Chestertown Transcript.
THURSDAY, JUNE 3, 1880.

The Army Worm, as will be seen by our Lynch's correspondent has made its appearance in this county. It has also appeared in Queen Anne's.

The Cherry Crop.—The growing of cherries is by no means a small industry in Kent county. On last Monday several tons of this fruit were shipped from Betterton, one grower, Mr. J. W. Hurtt, shipping 1500 lbs.

Subscription Bills.—We finish sending out our back subscription bills this week. Quite a number of our friends have called in since Thursday and settled back scores, and we again call the attention of those who have forgotten, to the matter.

Gooseberry Day.—The farmers of Kent Co. engaged in raising small fruits, fixed upon yesterday the 2nd day of June as gooseberry day. On that day the steamer Trumpeter carried hundreds of bushels from Kent county to Baltimore. One grower alone, Mr. T. J. Shallcross, shipped 140 bushels.

The Rifle Match.—Next Wednesday is the day upon which the Governor's Guards are to make their appearance in Chestertown on a visit to the Kent Guards. A handsome prize is now at Mr. C. F. Stam's drug store to be contested for between the two companies at target practice.

The Conference Academy at Dover, Del., begins its examinations and exercises on Monday the 14th of June. The annual sermon will be preached on Sunday the 13th, and the other exercises will extend over to Thursday, June 17th, upon which day the commencement exercises will be held.

The Ladies of St. James' M. P. Church, at the close of their late festival, presented a very fine cake to Rev. J. W. Neepier of Chestertown; and, on Saturday night, before the close of the festival, the ladies of the Chestertown Meth. P. Church, reciprocated by donating equally as handsome a cake to Rev. F. T. Little, pastor of St. James' M. P. Church, Worton.

Peach Season.—The peach season will soon be upon us, and as the prospect in Kent is for a big crop, Capt. Jos. W. Thompson, who gave ample satisfaction to shippers last season, is making preparations to accommodate peach growers again this year. He is building a new wharf at Buckingham Landing opposite Round Top, and is repairing the abutments of the wharf at Quaker Neck. In due time he intends putting on a commodious steamer.

Base Ball.—A correspondent elsewere gives the scores made by each player on Saturday last in the game between the Galena and the College baseball nines. Though the Galena boys were not victorious, yet they played a good game, and in the early part of the contest it was doubtful which side would win. The College boys have this season had an uninterrupted succession of victories. They play the Sudlersville nine this evening.

Improvement of Springs.—Mr. W. Register has a contract with the Town Commissioners to place large hollow cement cylinders in our town springs, in place of the present wooden insides. This will be much of an improvement, keeping the water free from impurities resulting from rotting wood. Bailiff Cannon did a good work last week by cleaning out about two feet of sand and mud from the bottom of the spring on the college road and in otherwise improving it.

An Excursion to Washington and Annapolis.—It will be seen by advertisement elsewhere in our columns, that the M. E. Sunday School of Chestertown, will have an excursion to Washington on Friday the 11th day of June. There will be four hours in which to see the city. This excursion offers a splendid opportunity to the people of Kent and Queen Anne's to see the Capital of this great nation at a very moderate cost. Those wishing to go no further than Annapolis can do so at a cost of only one dollar. Read the advertisement and see what an enjoyable trip this promises to be.

Baltimore Grain Markets.—From the *Sun* of Tuesday, we quote as follows:

The demand from millers for Southern wheat is light, and the market is dull and easy, with comparatively few sales at $1.25 for rejected; $1.26 for good Fultz, and $1.30 for long-berry. No. 1 Maryland red sold at $1.31. For Western the market was active and strong, especially for spot and this month's delivery.

Southern white corn was firm, with sales in cargo lots at 57 cents, and smaller quantities at 56½ cents, but yellow was dull and offered at 55 cents, without buyers.

The Centennial Sunday School Anniversary was celebrated at the M. P. Church, in Chestertown, last Sunday afternoon. The chancel was very tastefully decorated with flowers, and the exercises were of an entertaining and pleasing character, interspersed with good singing. W. Harper McFeely delivered an interesting address, entitled "Robert Raikes." A reading, "Everlasting Memorial," followed, by William Conyer. Miss Mollie Parks read a poem, "Balm of Gilead," and was followed by Annie Russell, in a recitation. "Flower Voices," in which the children sang appropriate verses and presented offerings of flowers, was very nicely rendered, and participated in by Clara Usilton, Stella Lambert, Mary Chapman, Maggie Sappington, Mary Bowers, Charlie Benjamin, John Aldridge James Russell, Thomas Bowers and Fred Usilton. Miss Ava Downes then gave a pretty poetical recitation. The singing was excellent, Mr. W. A. Briscoe leading and Miss Minnie Usilton presiding at the organ.

The Festivals.—All the festivals that have been held so far, and from which we have had any information, have done well. The "May Pole Inn" conducted by the ladies of St. Andrew's P. E. Chapel, Galena, cleared $128. The ladies of St. James M. P. Church in their festival held at Worton, cleared about $125. The ladies of St. Paul's P. E. Church, held their festival and oyster supper on the evening of May the 20th. We have no doubt they did well, though we have not heard from them. The ladies of the M. P. Church, Chestertown, who held their festival on last Friday and Saturday nights, have not up to this time added their funds together, but it will be safe to say that they cleared over $100. The festival held by the ladies of the Catholic Church, Chestertown, on Tuesday evening, and last evening, closed too late for us to chronicle their success. The festival yet to come off is to be conducted by the ladies of the Kennedyville M. P. Church, on Thursday, Friday and Saturday evenings of June the 10th, 11th, and 12th, on the church green at Kennedyville.

A Trip to Leadville and Back.—On the 12th of May two of our Chestertown citizens, Mr. B. F. Gardner and Mr. Henry S. Deford started for Leadville; On Saturday last the 29th of May they again reached Chestertown, having made the trip to and from the "wicked city" in seventeen days. Mr. Gardner was so much pleased with Leadville and the openings offered in his business—bricklaying—that he leaves again this week to make a permanent stay there. Mr. Deford caught the mountain fever, and came home sick and considerably disgusted, and it is just possible that he will never more take stock in Leadville. The trip altogether however was a very pleasant one, and the travellers saw many sights which they would not have seen in a thousand years at home. Mr. Gardner estimates the population of Leadville at from 20,000 to 25,000. He says that he did not see anything to make him think the Leadville people more blood-thirsty or desperately wicked than the inhabitants of Eastern cities. The streets are continually crowded with people, and things there seem to go with a rush. Mining of course is the great industry that runs the whole town. Very little paper money is to be seen in circulation, but gold and silver everywhere. A lady or child was rare to be seen.

One of the novel experiences of the travellers was the ride over the Rocky Mountain divide between the Mississippi Valley and the Pacific slope, at an elevation of 10,000 feet above the sea level. The trip was twenty-one miles in length, and was made in sleighs, the snow at that elevation being very deep. They were very much pleased with Denver city. The public buildings of Denver they say are equal to those of the large Eastern cities. Mr. Gardner designed leaving again yesterday or to-day for Leadville.

The Centenary Sabbath School Celebration at the M. E. Church.—Last Sunday was celebrated perhaps throughout the Christianized world as the centennial of Robt. Raikes the founder of Sunday Schools. In the morning at the M. E. Church, the Rev. Mr. Newnam took for the subject of his discourse, Robert Raikes and his work in founding the Sunday School. In the evening it was understood that the Sunday School children were to celebrate the occasion by appropriate ceremonies, and the church was early filled to its utmost capacity. The front pews were reserved for the children, and, when the time for the services arrived, the school marched in, in line, each scholar bearing a boquet. The girls were dressed in white. When the school was seated Rev. Mr. Newnam opened with an address in which he drew a comparison between children and flowers; after the address the children were again formed in line and marched up and down the aisles, bearing their flowers and singing. The march was so arranged that as one line would be coming up one aisle, another line would be going down an opposite aisle. The girls marching in their white dresses presented a very pretty spectacle, and the boys though not quite so graceful in their movements, yet marched with soldierlike exactness. When the song was finished and the march ended, each scholar deposited his or her boquet with one of three little girls who received them on silver salvers and passed them on to three or four young ladies who used them to decorate an upright wire-work prepared for their reception. When all the children had deposited their boquets and the young ladies had finished their labors, there was presented to the view of the audience a beautiful floral monument about three feet in height. This was dedicated to the memory of Robert Raikes. After the completion of the monument, a number of the girls repeated selections from Byron, Bryant, Longfellow, Shelley, and other poets who sang the beauty of flowers. The exercises closed, every body being pleased, and none more so than the boys and girls of the M. E. Church Sunday School.

The Census.—On next Monday, the first Monday in June, the taking of the census commences. The work is to be completed by the 1st of July. This gives less than a month in which to do it, but the territory of each census taker is small, and the time is ample. The enumerators for this county are as follows:—First district, James E. Hartley, Thos. Numbers. Second district, Henry Kruesen. Third district, Geo. W. Crossley. Fourth district, Henry M. Thomas, Bartus Trew. Fifth dist., A. M. Kendall, Jas. A. Casey.

Our citizens may look out for some searching questions from the census men as this census is to be a very thorough one.

Among the facts to be ascertained in the enumeration of the population are the following: Name of each person in the family; color, sex and age of each person; relationship of each person to the head of the family; what persons are single, married, widowed or divorced, and who, if any, were married during the census year; occupation of both males and females; number of months any person has been unemployed during the census year; sickness or disability of any person at the time of visit; whether there are any blind, deaf, dumb, idiotic, insane, maimed, crippled or bed-ridden members of the family; how many attend school; how many, if any, who cannot read and write; the place of birth of his or her father and mother. All persons will be included who are living June 1 or who may die between that time and the completion of the census; but children born after June 1 will be omitted. The questions as to agriculture, manufactures, etc., cover a much wider range of subjects and will entail an immense amount of painstaking labor on the part of the enumerators. In Great Britain the census is taken in a single day, thus presenting as it were, a statistical photograph. Various systems are in force in different countries, but our own taken every ten years is probably the most accurate and satisfactory of all. According to the last census the population of the United States was 38,558,371. It is believed that the new census will show an approximation to 50,000,000 of people within the borders of our territory.

BASE BALL—A very exciting game of base ball was played at Washington College on Saturday, May 29th, between the Quicksteps of Galena and the Blue Stockings; resulting as usual in favor of the latter. The full score was as follows:

The pitcher's, catcher's, and 1st baseman's were played excellently on the Blue Stocking's and likewise the pitcher's and second baseman on the Quicksteps. The best ball batted was by Mr. Urie, and the best fly caught by Mr. Todd.

A match game of base ball will be played between the Actives of Sudlersville and the Blue Stockings, on Thursday next on the grounds of the latter. This promises to be the most exciting game yet played. RICHTER.

"Sterling Phosphate,"
$23.00 CASH or $25.00 TIME.
—:O:—
HAVING been used with such great success last Spring on Corn and Vegetables, we have enlarged our Factory, added new and improved machinery thereto and again offer it to the farmers with every confidence in its great worth. We also announce the fact that our capacity will enable us to fill promptly and without a failure, all orders for our goods.
The following are a few of the many testimonials as to the benefits derived from the use of the "STERLING PHOSPHATE" last Spring:

Chestertown, Md., February 21st, 1880.
Dear Sirs: Your Phosphate that I used on my corn last Spring, gave me great satisfaction. I also used your wheat Phosphate last Fall, it is now looking as well as other phosphates on the same land at a higher figure. I expect to use your goods next Spring.
Yours truly, COMEGYS BROWN.

Chestertown, February, 1880.
KENNARD & Co.: In reply to your question regarding the action of your Fertilizer, I will just state that I have only tried it on sugar beets. I applied it to my beets last Spring, putting it in the drill before I planted the seed, and notwithstanding the unfavorable circumstances to which the beets were subjected, the yield was far ahead of my most sanguine expectations.
Yours, &c., I. C. TAYLOR.

Chestertown, Md., March 5th, 1880.
MESSRS. KENNARD & Co—*Gentlemen:* I used your Phosphate last Spring on my corn; applied it at the rate of one handful to three hills, and where I put it the yield was about twenty-five bushels to the acre, and where I did not put any the yield was about ten bushels to the acre. On a portion of the same land I applied barn-yard manure, and the result was about twelve bushels to the acre. Where I used your stuff, the ear was large, well filled and I could not find a worm in a hundred ears, the grains were large and close together. Where I did not use the Phosphate a great many ears were wormy and poorly filled. I can cheerfully recommend it, and will use more this Spring. Truly Yours, GEORGE W. LONG.

We also keep on hand at all times a full line of
Pure Dissolved and Raw Bone and other Chemicals
for manipulating, and respectfully invite the farmers to procure our prices before purchasing elsewhere.

MESSRS. KENNARD & Co—*Gentlemen:* In answer to your question of March 6th about the plows tried at Mr. Wm. Morris's of which I was plowman, I will simply state to you what I said to the Kent County Agricultural Club this afternoon, that of all the plows I handled, viz: the Advance, Roland, Oliver Chilled, Ohio Chilled and Gibb's Imperial, that the Ohio Chilled and Gibb's Imperial as sold by you were the best that I have ever handled. I state this in justice to your plows, not being pleased with them at first, am glad to say I was agreeably disappointed.
