because of increasing Volume Production!

January, 1925 —There was introduced a new Chevrolet which scored a tremendous success. Among its many new features were: a new and rugged rear axle, an improved unit power plant, a new single-plate disc-clutch, a much stronger frame, semi-elliptic chrome vanadium steel springs, cowl and dash-lamps, and new Fisher bodies finished in Duco . . . And the price of the Coach was $735 f.o.b. Flint, Mich.

August, 1925 — Chevrolet announced a new measure of value based on many new quality features . . . such as motor-driven Klaxon horn, improved sheet metal construction in the bodies, corrugated steering wheel with walnut finish, new headlamp rim construction and a more convenient gear-shift lever. Yet, despite all the additions . . . The Coach was reduced to . . . $695 f.o.b. Flint, Mich.

January, 1926 — Another spectacular increase in Chevrolet value . . . a model offering many mechanical improvements, such as a smoother, quieter motor with three-point suspension, a silent V-belt generator drive, new oil pump, more efficient cooling, an air cleaner, larger brakes, etc. Notwithstanding these improvements . . . The Coach was reduced to . . . . $645 f.o.b. Flint, Mich.
