Chestertown Transcript.

TUESDAY, DEC. 3, 1878.

Big Hogs.—It is now in order for the raisers of big hogs to "interview" ye item-seeking local reporter. Trot out your heavy-weights.

"The Labor Question" will be the theme of a discourse, next Sunday evening, at the Methodist Protestant Church, by Rev. C. B. Middleton.

Dr. George T. Maxwell has assumed the position of editor-in-chief of the Wilmington (Del.) *Daily Morning Herald*. His assistant is Mr. Robert A. O'Byrne.

Wanamaker, the leading clothier of the Union, has a new advertisement in to-day's paper, which is well worth perusing—and the best of it is, what he says may be depended on.

Some of our most prominent citizens have been cured of Rhematism and Neuralgia of years standing by that wonderful pain banisher, Keller's Roman Liniment. For sale by all Druggists.

Hudgins, the Baker and Confectioner, on Cross street has a very taking ad. in this morning's issue. He takes the pains to name the prices of leading and seasonable articles. Read his advertisement.

Sale of Town Property to-day.—At 11 o'clock, A. M., Gen. Geo. Vickers, as trustee, will sell at public sale, at the Vosbell House, all the town property belonging to the estate of the late John K. Willis.

Dr. Bull's Cough Syrup should be kept in every family. A slight cough, if unchecked, is often the forerunner of Consumption, and a timely dose of this wonderful medicine has rescued many from an early grave.

Improvement.—Wickes & Bro. have recently had the front of their storehouse brightened up by several coats of neat paint; and last week they put up a beautiful sign, the lettering and general get-up of which is really admirable.

Prof. Keenan, of New York city, gave a selection of choice reading in the Town Hall, last Tuesday night, for the benefit of the new Catholic Church. The attendance was very fair, and the various recitations generally applauded.

Mr. V. Burgess's new advertisement of Christmas Goods (in another column) is worthy of special perusal. His stock is varied and extensive, and purchasers should not fail to give him a call and see for themselves the great variety of goods he has in store.

Moving a Two-Story House.—Last week Mr. John Armstrong had a good-sized two-story building removed from its location in the rear of restaurant to a lot, owned by him, a few yards below, adjoining the property of Mr. Jas. B. Sappington, on Cross street.

A Large Sale of horses, stock, farming implements, &c., the property of Benj. F. Joiner, will be sold at public sale, on the premises, at 10:30 A. M., on Friday next, December 6th. The terms are liberal. Read the advertisement, which will be found elsewhere in to-day's paper.

Mr. C. H. Vanderford, formerly of the *Old Commonwealth* at Harrisonburg, Va., has become half owner of the *Democratic Advocate*, published at Westminister, Md. The *Advocate* is, in every respect, a first-class newspaper—edited with considerable ability and almost faultless in its appearance and typographical arrangement. It is a decidedly successful journal.

The Morning Herald, the only penny morning newspaper published in Baltimore city, appeared in an enlarged form last Wednesday, having added four columns to its size, and making now seven columns on each page. The *Herald* is a live paper, and its publishers say is prospering. We trust its success may be equal to the expectations of its enterprising proprietors.

Hog Killing Season has arrived, and within the next ten days, probably, most of our farmers will have killed their pork. Some have done so already. The low price of corn has, no doubt, caused growers of hogs to feed them more liberally than usual, and consequently better fatted pork will be in the market. We learn that it can be bought from 3½ to 5dollars per hundred pounds.

A Pair of Handsome bulk windows have just been put in the High street front of Mr. C. F. Stam's drug store. The front of each window is composed of two panes of glass measuring 36 x33½ inches each; the side lights are each 21x33½ inches. They add very much to the appearance of the front, and when filled with selections from the beautiful stock of fancy goods in the store will make a very fine display.

The Trade Dollar.—Some few of our merchants, we hear, refuse to receive the "trade-dollar" at par, allowing only 90 cents for it—but the majority receive them very willingly—in fact, the only trouble in the case is that they can't get hold of enough of them. Baltimore merchants, to some extent, also refused to receive them at par; but wide-awake chaps advertised and solicited them on an equal footing with greenbacks, and we saw a card from one house offering a premium of 5 per cent. for them, when purchases amounted to more than three dollars, and pledging to sell goods without putting on any extra charges in consequence.

Acquitted.—John W. Wheatley, tried at Cambride last week on an indictment of manslaughter for the killing of John Bramble, at a camp-meeting last summer, near Tobaccostick, Dorchester county, was acquitted. The evidence showed that Wheatley was promenading with a female named Mary Canady, and that a crowd, prominent among whom was Bramble, followed them around, threatning Wheatley; and finally Bramble, as Wheatley and the girl were about to leave the ground, siezed hold of his coat, when Wheatley drew a pistol and fired upon him. The *Cambridge Chronicle* says Miss Canady's appearance on the witness stand produced a decided sensation. She is remarkably pretty, has a sweet and attractive expression of countenance, and is almost a child, being, we should judge, under sixteen. She is decidedly *enciente*.

Jail Breaking.—Last Saturday night, between 10 o'clock and day-break, four men, dredgers, serving out a term of imprisonment on account of inability to pay their fines for violating the oyster laws, escaped from our jail by sawing in two an iron bar in the window of their cell, in the second story, fronting on cross street. It is supposed that they reached the ground by means of their blankets, knotted together and forming a rope. Last Saturday Sheriff Davis consulted his Honor, Judge Wickes in reference to their liberation, and it is probable that they would have been released Monday. It is, we learn, in such cases, necessary for the parties to make oath that they are unable to pay their fines, and also to produce a responsible disinterested party, cognizant of the facts, to make a similar oath. They had been in jail two months.

The old steamer Columbia, well known to our citizens from her frequent visits here with excursion parties from Baltimore city, for several years past, was sold at public sale, last week, and struck off to a firm of junk dealers, for the small sum of $1,000. The Columbia is probably the oldest steamboat in the United States. She was built in 1828, and for 45 years was run on the Potomac Transportation line. In In 1859 she was rebuilt. For the last five or six years she has been used as an excursion boat. The Columbia is 179 feet long, 30 feet wide, with a depth of 10 feet, and 749 tonnage. The price brought was astonishingly low. She was purchased by her recent owners for $2,000.—The Columbia has been familiar to the public as a river boat within the recollection of the oldest citizens, and has probably had more people on her decks than any other boat that ever belonged to the port of Baltimore.

Captured.—Medford Watters, the young negro who shot and killed a comrade, whilst at work in a corn field, in Cecil county, about three weeks ago, was arrested in Spaniard's Neck, Queen Anne's county, last Wednesday and lodged in Centreville jail. The *Record* of the 28th says of him:

Watters is a tall, slim, black negro youth, about 17 or 18 years old, and rather large for one of his age, with large hands, long arms, after President Lincoln's type, and a perceptable stammer in his speech. His face is sleek, smooth and rather small and by no means repulsive.—His forehead is low and very narrow between the temples, which have the appearance of being sunken, or pushed in. This gives him an idiotic look and forcibly impresses one with a decided lack of brains. He suffers much from a shot gun wound in his left hip and can scarcely get up when down. He seems contented and comfortable in his cell as he sits close to a warm stove in one corner, and politely answers all questions.

Watters acknowledges that he shot and killed Jenkins but stoutly maintains that he did it in self-defence. The substance of his story is about as follows: He was husking corn when he and an old colored man named Wilson got into a quarrel, and while the war of words was going on between himself and Wilson, Jenkins left his work and came to where they were, assumed the quarrel for Wilson and at the same time drew a knife from his pocket and cut at him (Watters), who then went to the cabin of the woman where he boarded, about 200 yards distant and got his pistol. Jenkins, when he saw him coming made for him with a knife, but prevented him from coming close enough to cut him by throwing stones at him not so much, he says to hit him, but prevent him from cutting him. As this did prevent Jenkins from advancing and endeavoring to cut him, he fired at him to scare him. The shot did not take effect. Jenkins then went for the corn knife and as he advanced with it, Watters fired the second time as he says "to keep him from killing me." The ball lodged in the right breast from which he died. Watters says he saw the wound after he fired and talked with Jenkins and both agreed that they "ought not to done it." Watters says he is willing to meet his fate whatever it is.

A Treat.—Mr. Jos. Thompson, the eloquent Blacksmith, well known for the prominent part he took in quelling the terrible riots of August 1877, has consented to Lecture in the Town Hall, on Tuesday evening next, December 10th. A few weeks ago he delivered a lecture before a crowded audience, in the Town Hall, at Centreville. The press of that town spoke of it in very complimentary terms, and so well were the people pleased that he has been engaged to deliver another lecture there at an early day.

The Dodson Affair.—We have nothing new in reference to this notorious case. The transferring of the young men, Vincent and Newcomb, to Newcastle jail, on the requisition of the Governor of Delaware, and the subsequent arrest and conveying to the same place of Mrs. Dodson, is well known to our readers. The most dreadful, improbable and monstrous stories, in reference to Mrs. Dodson and her two daughters, are still afloat in the community, and, strange to say, find numbers of persons credulous enough to believe them; and the more wild, sensational and outrageously filthy in conception and detail, the more eagerly are they listened to and apparently believed. Never was the character of a family more ruthlessly assailed and torn to shreds to be cast abroad as vile, all over the land, by sensational Bohemians of the press, whose business it is to pander to a vicious, corrupt and depraved taste; and yet, the sufferers have no remedy, though their good name has been hopelessly destroyed.

The Attorney General of the State of Delaware, John B. Pennington, Esq., came to Chestertown, last Thursday evening and on Friday, accompanied by H. W. Vickers, Esq., our State's Attorney, rode out to the vicinity to hunt up evidence for the prosecution, and we learn that he was successful in his search. Vincent and Newcomb, it is expected, will be tried this week.

Prof. Ebaugh, the new principal of our Public School, has inaugurated a system of merit and demerit marks, on the following scale:—100 excellent; 90 very good; 80 good; 70 poor; 50 very poor; 0 failure. On November 15 the new system had been in operation five weeks, and the pupils were given written statements of their standing in the various grades, for the inspection of their parents. Below we give the names of the pupils taking the first honors in their respective grades, viz:

	Grade.	Per ct.
Minnie Usilton	7th	99
Annie Crouch	2-6 "	94
Maggie Fowler	1-6 "	89
Lewin Wickes	2-5 "	82
Sallie Bazzard	1-5 "	85
Laura Thomas	2-4 "	94
Bessie Hines	3rd	85
Guion Roberts and David Perkins	2-2 "	88 4-5
Mary Thomas	1-2 "	89 2-5

The plan, so far as tried, works admirably. Not only are the children more studious, but parents are taking greater interest in their advancement. The present term ends the last of January, at which time an examination will be held, and the standing of the children given, in the order of merit, and embrace not only the first, but also those who occupy second and third positions.

Thanksgiving Day in Chestertown, was observed by the closing of business places and service, in the forenoon, in the churches. The heavy rain of the preceeding day and the wet and cloudy early morn prevented many, whose custom it is to celebrate thanksgiving by gunning and hunting, from engaging in their favorite pastime. At the Protestant Episcopal church, the regular thanksgiving services were held, and the pastor, Rev. S. C. Roberts, preached a sermon appropriate to the occasion. The musical selections were also of a character in keeping with the observance of the day. The congregations of the two Methodist churches unitedly assembled at the M. E. Church, and in point of numbers made a very respectable showing for a thanksgiving service. Rev. C. B. Middleton, of the M. P. Church, preached from the 14th Psalm—"He hath not dealt so with any "nation; and for his judgements, they have not "known them. Praise ye the Lord." The sermon was a scholarly effort, very interesting and instructive, and was listened to with marked attention throughout. The music rendered by the choir,—composed of Mr. R. K. Pippin, leader; Miss Louie Lambert, 1st soprano; Mrs. Barton, 2d soprano; Miss Delma Bordley, alto; Mr. Thos. S. Bordley, tenor; and Mr. John W. Bordley, bass;—was very fine. Miss Debbie Lambert presided at the organ, and her handling of the instrument was admirable. The first selection was "Sing ye Jehovah's praise," followed, after the sermon, by "How Beautiful upon the Mountains," and the final piece, "Let Every Heart Rejoice and Sing;" all very fine in melody and sentiment, and eminently appropriate to the occasion.

Maryland Public School Commissioners.—The Association of Public School Commissioners of the counties of Maryland, met in annual session at the State Normal School building in Baltimore city, on Tuesday last, and continued in session two days. E. F. Perkins, Esq., of this town, first Vice-president of the association, presided during the session. Most of the counties were represented. On the first day of the meeting, Prof. M. A. Newell, secretary of the State Board of Education, spoke on the condition of the schools in the several counties of the State. He said the general course of the schools had given perfect satisfaction in every department. A larger number of pupils was on the rolls, and a larger average attendance than during the previous year. This year there are 1,920 schools; last year, 1,827; increase 93. The increase of male teachers was 64; female teachers 21. The total number of pupils this year is 109,998; last year 104,462; increase 5,536; average enrollment, 1878, 82,724; 1877, 76,692; increase 6,030; average attendance of pupils, 1878, 52,118; 1877, 47,804; increase 4,314; largest number enrolled any one time, 1878, 91,889; 1877, 86,340; increase, 5,549; expenses this year, $1,011,690 90; last year, $1,011,579 87; excess this year, $111 03.

During the second day, a very lengthy and useless discussion, we think, in reference to ascertaining "what steps can be taken to secure the payment of that portion of the free school fund which was withheld in 1877 on account of the Baltimore and Ohio Railroad Company failing to meet its engagements with the State," took place. Inasmuch as the State has not refused to pay the money, but has always furnished ample means to meet the requirements of the public school system, such a movement, on the part of the association appears to us not only unnecessary but actually unwise. Officers of the association were elected as follows: President, James W. Pearre, of Frederick county; first vice-president, George M. Upshur, of Worcester county; second vice-president and treasurer, Dr. W. W. Duvall, of Prince George's county; secretary, T. C. Bruff, Baltimore, county; business committee, Prof. M. A. Newell, Dr. James L. Bryan, of Dorchester county, Rev. John Squier, of Cecil. Adjourned.

Orphans' Court, Tuesday, Nov. 26.—Present, Judges Nicholson Shallcross and Wilson. W. N. E. Wickes, adm'r Wm. Janvier, dec'd, and acting guardian to the minors of said dec'd, exhibited his guardian accounts for the years 1876-7. The release of Cornelius C., Thos. T. and Elizabeth S. Brown to W. G. Trew, their late guardian, were filed and ordered to be recorded. Jacob Highley, one of the administrators c. t. a. of John Kennedy, late of Montgomery county, Pa., returned a list of sales of the personal estate of said deceased in Kent county, Md. The last will and testament of Emeline Rolph, dec'd, was filed, admitted to probate and ordered to be recorded. Thos. E. Norris, adm'r Perry Watters, col'd, returned his first and final administration account, which was passed and ordered to be recorded. John H. Wolfe, adm'r Nathaniel Wolfe, dec'd, filed an inventory of the personal estate of said deceased, which was examined and ordered to be recorded. On application, letters testrmentary on the estate of John L. Bowers, late of Kent county, dec'd, were granted unto Richard Hynson, who filed his bond with approved security, and the usual notice to creditors ordered.

A New Cure for Burns.—It has been ascertained that the very best remedy for burns and scalds is the application of common cooking soda or any other alkali in a neutral form, which will afford instantaneous cessation of pain. In all cases of superficial burning this simple treatment will effect a perfect cure in a few hours, and the severest burns and scalds soon yield to it. At a recent meeting of the Massachusetts Dental Society in Salem, Dr. Waters, of Boston, gave a practical demonstation of this theory by a test that required considerable nerve and more faith in the efficacy of the treatment to put into operation. The doctor dipped a sponge into the boiling water and squeezed it over his wrist, the water flowing around the arm and encircling it with a severe scald two inches wide. Not content with this, he dipped the sponge a second time and pressed closely on the other side of the wrist for half a minute, thus making a deep burn. He then applied bicarbonate of soda and laid over it a wet cloth, and the intense pain was banished as by magic. Next day the scalds, with the exception of the part purposely made so severe, were practically healed, only a light discoloration of the skin showing where the water had flowed; this, too, without a second application of soda.

Bishop Lay Going to England.—The standing committee of the Diocese of Easton, having granted Bishop Lay a four months' leave of absence for rest, in consequence of his present ill health, the Bishop, under the advice of his physicians, will go to England, taking Mrs. Lay and his daughter with him. He will leave early next week. It is confidently believed that rest and a change of climate and scenery will do more than medicine to restore his health. A letter from him to his clergy, read in the parish churches last Sunday, states that he will leave the work of the Diocese in excellent condition.—*Easton Star, November 26.*

Boston has an interesting family—father, mother and ten-year-old daughter—that lives in a great mansion without a servant, only having a woman come from time to time to do the heavy housework. For years the inmates have lived on fruit and vegetables only. The child is kept in a glass case, her play-room, study and nursery all being at the top of the house, where the wall and roofs are of glass, the continual sun-bath being considered necessary to the child's physical and moral health and well-being. The mother, formerly a normal school teacher and a great student, is the child's teacher, and, with the exception of her daily airing in the handsome grounds of the place, the little girl never goes out and rarely does she see another child.

A case of peculiar interest comes up from the United States Court at Indianapolis. The grand jury reported to the court that the district attorney had received instructions from the President against prosecuting an alleged embezzler of the funds of a national bank and a request that he investigate the case. The grand jury desired to know from the court whether it was their duty to proceed with the case. Judge Gresham in giving an affirmative reply said the President had no more right to control the action of the jury than the Czar of Russia.

As far as we can can learn the Democrats are pretty sure of a majority of 17 over the Republicans in the Forty-sixth Congress. The latest estimate from an independent source, gives 148 Democrats, 131 Republicans and 8 Greenbackers with six districts., four in California, one vacancy and one disputed election, six members in all, to hear from. There will be some very close voting, therefore, in the next House.

JOHN BELL,

Has had his Store lowered and enlarged on High street, opposite the Bank, invites his friends and the public to examine his well selected stock of

FAMILY GROCERIES,

Tin, Wood and Willow-ware, Confectionery, Domestic and Foreign Fruits, Nuts, &c., which he offers to the public at prices to suit the times.

Country Produce taken in exchange for goods.

By giving personal attention to business I hope to merit a share of patronage. Thankful for past favors, I remain,

Respectfully, JOHN BELL, Agt.

Nov. 12, 1878.

GLASSWARE—the cheapest in town! A dozen good tumblers for 50 cents! A nice Lamp for 25 cents—at SPARKS'.

1878 FALL AND WINTER. 1878

New Millinery AND FANCY GOODS,

LATE STYLES! LOW PRICES!

MRS. H. USILTON,

Just below Wickes' Drug Store, has received a well selected stock of new and beautiful MILLINERY and FANCY GOODS for FALL and WINTER wear, of the latest and most fashionable styles.

HATS, BONNETS, RIBBONS, LACES, TRIMMINGS,

Neck Ties, Belts, Ruffles, Feathers, Flowers and Ornaments. She is satisfied of her ability to please both in quality and price.

STAMPING done in the neatest and most durable manner.

The ladies are invited to call and examine her goods and prices before purchasing elsewhere. No effort will be spared to give full satisfaction to all who favor with their patronage.

MRS. H. USILTON.

Nov. 5, 1878.

A GOOD LINE of Bleached and Unbleached Muslins, Tickings, Canton Flannels, ladies Corsetts, Notions, Hosiery, &c—all at lowest prices, by J. B. SAPPINGTON.

LAW CARD.

GEORGE A. HANSON,

Attorney at Law,

HAS resumed his Profession and offers his services to the public.

Office in "Transcript Building," facing the Court House, Chestertown, Md.

May 21, 1878.

SEASONABLE.

NEW GOODS, NEW GOODS.

I. X. L. Fly Traps, Fly Fans, Fluting Machines, Wire Dish Covers, Two, Three and Four Prong Forks, Screw Wrenches, Scythes, Snaths, Scythe Stones, Scythe Rifles, Zinc Oilers, Knives and Forks, Tea and Table Spoons, Tin Cups and Plates, Field Kegs, Animal Poks, &c., at a very low price. J. K. ALDRIDGE.

June 8, 1878.

SALT by sack or quart, Champagne Cider; Canned Fruits; Bologna Sausage; Powder and Shot—at KENNARD'S.

Fall and Winter

1878-9.

WHY need you go shivering with cold during the freezing days of the approaching winter, when

J. F. CONNELLY & CO.,

have the articles you need for comfort, and at prices as low as they can be purchased in the city!

Having taken in consideration the stringent times and "scarcity of money," have purchased a Stock of Goods never before equaled in this town for Quality, Price and Assortment.

It is said by all who have visited (and they are many) the "Popular Clothing House" of

J. F. Connelly & Co.

that they have *never seen it equaled*, (and you, my dear reader, will sanction it after a visit.)

NOTIONS, HOSIERY, &C., &C

We have been complimented upon our "taste" in the purchase of our stock of

NOTIONS, HOSIERY, NECK-WEAR, CUFFS, COLLARS DRAWERS, SHIRTS, UNDERSHIRTS, &c.

For FALL and WINTER WEAR.

Also our stock of

Hats & Caps

of the latest style and at prices to suit the times.

Our motto is as ever before, that a "quick dime is better than a slow dollar."

No trouble to show Goods. We will take down every article in the House, to please, and if we can not please then the eager purchaser will have to go to the origin of Styles (Paris) to succeed.

Don't fail to examine, as an examination is sufficient to prove what is asserted.

Most respectfully,

J. F. CONNELLY, & CO.

Note.—We have the finest line of SAMPLES ever on exhibition in this town, and at the least prices. Fit guaranteed! or no sale. Samples sent anywhere on the Peninsula, on application to J. F. CONNELLY & CO.

Sept. 8, 1878.

"RISING SUN" SALOON,

On Bridge St. near Cross, Chestertown

IS fitted up for the accommodation of Ladies and Gentlemen with all the delicacie usually found in the the Saloons in the city.

In the Ladies' Saloon, Ladies will be served with Cake, Ice Cream, Oysters in all styles of cooking, Terrapins, Crab, Beef-Steaks, Fried Ham, all the delicecies of the season, at the shortest notice.

In the Gentlemen's Saloons, Gentlemen will in addition be served with choice cigars.

Parties will be supplied with every thing needful for refreshment tables and Ice.

Families supplied with Oysters, Ice Cream, Water Ices, Custard, &c., by the gallon upon reasonable terms.

ICE

in large or small quantities for sale, and delivered every morning to regular customers in Chestertown.

The long experience of the subscriber as a caterer, justifies him in asking a libreal patronage from the public.

WILLIAM PERKINS, Proprietor.

SALT, BACON, and Salted Fish, wholesale at city prices, by J. B. SAPPINGTON

TOOTH BRUSHES, Hair Brushes, Nail Brushes, Paint Brushes, Shoe Brushes, and Dressing Combs, at STAMS' Drug Store.

Aug. 6. J. B. SAPPINGTON'S.

FOR GOOD GOODS and low prices, call at J. B. SAPPINGTON'S.

SYRUPS—30, 50 and 60c. a gallon. Sugars 8, 9, 10 and 11c. by

Aug. 6. J. B. SAPPINGTON.

SELF-RAISING BUCKWHEAT AND Griddle Cake Flour!

Always Ready, Always Reliable and *Perfectly Healthy.*

Requires neither Salt, Yeast nor Baking Powder, for sale by COLIN F. STAM, Chestertown.

Nov. 5, 1878.

NEW and large lot of those excellent 2 for 5 cts. CIGARS; would be cheap at 5 cts. can only be bought at KENNARD'S.

OZONE.

The advance of general intelligence and the progress of science has rendered it necessary that the medical profession re-investigate the

NATURE AND CAUSE OF DISEASE

and if possible discover new and more potent remedies for its cure. It is a well known fact that the science and art of medicine has in no wise kept peace with the advancement of the collateral sciences. Although great improvements have been effected within the last fifty years, as evinced by the fact that blood-letting, blistering, heroic doses or mercury and other

UNSUCCESSFUL METHODS OF TREATMENT

have been superseded by a far more rational system of practice, yet the knowledge of diseases and of remedies for their cure is almost exclusively monopolized by members of the medical profession, while the universal requirements for medical knowledge and remedies to cure disease render it

IMPORTANT THAT EVERY FAMILY

SHOULD BE IN POSSESSION OF SUCH FACTS AS WILL ENABLE THEM TO PERPETUATE LIFE AND ALLEVIATE SUFFERING.

PROF. W. PAINE, . M. M, D.,

The author of numerous works or medicine, and a teacher of more than thirty years in all departments of medicine and surgery, observing that nearly all the information of a medical character designed for the people, emanated from charlatans or medical mountebanks, has determined upon introducing the results of his

SCIENTIFIC INVESTIGATIONS AND DISCOVERIES

DIRECTLY TO THE AFFLICTED, so that all may receive the benefits of a long and arduous life of medical and surgical research and triumphant discoveries. The result of his researches is that Ozone is the

ANTISEPTIC ELEMENT

that prevents decay, fermentation and disease of all organic structures; that the atmosphere is pure and healthy only when

CHARGED WITH OZONE;

that its absence generates disease; that salt preserves meat when ozonized, and when the Ozone is removed the meat decays; that when the body is properly charged with Ozone,

DISEASE CANNOT EXIST,

and that its absence gives rise to almost every conceivable malady, such as CATRRH, CONSUMPTION, DYSPEPSIA, KIDNEY DISEASE, SKIN AFFECTIONS, NERVOUS DEBILITY, NEURALGIA, ALL FORMS OF FEVERS, RHEUMATISM, DIPHTHERIE, CANCER, and the growth of PARASITES.

The parasites, or microscopic germs, that creates disease, exist in the air, water and food, as well as in all portions of the body, but they are prevented from affecting the healthy tissues as long as the

BODY IS PROPERLY OZONIZED.

The Doctor has discovered a method of producing Ozone both a POWDER AND LIQUID FORM.

LIQUID OZONE,

OR CATARRH VAPOR, when inhaled or take into the stomach, antagonizes THE FORM OF DISEASE, PURIFIES THE BLOOD, and almost immediately RESTORES THE PATIENT TO HEALTH. It is perfectly innocent, and may be used with the greatest freedom by every one. It is put up, WITH FULL DIRECTIONS, in four ounce bottles at 50 cents, and eight ounce bottles, $1.

He also has prepared a pill, the

LIVER RENOVATOR,

that is highly ozonized, so that, while it purges the Liver, it disinfects the body and kills the germs of disease. 25 cents a box. The

BLOOD, STOMACH AND LIVER TONIC

gives tones to the stomach and body and enriches the blood. $1 per bottle. The

ANTISEPTIC OR ANTIPERIODIC POWDERS OR PILLS

will cure every form of

CHILLS AND FEVERS,

leaving the system free from disease. $1 per box.

The Professor has also fitted up a large and elegant HOTEL, THE PEABODY, NINTH ST., BELOW WALNUT, PHILADELPHIA, in which he has private consulting offices, and where he receives patients FROM ALL PARTS OF THE WORLD, and cures thousands of cases of Catarrh, Consumption, Cancer, etc., that NO OTHER TREATMENT CAN REACH. No one visiting Philadelphia should fail to stop at the

PEABODY HOTEL.

Invalids wishing to place themselves under the Doctor's professional carel may obtain SPECIAL RATES.

Medicines sent when ordered, and for sale by druggists and agents.

The Doctor has also for sale the following works, written and published by himself.

AGENTS WANTED.

J. S. DOVEY Manager, 64 N. Charles Street, Baltimore, Md.

A Talk With Fruit Growers.

I HAVE now growing, on my farm, a fine seedling Peach Nursery, (from the seed of the Smock,) of over 200,000 trees.

Being from Smock seed, and growing on land that never grew trees before, they must prove especially hardy and prolific.

I shall bud 50,000 (commencing June 15th) for this Fall's planting; such trees will run from 3 to 4 feet in height.

I shall bud the balance in August, for planting the following fall. As most all planters have preference for special varieties, I propose to take orders, before the budding is done, customers furnishing their own buds if they prefer; so that all may be accommodated. Do not fail to give this matter proper consideration, and send in your orders early. By so doing you can secure just the varieties you want; but if delayed till you are ready to plant, nurserymen may not have the kinds you prefer. I will give instructions how to forward buds, upon inquiry.

I HAVE A GENERAL ASSORTMENT OF ALL KINDS OF NURSERY STOCK.

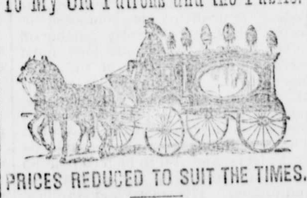
Twenty years' experience as an extensive Fruit Grower and Nurseryman, certainly entitles me to a reasonable share of patronage on this peninsula.

N. BARNARD,

STILL POND, Kent Co., Md.

June 11, 1878.

To My Old Patrons and the Public.



PRICES REDUCED TO SUIT THE TIMES.

I RESPECTFULLY desire to say, by this method, to the old friends of my father, who for many long years, was so well and favorably known to this entire community as the *leading* Undertaker, that I am still devoting myself untiringly to his prosecution, in all its departments. And in this connection I desire, particularly and emphatically to say that I can furnish Caskets and Burial Cases, of all kinds, upon the shortest possible notice, at prices much below ANY ONE ELSE engaged in the business in this vicinity. I can do this because I am at less expense than others, and I guarantee full satisfaction in every case, both as regards quality and price.

When away on other business, orders may be left with my mother, who resides next door to the shop, and they will receive equal attention as if left with me in person, as she thoroughly understands the business in every particular. I will allow nothing else to interfere with the prompt and efficient execution of all orders with which I am favored.

JOHN N. DODD, UNDERTAKER

Sept. 24, 1878—tf.

LIME! LIME! LIME! LIME!

Shells! Shells! Shells! Shells

30,000 bushels of each for sale.

THE undersigned is prepared to furnish LIME and SHELLS to the citizens of Kent, Queen Anne's and Cecil counties; and will land the same on the Chester and Sassafras rivers, or any of their creeks where there is a depth of five feet of water, of the best quality and at the lowest prices.

WILLIAM PERKINS, *Rising Sun Saloon.*

Chestertown, Md., Oct. 22, 1875—tf.

7,000 BUSHELS OF THE Best Oyster Shell Lime,

Of the Steamboat Wharf at Chestertown,

PUT up in 500 and 1000 bushels piles: for sale, by the quantity, or in small lots for building purposes. Now is the time farmers to buy, as they have more time to haul it than in the spring. *WILLIAM PERKINS.*

Dec. 3, 1875—tf.
