12,453,000 Telephones in the World.

An interesting pamphlet has just been issued by the American Telephone and Telegraph Company, giving telephone statistics for the world, and showing, incidentally, how much more developed are the United States and Canada than Europe in the use of this means of communication.

On January 1, 1912, it is figured that there were 12,453,000 telephones and 29,566,000 miles of wire in use in the world. This is an increase of 10 per cent. in telephones and 9 per cent. in wire during the year 1911. The total value of the telephone equipment at the beginning of this year is placed at $1,729,000,000 and the annual number of telephone conversations is 22,000,000,000.

Last year was the thirty-fifth year since Prof. Alexandar Graham Bell invented the telephone, and now it is almost an indispensable feature of modern life. In Europe countries have the systems under State control, and are spending large sums for extensions. Italy has recently appropriated $600,000 and France has sanctioned the expenditure of $2,250,000 for the Paris exchange, and Great Britain has voted $20,000,000 for the development of its service.

A table showing the telephone development of the world on Januaay 1, 1911, showed that the United States then had 7,595,938 telephones in use, while the next in the list was the German empire, with 1,068,849. Great Britain had 648,832 while the countries having the fewest were Bosnia, with 747, and Greece, with 1,792. The combined number of telephones in Belgium, Norway, Denmark, Italy and the Netherlands and Hungary was less than the number in use in New York city. Chicago has more telephones than France, and Boston has more than Austria. In the United States the telephones are at 8.1 per 100 population while the percentage for Europe is 0.7 per 100.

PEOPLE'S COLUMN.

The Tolchester Steamboat Company Marked Betterton Off the Map on the Fourth of July.

Betterton, Md., July 4th, 1912.

TO THE EDITORS, CHESTERTOWN TRANSCRIPT, Chestertown, Md.

GENTLEMEN: The treatment handed out by the Tolchester Company to Betterton, "The Upper Bay Resort," on the Fourth of July was an ice application, cold, severe and effective.

Not a single special boat trip, either on Wednesday, July 3rd, or Thursday, July 4th, was arranged to help this resort. On Wednesday, the popular Betterton, Port Deposit and Susquehanna river excursion was run, leaving Baltimore at 9 A. M., returning after a sail up the Susquehanna in the afternoon. No boat to Betterton in the afternoon or evening, except the freight boat, steamer "Kitty Knight." On July 4th, steamer made her regular excurion trip as advertised in the daily papers, to Betterton, Port Deposit and Susquehanna River, leaving Baltimore at 1 P. M, returning, stopping at Betterton at 7.30 to take on those landed on the up-trip. No morning boat direct, no afternoon boat direct, advertised as a special excursion to "Betterton."

No efforts were made by the Tolchester Company, so far as Betterton people know, to aid us on July 4th, when special facilities are always offered all resorts by both railroad and boat lines.

The question is, are we entitled to some consideration, after working these years to make Betterton a resort, or are we made to realize that we must take whatever is handed out to us by the Tolchester line because we are helpless to protect ourselves.

It is true, the Tolchester Company gives us very good steamboat facilities most of the year, and we want to so testify in fairness to them, but when it comes to special excursions on the 4th of July, we are not considered. Again, no effortis made to give us a 50-cent round trip ticket, which is the popular water trip ticket, except one may buy such a ticket good for one day only, which ticket also takes you to Havre de Grace and Port Deposit and up the Susquehanna river, fifteen to twenty miles above Betterton. Also, we are charged 75 cents round trip longer than one day, and the same rate applies to the other points, regardless of distance. Why should we not be given a 50-cent rate to Betterton, as against 75 cents to Havre de Grace and Port Deposit? Why this discrimination?

The fare to Tolchester Beach is 25 cents round trip—we only ask for a 50-cent rate, round trip, but cannot get it. What is the reason for such treatment, the people are asking?

Take the Fourth of July schedule of the Ericsson Line by comparison. This line sent out special excursions from Baltimore at 8 A. M., 10.30 A. M. and 2.30 P. M. Returning, steamers left Betterton for Baltimore at 3 P. M., 8 P. M. and 10 P. M. These steamers all brought large crowds—in fact, except for the excursions of this line, Betterton would have been an empty place this Fourth of July, not counting the large number of country people who always patronize liberally this resort.

The people of Betterton have all their money invested in this resort, and have looked to the Tolchester Company to stand by them to develop it. Will the company give us the proper assistance or will they withhold it? Betterton has the hotels, cottages and amusements—situated on one of the finest bodies of water in America, with high, healthy location and the best water in Maryland. We are trying to make the place the best resort in Maryland. Will the Tolchester Company give us liberal assistance?

We may well ask, "What was the trouble with this company on July 4th?" It is a vital question to us.

"JUSTICE."

CARELESS DRIVING.

SIRS: In these days when there are so many automobiles on the roads, driven by "all sorts and conditions of men," and women, too, it is absolutely imperative that the rules of the road for driving be strictly observed by *all* drivers so as to prevent accident.

These rules are the *same* for automobiles and carriages, and any one violating them is reponsible for any damage that may result.

The following are the rules of the road as published by the Automobile Club of Maryland for the benefit of its members. "*All* vehicles when being driven upon the highways of this State, upon *meeting* others, shall turn to the *right* of the *centre* of the highway, so as to pass without interference, and *any* vehicle *overtaking* another going in the *same* direction shall pass to the *left* of the vehicle so overtaken; said vehicle so overtaken shall promptly upon signal turn to the *right* in order to allow free passage on the left. At the intersection of public highways all vehicles shall keep to the *right* of the *centre* of such highways when turning to the *right* and *pass* to the *right* of the *centre* of such intersection when turning to the *left*."

A strict observance of these rules will make driving safe. An automobile has as much right on the public highway as a wagon or a carriage and *no more*, and vice versa, a wagon or carriage has as much right as an automobile. It is essential that an automobilist sound his horn when nearing an intersecting highway or a sharp curve in the road.

There is a good deal of careless driving being done which is dangerous and very annoying to those who do comply with the law.

Yours respectfully,
H. W. ROBINSON.

Mr. and Mrs. J. Cordray Loud will move into the Dr. J. T. Twilley house on High street next week.

If Women Only Knew

What a Heap of Happiness it Would Bring to Chestertown Homes.

Hard to do housework with an aching back.
Brings you hours of misery at leisure or at work.
If women only knew the cause—that
Backache pains often come from weak kidneys.
'Twold save much needless woe.
Doan's Kidney Pills are for weak kidneys.
Read what a Chestertown citizen says:

Mrs. A. A. Sparks, High St., Chestertown, Md., says: "I have used Doan's Kidney Pills and they have given highly satisfactory results. I strongly recommend this remedy."

Mrs. Sparks, is only one of many Chestertown people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask *distinctly for Doan's Kidney Pills*, the same that Mrs. Sparks had—the remedy backed by home testimony. 50c all stores.
