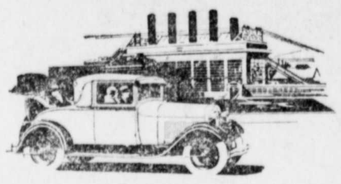
The utilities of a city are combined in your motor car



YOUR automobile is something like a miniature city. There is an electric light and power system, a water system, a fuel system.

In the new Ford, you will find each of these systems of the latest design and best materials. Every part has been made to serve you faithfully and well at a minimum of trouble and expense.

Take, for example, the generator—one of the most important parts of the electrical system which supplies the current for lighting and for engine ignition.

In the new Ford, the generator is of the power-house type and is distinctive in many features. It has been specially designed to prevent most forms of trouble. Oiling is necessary only once a year. About the only thing you need do is to have the charging rate changed as the seasons change.

Closely allied to the electrical system is the ignition system. It, too, is of new mechanical design in the new Ford. There is but one high tension cable and that connects the coil with the distributor. Even cables from the distributor to the spark plugs have been eliminated. Special care has also been taken to make the distributor water-proof, thus preventing short circuits from rain, etc.

The entire electrical and ignition systems of the new Ford are so simple in design and so carefully made that they will give you surprisingly little trouble. Yet that doesn't mean they should be neglected. Certain little attentions are needed from time to time.

The storage battery should be given water and the connections kept clean. The generator charging rate should be changed as indicated. Spark plugs should be cleaned at regular intervals. Distributor points should also be kept clean and the distributor cam given a light film of vaseline every 2000 miles.

These are just little things, but they mean a great deal to your car. You can have them looked after at very small cost by the Ford dealer when you take the car in for oiling and greasing.

A thorough checking-up at regular intervals will lengthen the life of your car and give you many thousands of miles of carefree, economical motoring.

FORD MOTOR COMPANY

A Democracy of Ownership

"The aim of the management — and it is the only aim that will protect in the long run the safety of the investments of the hundreds of thousands of stockholders — is to continue to furnish the best possible telephone service at the least cost to the public."

WALTER S. GIFFORD,
President of the American Telephone and Telegraph Company (Bell System)

Nearly three quarters of a million people, more than half of whom are women, are owners of the securities of the Bell System. This is the widest distribution of corporate ownership in the world.

This ownership is not confined to large investors; in fact, no one person owns as much as one per cent. There are thousands in every walk of life who are using this means to invest their savings. It represents a cross-section of the thrift of the American people.

This widespread ownership on the one hand and the fact that we have accepted the responsibility for a nation-wide service on the other, impose a twofold obligation. We must protect the savings of these hundreds of thousands of investors and we must furnish the best possible service at the lowest possible cost to the public.

We are fulfilling these objectives, and the wide distribution of the securities of the System shows the faith of the people in the stability and integrity of the business. This is a true democracy of ownership—an ownership by the people of a utility that serves the people. It is public ownership in its best and most practical form.

C. H. S. WINS SHORE FIELD BALL TITLE

Defeat Stevensville Girls By 10 To 2 Score

Miss Nickerson Stars

The title of Eastern Shore Champions was tacked on to the field ball team of the Chestertown high school last Friday when the lassies from the local school defeated the girls of Stevensville High 10 to 2. The game was played on the athletic field of the Centreville high school.

Playing in bitter cold weather and with a strong wind blowing throughout the contest the Chestertown girls outclassed Stevensville in every department of the game. The score, 10 to 2, tells the story.

Chestertown was the first to score making two goals in the first period and at the same time holding Stevensville scoreless. In the second period the lone Stevensville counter was tossed and at half time Chestertown was in the lead 4 to 2.

Scoring once in the third period and twice again in the fourth the Chestertown girls ran their total to 10 as the game ended.

Stevensville was the third out-of-county team to fall before the deadly shooting of the Chestertown girls. Hurlock was defeated in the first of the inter-county contest, 6 to 2, and a few days later the lassies from Chestertown won over St. Michaels, 6 to 3.

Chestertown won the Kent county title by defeating Rock Hall and Millington.

By virtue of its win over Stevensville the Chestertown team will meet the title holders from the Western Shore on the Washington College athletic field for the State title on December 15.

The Chestertown team is captained by Catherine Nickerson who after being unable to play for several days because of a broken finger returned to the lineup and played a stellar role in her team's victory. The team is coached by Miss Bryan who has turned out a fast-passing, sure-shooting combination.

The games are staged under the supervision of the Playground Athletic League.

The lineup:

Chestertown		Stevensville
Humphreys	LW	Midget
Brice	LI	Palmer
Nickerson	C	Fairbanks
Walbert	RI	Grollman
Walbert	RW	Hopkins
Kreeger	LH	Palmer
Leaverton	RH	White

Old Kent Chapter D. A. R. Holds Regular Meeting

Mrs. H. H. Klinefelter Entertains Group

The Old Kent Chapter. D. A. R. held its regular meeting Dec. 8 at the home of Mrs. H. H. Klinefeler, with the Regent, Miss Frances E. Stuart, presiding.

The Regent gave a report of the State Board D. A. R. meeting at Hotel Belvedere, Dec. 4th.

The Chapter indorsed the resolution "protesting against any project tending to destroy or desecrate the present attractions to be found at the Great Falls of the Potomac, as proposed in Senate Bill No. 1749, also that the region of the Great Falls and the property immediately adjoining on both sides become the property of the Government as provided in House Bill No. 5760."

The corresponding secretary was instructed to write a protest from Old Kent Chapter to our Maryland representatives.

The Chapter also endorsed the Forrestry Department budget and the corresponding secretary was instructed to write to the Governor and representatives.

Miss Katie H. Trew attended the Dedication of the Flag House in Baltimore, Md., and gave a very interesting account of it.

Dr. Esther M. Dole, presented the Museum project of Washington College History Class. She hopes to secure many real Colonial and Revolutionary relics for the Museum.

The State Regent, Mrs. Robt. A. Welsh requested all D. A. R.'s to join with her, in spirit, in singing "Silent Night" on Christmas Eve at 5:45 p. m.

Refreshments were served by the hostess and the meeting informally adjourned.

KENNEDYVILLE

After the Candles Have Burned Out...

The many little gifts of sentiment that bespeak friendships and happy associations are vital to the spirit of Christmas.

But after the candles have burned out, after ordinary gifts have been laid aside, then the Maytag will more and more reveal itself as the *outstanding* gift—practical, helpful, a joy for years to come.

Plan together for this practical gift—the Maytag. Let it be the crowning, lasting remembrance of the yuletide.
