The Ægis & Intelligencer

Bel Air, Md., February 3, 1888.

HEART HYMN.

Bear the burden of the present,
Let the morrow bear its own:
If the morning sky be pleasant,
Why the coming night bemoan?

If the darkened heavens lower,
Wrap thy cloak around thy form;
Though the tempest rise in power,
God is mighter than the storm.

Steadfast hope and faith unshaken
Animate the trusting breast,
Step by step the journey's taken,
Nearer to the land of rest.

All unseen, the Master walketh
By the toiling servant's side;
Comfortable words he talketh
While His hands uphold and guide.

Grief, nor pain, nor any sorrow
Rends thy heart, to Him unknown:
He to-day and He to-morrow,
Grace sufficient gives His own.

Holy strivings nerve and strengthen,
Long endurance wins the crown;
When the evening shadows lengthen
Thou shalt lay the burden down.

—We have heard many of our old friends say that Salvation Oil cured them of rheumatism.—Those who have not tried it should do so. Our druggists sell it for twenty-five cents a bottle all the time.

Why suffer a bad cold when one bottle of Dr. Bull's Cough Syrup will cure a cough of the worst kind. Dr. Bull's Cough Syrup is sold for 25 cents per bottle by all druggists in the United States.

—Bobby—"Mr. Whitesides, mudder says pleas' len' her yer umbril dis mawnin', she's gwine to de meetin' ober to de church an' ain't got none." Mr. Whitesides—"You tole your mammy if hit rains I'll want the umbril myself, en' if it don't rain she won't hab no use for it."

—Without the means at hand for combating it, a cold may prove more dangerous than the small pox. No family is safe unless provided for such an emergency. In sudden attacks of cold, croup, asthma, etc., Ayer's Cherry Pectoral is an invaluable specific.

—"When she returned she found the money gone" is a sentence which is stirring up all the good and bad grammar in Chicago. "If it was gone how did she find it?" is the query asked by one side, and, "If she hadn't found it gone, why wasn't it there?" inquires the other. Why not let the matter drop and hunt for the thief?

Darbys Prophylactic Fluid.

Use it in every sick-room. Will keep the atmosphere pure and wholesome; removing all bad odors from any source.

Will destroy all Disease Germs, infection from all Fevers and all Contagious Diseases.

The eminent physician, J. Marion Sims, M. D. New York, says: "I am convinced that Prof. Darbys Prophylactic Fluid is a most valuable disinfectant."

—"Ma, de fizology say yer dat de human body am imposed of free fourth watah." "Wall, you heitah mosey off to school an' git outen dat hot sun, ur fust'ing you know yo' be 'vaporatin."

How She Managed

To grow so old and yet have every tooth in her head sound as a dollar, was a mystery. Minot's Dentifrice—price 25 cents—is the article that preserved her teeth, beautifully whitened the enamel, and made her gums healthy. Sold everywhere.

—Let the weather alone if you want it to let you alone. The hottest man in the town is the one who goes about with a fan asking everybody if it is hot enough, and appearing to have charge of the weather.

Who is Your Best Friend?

Your stomach of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right,—if you are troubled with heartburn, Dizziness of the head, coming up of the food after eating, Biliousness, Indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.

—The two legged crank is the hardest to turn.

A California Notion.

It is a satisfaction to note the introduction of a really valuable and meritorious article; such is always of benefit to the people and soon finds the appreciation of the public in the shape of a growing demand. These lines were suggested by the appearance, in our columns, of the advertisement of Celery, Beef and Iron, a most admirable Tonic and Nervine, which has enjoyed a phenomenal sale in California and on the Pacific Coast and in Australia. The merit of the preparation resides in the fact that it is truly remedial in its nature, and, at the same time, is pleasant to taste while its range of application is very wide, being of special use in diseases and derangements of the nervous and digestive systems, and is known as the great Specific for Malaria. We are constrained to call attention to this because of the really large merit there is in this "California Notion," for such it really is, and to ask a careful perusal of the notice which calls attention to the detailed uses of this remedy.

—"Well, good bye, dear Mrs. Jones. I'm afraid I've put you out by calling at this unearthly hour." "O, I hope I didn't show it."

EXPERT TESTIMONY.

J. H. Rittenhouse, C. E., Mining Engineer, of Scranton, Pa., has known the twelve mines of the Tortilita Gold and Silver Mining Co., since 1880, having spent a good portion of that and the following years at those mines. In a letter to the President of the company, Mr. Rittenhouse says: "I have been in a good many mining camps in Colorado, New Mexico and Arizona, and never saw any better indications on the surface or ore in such quantity and of such high grade anywhere as in the Tortilita Camp. To particularize: The desert mine is a large vein averaging about 8 to 10 feet thick, in one place about 30 feet. Ore taken from it in development assayed from 30 to 40 ounces silver per ton, per 100-ton lot. I think the ore is there in quantity, and that a 10 or 20 stamp mill could be kept busy from it alone. The formation is about the same as the Benton. The other mines near the Desert were developed to a more or less extent by several shafts sunk upon the incline, showing well-defined walls and ore about same grade as the Desert. The Eagle is thoroughly defined and with bold (for that country) croppings. Ore carries more gold than silver, about $15.00 of the former and $13.00 of the latter, I think. As for the Jesse Benton and Tom Benton, I think the Jesse Benton is the bonanza of the camp. The average of the bulk of the ore taken from it is 70 to 75 ounces of silver; a little gold occasionally. As this ore was the best, more attention was paid to it and more work done upon it. It was thoroughly proved for a length of about 1,200 feet (twelve hundred) along the claim and the ore found about the same in all parts. I believe the Benton will prove itself to be one of the richest mines in Arizona. All indications point that way."

A limited number of the preferred dividend shares of the stock of the company owning these mines are offered for sale at $2 per share. Address Jos. H. Reall, 57 Broadway, New York, or 48 Congress St., Boston, Mass.

The Rich Harvest Sale for Buyers Will commence this week, when every department of the house will show goods marked down to phenomenal prices. Your dollar will buy as much as two—only a few days ago—and we have nothing but brand new, fresh Suits and Overcoats for Men and Boys. See price list in another part of this paper. Oehm's Acme Hall, West Baltimore street, one door from Charles, Baltimore, Md.

NEW STORE. — NEW GOODS. — LOW PRICES

A Combination Policy

ISSUED BY

The Washington Life Insurance Company,

OF NEW YORK.

A Policy for $30,000 is a Contract for $45,000.

$45,000 increased by Dividends.

Amazing Results of Estimated Dividends.

Untrustworthy Estimates.

Estimates of tontines not reliable.

A Perfect Contract; its Strength and Simplicity.

Three Qualities of the new Combination Policy.

It covers all the Points.

The Policies of The Washington Incontestable, etc.

The man who buys a **$30,000 Combination Policy of the Washington has a contract that secures to him, at maturity, $45,000.**

This sum of $45,000 is augmented by accumulations, if they are not banked upon for premiums.

Applying the "estimates" used by agents of tontine companies to the dividends of the Combination Policy, the result is amazing!

"Estimates" are always misleading and untrustworthy.

The "estimates" of tontines are by no means trustworthy. If they were, the holders would not seek redress from the Courts.

The Combination Policy is a perfect contract. All it proposes to do is guaranteed in strong and simple terms; hence its superiority over all speculative, visionary, and uncertain forms of insurance.

The Combination Policy has three distinct functions; by it a man secures—

1. Protection for a Term of Years.
2. The Savings of an Endowment.
3. Permanent Insurance for Life.

Dividends at End of 1st Year.
Dividends Annually Thereafter.
Dividends Payable in Cash.
Dividends Purchase Additional Insurance.
Dividends Non-forfeitable.
Dividends Protect Policies.

Say the amount of the policy is $30,000. During 20 years the holder is insured for $30,000. At close of period he receives $30,000 Cash, together with all accumulated and unused dividends; also a paid up life policy for $15,000.

Policies on this plan, from $1,000 to $30,000.

The Policies of The Washington are incontestable, with privileges of residence and travel unrestricted.

L. H. BALDWIN, General Agent,
8 Postoffice Ave., Baltimore.
