(52) QUESTION: I am a school teacher and have taught in Maryland ever since I was 19 years old. I am or was 65 years old March 29, 1937. Will you advise whether I am eligible for Old-Age Pension and how to get it?

ANSWER: The Social Security Act does not provide for old-age "pensions." By "pension" it is assumed you mean old-age assistance. The old-age assistance provision of the Social Security Act is based on a Federal-State cooperative plan and is administered solely by the State and local government units. Foryour information, the Maryland legislature availed itself to participate in this Federal-State cooperative plan of old-age assistance and during the 1935 session passed a law that is administered by the State and county welfare departments. For detailed information relative to those who are eligible under this law you should consult county welfare department.

(53) Q. I am a retired farmer 76 years old and by reason of the infirmities of age I have no income or adequate means of support. Under the Social Security Act am I entitled to a benefit?

A. Because of your age you are not covered by Title II, the old-age benefits provision of the Social Security Act. However, under Title I of the Social Security Act provision is made for a Federal-State cooperative program for aid to the needy aged who are 65 years of age and older. The 1935 session of the Maryland legislature passed an act which was amended in the 1936 special session availing itself of this cooperative program. This program is administered solely by the State and local units of the welfare department. It is suggested that you consult your local county welfare department for information concerning your eligibility.

(54) Q. I intend to start working in a canning factory on a part-time piece-work basis. Do I come under the old-age benefit provisions of the Social Security Act, and should I get an account number?

A. You do, and you should apply at your nearest Social Security Board Field Office for an account number and report it to your employer. Part-time employment is not excepted from the provisions of the Social Security Act, and the fact that you will be paid on a piece-work basis has nothing to do with your being covered under the Act.

(55) Q. I have employed four to six men, since May 1937, on construcing houses. My present contracts will not end until December 1937 or January 1938 and I have no assurance that I shall ever employ these men again. Does this employment come under the Social Security Act and just what must I do to comply?

A. The Social Security Act applies to employers of one or more persons any one of whom is engaged in any employment which is not specifically excepted under Title VIII of the Social Security Act. Construction of houses is not excepted employment. To comply with the Act you should, as an employer, file application for an employer's identification number using Form SS-4. This form can be obtained from your Social Security Board Field Office, post office, orfrom the Collector of Internal Revenue for your district. Each of your employees should have a Social Security account number. They should apply for their Social Security account number on Form SS-5, copies of which you or they may get from your Social Security Board Field office, or from your post office. Under Title VIII of the Social Security Act you are required to make monthly tax returns to the Collector of Internal Revenue, based on the wages paid your employees. These taxes become effective last January. Space forbids a more detailed answer in this column, and this paper has requested your Social Security Board Office to send directly to you full information in response to your question.

(56) Q. When can I begin to draw unemployment compensation?

A. Unemployment compensation laws are in operation throughout Region IV, that is, the District of Columbia, Maryland, North Carolina, Virginia and West Virginia. In each of these unemployment compensation will be begun to eligible unemployed workers on and after January 1 1938.

Phillies Out To Jolt "Giants" In Bargain Bills

Club Has Chance To Duplicate Trick Of 1934 When They Knocked New York Out Of Race

Two Double - Headers Scheduled With Terrymen Next Week Aa Philadelphia

They say lightining never strikes twice in the same place—and you can't blame Bill Terry, manager of the New York "Giants", for hoping the dopesters are correct insofar as diamond bolts are concerned.

Bill brings his pennant-contending "Giants" to Baker Bowl for a pair of double-headers with the "Phillies" Wednesday September 29 and Thursday September 30. And this series is likely to determine the "Giants" chances of repeating last year's world series clash with Joe McCarthy's "Yankees."

Back in 1934 a similar situation cropped up in the closing week of a hectic National League season. The Phils had a two-game series with the "Giants" at the Polo Grounds on September 25 and 26. The "Phils" had won but five games from the "Giants" all season. With no pitcher supposedly capable of bursting into fame as Harry "Giant Killer" Coveleski had done years before, the "Phils" were expected to be easy for the first place "Giants."

The "Cards" were pressing the "Giants". As the "Phils" and "Giants" entered their first scrap, the New Yorkers were enjoying a two-game lead. But Curt Davis rose to heights and pitched the "Phils" to a splendid 4-0 victory over Freddie Fitzsimmons. The "Cards" won that same afternoon and the "Giants" lead was sliced to one game.

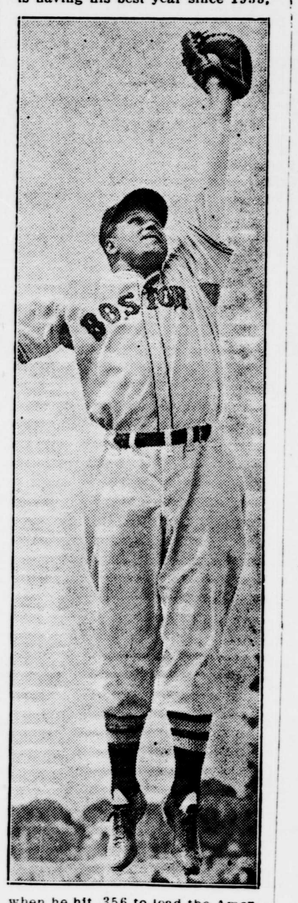
On the following afternoon, Syl Johnson managed to eke out a 5-4 decision over Hal Schumacher. Again the "Cards" won. The unexpected twin reverse from the "Phils" ruined the "Giants" and the "Cards" rushed under the finish wire a winner.

This year, as in 1934, the "Phillies" have managed to win but five games from the Terrymen. But the "Phils" have been coming fast since August 15. Youngsters like Scharein, Martin, Arnovich and Young are playing their best ball of the season. "Chuck Klien, Johnnny Moore, Dolph Camilli and "Pinkey" Whitney are points above .300 in batting. And Manager Jimmy Wilson has his big four pitchers—Walters, LaMaster, Passeau and Mulcahy—in great shape for a strong dash down the homestretch.

FOXX SPARKS THE SOX

BOSTON—Fence-busting first baseman Jimmie Foxx is being hailed as the sparkplug of the Boston Red Sox' blistering drive in the American League pennant race. Though outdistanced by the rampaging Yankees, the Sox for the first time since Tom Yawkey put together his "million-dollar-team" are setting a pace that has promise of at least a second place berth by the end of the season.

Foxx, who is giving Lou Gehrig and Joe DiMaggio some real competition in the Home Run Derby, is having his best year since 1933,



when he hit .356 to lead the American League. In 1932, Jimmie exploded 58 homers, two less than Babe Ruth's major league record.

Jimmie was one of the most expensive "pieces of ivory" acquired by Yawkey in his big deal with the Athletics in 1935. He had been with Connie Mack nine years when he moved to Boston.

Foxx's favorite color is red, and his favorite meal—the only one he can cook himself—is breakfast. He takes it with all the trimmings; fruit, cereal, eggs, bacon and sometimes wheat cakes.
