betterton to Still Pond this year, and 2 miles from Rock Hall towards Chestertown this year. Accordingly, the County Commissioners on Tuesday made application to the State for the necessary survey to the Rock Hall road, and the good people of that section will at last see the beginning of the good roads, which they should have seen several years ago. Under the Shoemaker Act the Board of County Commissioners let the contract for the construction of the road to the lowest bidder, and the work is done under the supervision of the State Road Commission and the State Road Engineer. The present Board of County Commissioners are determined that the people of this county shall have good roads. Their hands have been tied by the passage of the Gibbs road law, which does nothing but waste the people's money, and it will be up to the voters at the next election to send men to the Legislature who will use their efforts to have this obnoxious Gibbs law repealed in order that the people's money shall be spent in a business-like manner under competent management. There has been enough money wasted on the roads of this county in the past ten years to have made a good road of every main stem in this county, and yet the people's money is gone, and they have absolutely nothing to show for it except ruts and holes. The Gibbs road law will have no effect upon these pieces of road which the County Commissioners propose to build, and they will be constructed under competent management and without excessive cost to the tax-payers.

Strange to say at this time of the year no one is catching fish with hook and line and soft crabs are very scarce. The latter are selling for 75 cents per dozen in Chestertown, and very small at that. Old corn is selling for 95 cents per bushel, and old wheat as $1.12. That's prosperity for you, ain't it?

Chestertown's flower yards never were more beautiful than now. The yards of Mrs. McWhorter, on the avenue, and of Mrs. Thomas D. France, on High street, are perfect pictures, and remind us so much of Dr. Pearson's eloquent lecture on the Poetry of Life. The other fellow may have his cabbage, but give us the flowers.

Mr. Charles S. Smith is greatly improving his Washington avenue home by the erection of a front porch the full length of the heuse. The fences surroundinu the homes of Mr. Smith, Senator Foxwell and Mrs. Harvey Culp have been removed, adding greatly to the beauty and attractiveness of one of Chestertown's prettiest residence sections.

The Town and County Commissioners have gotten together on building the cement gutters from Front street to the wharf. The difficulty arose in establishing the county and town lines. To amicably adjust the matter the County Commissioners have contracted with Mr. Adkinson to build the gutter on one side at $2 per yard, and the Town Commissioners will build the gutter on the opposite side.

We are advised to say by School Commissioner John N. Bennett that the report that his motor delivery wagon was so badly damaged by fire as to require the use of 30 gallons of milk to extinguish the blaze, is an error. It did no damage at all, and Mr. Howard Turner was quickly on the scene and repaired whatever damage there was. The TRANSCRIPT clipped the article from one of our contemporaries, believing it to be a correct statement.
