THE TRANSCRIPT

THE MERGER of the Essex and the Dodge Co. into one gigantic corporation eliminates the competition of these two large companies and materially lessens the overhead expenses of each and we have no doubt thrown out of employment many men and women—thus the large corporations are gradually absorbing the individual business of this country.

The Third National Bank
OF CHESTERTOWN, MD.
The Only National Bank in Kent County
"THE BANK WHERE YOU FEEL AT HOME."

SERVICE to customers is the aim of banks. REAL SERVICE of any kind is rare. It can only come where there is training, intelligence and spirit. It must come from the heart as well as from the brain. It is not perfunctory, it is the result of vision and of seeking the best interest of others. Its reward is sure and its results are confidence and satisfaction. When a bank says that it gives its customers real service, it makes a large claim. It no doubt does give excellent service in certain cases, but, after all, its average service is what it will be judged by. To make THIS bank average above the average is the task this bank has set before it. That we have not always succeeded is manifest, but the earnestness of the endeavor has brought definite results. It has awakened in our staff the desire to serve. It has put a spirit into our contact with our customers which is apparently appreciated. The real problem is to serve our depositors as well as to advertise to them, and building up good will can only come as, with the passing of time, the public realize that this institution is able and willing to live up to its promises of services as advertised: Better, Broader and More Helpful.

5 PER CENT. INTEREST ON FARM LOANS
Since the annual rate of interest was reproduced to 5 per cent. on November 15th, 1927, The Kent and Queen Anne National Farm Loan Association has received applications for loans totalling $73,000, showing the increasing popularity of this Co-operative method of borrowing money on farm lands.
If you are now carrying a 6 per cent. mortgage on your farm which never grows less, why not transfer it to the Federal Land Bank and get the benefit of the 5 per cent interest, enabling you to reduce your mortgage principal every year.
If you desire to purchase a farm the Federal Land Bank will finance the proposition to the extent of 50 per cent. of the purchase price on the 5 per cent. annual interest basis.
The Federal Land Bank proposition reduces the principal amount of your mortgage every year until it is finally liquidated on easy payments.
Come in and let me tell you all about it.
