The Chestertown Transcript.

Saturday Morning, July 4, 1868.

LOCAL MATTERS.

THE HON. J. MORRISON HARRIS will deliver an address at the close of the Commencement Exercises at Washington College on Wednesday, the 8th inst

FOR THE RAILROAD.—Carts, horses and implements for work on the Kent railroad, reached here last Wednesday. We learn these are but the van of a large force now on the way.

THE ORPHANS' COURT, we are requested to state, have adjourned till Tuesday, July 14th. The County Commissioners have also adjourned to that day. Those having business to transact before these bodies will therefore be governed accordingly.

LAND SALE.—James A. Pearce, Esq., as Trustee, has sold at private sale, the farm of the late Capt Morgan Brown, lying in Quaker Neck, containing 204 acres, to James F. Wilkins of Kent Co., for $48 per acre.

OUR farmers are now generally reaping their wheat, and the favorable weather of the past two weeks has done much to dispell the fears which were entertained for this crop in our county. So far as advised the grain has ripened well.

WHARF IMPROVEMENT.—Messrs. Thompson & Lee have for some time past been engaged in improving their wharf by driving down heavy piles, logging up, and filling in with oyster shell. They have also raised their granary so as to be out of the reach of the highest tides.

A NOVELTY in our waters is the huge steam pile driver—from Newark, N. J.—to be employed in constructing the railroad wharf at this place. It is operated by a steam engine of 13 horse-power, and uses a hammer weighing 2500 lbs., having a fall of 50 feet. The powerful tug "Atlantic," of Baltimore, towed it from Chesapeake city (over a hundred miles), last Wednesday.

OBSTRUCTION TO NAVIGATION.—The wreck of a sloop, which was cut through by the ice last winter and sunk in the river near the edge of the channel, about two miles below Chestertown, is likely to prove dangerous to navigation—particularly to strange vessels—as it is just below the surface, and therefore not visible except at low tide. Wednesday evening the large steam pile driver (to be used in constructing the railroad wharf) in tow of a powerful tug, ran upon it with such force as to part several stout cables. No other damage was sustained; but a similar shock to an ordinary vessel would have been serious. Should not the obstruction be removed?

PARLOR DRAMATIC ENTERTAINMENT.—On Wednesday evening next, at the Town Hall, a dramatic entertainment will be given for the benefit of the Mechanics' Bell of Chestertown. This bell is a very fine-toned one, well known as the old Hugh Jenkins bell, and when placed in position will be a convenience to the whole town.

Mr. J. W. Carroll, of the New York Theatre, who has the management of the drama, is well known in our County, from his connection, as instructor, with the Junior Exhibitions of Washington College. Those who remember his declamation of "Shamus O'Brien," in 1864, will need no incentive to hear him on the boards. We hope he will be prepared for a call for this piece. Mr. and Mrs. Carroll have generously given their services for this occasion, and we can assure all that they will be agreeably entertained without any violation of good taste.

EXCURSIONS.—The steamer "Law," under charter of Messrs Catlin and Hardcastle, made an excursion from Crumpton to Belle Grove on West river, on Tuesday last. The Kent Cornet Band furnished music for the occasion. The boat touched at the river landings, but owing to the busy season of harvest, the number of excursionists was small. Parties who went speak of the trip as having been very pleasant. We wish the charterers better success next time; and if they will give notice through the columns of the Transcript, we think they may rely upon it.

On Wednesday evening the steamer Kent Island, chartered by Miss Redue of the Young Ladies School in this Town, left her wharf here, with a large and brilliant company, for a trip down the river to Corsica. The evening was most delightful, and the youth and beauty of the town enjoyed the moonlight dance to perfection. When old Kent turns out she is hard to beat in the way of pretty girls, and this was the remark of more than one on this occasion. The Kent Island is one of the most delightful boats on our waters for excursion parties; and the gallantry of Capt. Burgess is no small item in her list of attractions. The party reached home about twelve having, all, enjoyed themselves greatly.

Special Notices.

AMONG the many restoratives which nature has supplied to relieve the affliction of humanity, there is no more favorite one for a certain class of diseases than the "medicinial gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced tenfold by scientific and judicious combination with other ingredients, in themselves of of equal worth. This happy mingling exists to a remarkable degree in

DR. WISTAR'S BALSAM OF WILD CHERRY,

whose value in curing Coughs, Colds, Bronchitis, Whooping Chough, Croup, Asthma, Pulmonary Affection, and Incipient Consumption is estimable.

Strong Testimony.

From Benjamin Wheeler, Esq., Depot Master of South Royalston, Mass.

"In the spring of 1858 I was most severely afflicted with a hard, dry cough, with its usual accompaniments of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hopes of every recovering as had also my friends. At this stage of matters I was prevailed upon through the influence of a neighbor to try Wistar's Balsam of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night sweats deserted me, hope once more elated my depressed spirits, and soon I had attained my wonted strength and vigor. Thus has this Balsam, as has often been remarked by persons conversant with the above facts, literally snatched me from the yawning grave. You are at liberty to use this for the benefit of the afflicted.

NEWARK MACHINE WORKS.

THE DIAMOND STATE THERSHER AND CLEANER.

WE call the attention of Farmers to our Improved Diamond State Thresher and Cleaner with Double Acting Separator. The practical operation of these Machines, is such, as will warrant us in advising those wanting Threshers, to examine ours before purchasing elsewhere. We build three sizes. No. 1, 36 in. cylinder, No. 2, 30 in. cylinder, No. 3, 26 in. cylinder. They are of the best materials and workmanship, and warranted to suit purchasers. Large or small Powers can be used to drive them, as desired. Galvanized sheet iron is used for seives and shaker bottoms. They are unequalled in strength, capacity, durability and lightness of running, doing their work rapidly and in the best manner. The machine is a model of simplicity in its construction and operation, and the price of it much below others in the market. The double shaker separates all the grain from the straw—none is wasted, and the fan as a cleaner is unsurpassed.

The shoe of the shaker can be easily detached and the machine used as a Thresher and Separator alone.

Our Endless Chain Horse Powers are made with steel rods, and our Improved Link.—All the bearings for the wheels are steel, making the Power run with great ease to the team. Also Lever Powers.
