Chestertown Transcript.
THURSDAY, DEC. 8, 1881.

A Mild Winter seems in prospect. No cold weather yet.

The Locust Grove M. E. Church is to have its corner-stone laid to-day.

The M. P. Church festival begins in the armory next Tuesday evening, and holds several evenings.

J. J. Bradley of Locust Grove, expects to sell his household goods and wheelwright tools on the 21st of December.

Rust in wheat, is the alarm cry that comes from some parts of the Peninsula. Have heard no talk of it among Kent farmers yet.

The Board of County Commissioners organized Tuesday by electing Mr. T. Romie Strong president. Mr. T. Waters Russell was re-elected Clerk to the Board.

Personal.—Mr. T. W. Eliason, Jr., has for some time been confined to his bed by illness.

Dr. J. K. Jacobs still lies quite ill at Kennedyville.

Our Chestertown sportsmen have made several trips to the ducking grounds this season, with varying luck. Forty-five ducks were bagged in a trip last week to Eastern Neck Island, by four shooters,—two from Chestertown and two from the country.

Christmas Celebration.—The Methodist Protestant Sunday school, of this town, will have an appropriate Christmas celebration on the night of Christmas day, in the church. The programme is an excellent one, and not too lengthy for such an occasion.

New Advertisements.—Mr. T. N. Fraiser advertises household goods and other property to be sold at the town hall in Chestertown, next Saturday. Messrs. Simpers, Lucas, L. K. Stam and Sparks have in new advertisements. There are some other small new advertisements.

The tin can craze has taken violent possession of the Chestertown small boy. All the old fruit cans that have hitherto figured as ornaments of our town gutters, have been fished out, and by means of strings attached, the small boy elevates himself upon two cans, and feels proud that he looks six inches more like a man than he does when standing on a level.

Baltimore Grain Market—*Tuesday's Quotations.*—Southern Wheat is firm and higher for both milling and shipping grades. The range of figures is 1 35a$1 42 for Fultz and 1 43a$1 48 for long-berry. The arrivals of Southern Corn are more liberal and the market firmer: sales of white at 67 and 67½ cents, and of yellow at 67½ and 68 cents for round lots and 68½ and 69 cts. for a few small parcels.

Carp Breeding.—Mr. H. M. Brown, last week, turned loose in his mill pond, 200 young German carp. Mr. Brown had the pond thoroughly beaten and hauled before turning the carp loose, to find if there were fish that might be likely to prey upon the young carp. He found some yellow perch and some white perch. He thinks however, that the young carp will be safe from molestation.

A Seeming Foreboding.—Rev J. T. Vanburkalow, in the funeral sermon over the remains of Isaac M. Sheppard, the young man who was so unfortunately shot dead by accident on last Thanksgiving day, told of a singular dream that the deceased had had shortly before his death. He dreamed that he was painting some letters upon the gate at Crumpton cemetery, when his father—who died one year since—appeared and said: "Isaac, the end is near; warn your brothers."

Sudden Death.—The community was startled last Saturday morning, on learning of the sudden death of Abraham Hurlock, a prominent farmer and business man of Kent county. Mr. Hurlock went to bed, apparently well, on Friday night. His wife was in Baltimore, and was expected home Saturday afternoon. On Friday evening Mr. Hurlock sent for Mr. Joseph R. Usilton, his son-in-law, to spend the night at his house. Mr. Usilton got up early Saturday morning, and left for his own home. He heard Mr. Hurlock moving about before he left, but did not see him. At about 10 o'clock on Saturday, Mr. James W. Bird, another son-in-law of Mr. Hurlock, came to Mr. Hurlock's house to see him on business. He was told that Mr. Hurlock was not yet out of bed. He went to his room and rapped at his door, repeatedly and loudly. Receiving no response, and finding the door locked, he put a ladder up to the window on the outside and looked in. He saw Mr. Hurlock lying on the bed, with pants and vest on, but with no coat on, and with his hands crossed over his breast. Going back to the door, he forced the lock, and found Mr. Hurlock quite dead. A jury of inquest was held, but no definite conclusion as to the cause of death was arrived at. There was no post mortem examination.

Mr. Hurlock was a man of great force of character, and possessed many marked peculiarities. He was warm in his friendships, and equally decided in his feelings when he was not a friend.

For several weeks preceding his death, he manifested a desire to straighten up his business affairs, and even paid money with interest in full that was not due for some time yet. He left a schedule of those he wished to serve as his pall-bearers. This list, it is said, had been made out for some time. The following are the names that were on the list, and the names of those who served as his bearers: T. W. Eliason, J. K. Aldridge, W. W. Stephens, C. H. Baker, Wm. Morris, J. W. Chapman.

Mr. Hurlock was twice married. He leaves a widow and three children, one by his last and two by his first wife. All of his children are grown and married.

He was buried at Chester Cemetery on last Monday morning. He was about fifty-seven years of age at the time of his death. He leaves a valuable estate.

Orphans' Court, Tuesday, December 6, 1881.—Present, Judges Nicholson, Shallcross and Willson.

On application, Letters of Administration on the personal estate of Alexander Bostic, dec'd., were granted and committed unto Annie E. Bostic, who filed her bond in the sum of $1500, which was approved and ordered to be recorded. Thomas S. Wilson and John P. Vandyke were appointed to appraise the personal estate of said deceased.

F. H. Harper, administrator of Nicholas H. Crossley, returned an additional account of sales of the personal property of said deceased, which was received and ordered to be recorded.

The bond of R. W. Calder, sheriff elect of Kent county, was approved and ordered to be filed in the office of the clerk of the county for record.

WASHINGTON COLLEGE,
DECEMBER 3d, 1881.

Eds. Transcript:—The members of M. V. L. Society of Washington College, have arranged for an address before the said Society, in College Hall, Friday evening, 7½ o'clock, Dec. 16. Prof. W. J. Rivers, Principal of said College, will be speaker of the evening. Subject—"Should we abandon our faith because science appears to be in conflict with it?" The public are cordially invited to attend.

A very interesting spectacle was witnessed, Friday morning last, about 11½ o'clock, by about 40 or 45 persons. As the pump had been taken out of the college well, which is 66 feet deep, for repairs, Miss May, daughter of Prof. Zimmerman, requested that she might be let down into it; and the gentleman doing the work unhesitatingly granted it. This adventure required a stout heart, and we venture to say that there was not a student at the college who would have dared the descent, before this lady tried the experiment. No, nor would "old Fred" have gone down. Well, we must give her praise for being an investigator, though she inherits this from her father, so we see that it was a desire to investigate that prompted her to wend her way toward China, but she positively refuses to acknowledge that she heard any chickens crowing.

Peninsula News.

The Middletown *Transcript* is now in sumptuous new quarters.

Joseph Johnson of the Dorchester *News*, is very ill.

Twelve acres of land in Milford are being surveyed and laid out in building lots.

A St. Michaels tonger caught a sea turtle weighing 200 lbs. and towed him ashore.

The building of the Queen Anne's telegraph line has been commenced.

Albert Constable Esq. has returned to Elkton and appears to have regained thorough good health.

Crabbing stations are being established on the Indian river, in Sussex, Del. $3000 worth of crabs were sold from one station last season.

The St. Michaels *Comet* says that diamond back terrapins are plentiful this year, and bringing in the Baltimore market $2 per dozen.

A Worcester county black boy, while attempting to beat his oxen, fell from the cart and the wheel passed over his neck, breaking it.

A queer hog disease is making pork scarce in Somerset county. The side of the head swells and the nose bleeds and the hog dies at sunrise the next day.

Pierre Lorillard is cruising the Chesapeake and tributaries in his steam yacht Radha, on a gunning excursion. He is accompanied by a select party of friends.

The barn and stable of Mr. McKernan, near Easton, Md., were entirely consumed by fire Friday. All the farming implements and 400 bushels of corn were destroyed.

Mr. W. C. Rolph, formely clerk aboard the George Law, has been appointed second assistant clerk to Dr. S. C. Dudley, the new clerk to the Circuit Court for Queen Anne's.

A youth of nineteen and a woman of sixty-five were married at Smyrna on Thanksgiving day. They had some difficulty in finding a preacher to tie the knot, but finally meeting with success they went home one.

Right within the limits of the town of Salisbury, there is a cranberry bog, from which were gathered this season 400 bushels of cranberries, which netted $1000. This is on the authority of the *Bachelor*.

Wm. H. Pierce, of Cecil county, who died last week, aged 76 years, was the progenitor of a family of eleven children, eighty-two grandchildren and fourteen great grandchildren—in all one hundred and seven persons.

On Monday morning of last week the wife of Charles Springer, of Elkton, Md., found, upon awakening, that her infant child, three weeks old, had died during the night. It was discovered that death was caused by suffocation the theory being that, some time during the night, the mother had overlaid the child, and thus smothered it.

The Delaware *Inquirer* says that plans for the proposed plaque factory at Georgetown, Del., embrace a main building three stories high 200 x 80 feet with two wings each 40 x 30 and an L at the rear of the main structure 50 x 30 feet. Four boilers and two engines—160 horse power—will be put in.

The Pocomoke *Record and Gazette* says that a paper calling itself the *Traveler*, claims to circulate extensively all over the eastern Maryland and Del. peninsula, whereas it has perhaps not two dozen readers in the whole territory. The *Gazette* warns advertisers against being humbugged by this sheet.

The Circuit Court for Talbot county, has decided that George H. Tarbutton, the Democratic commissioner was fairly elected at the late election, and that Edward Woodall, the Republican commissioner was wrongly counted in. The Republican board had elected Mr. Woodall president of the board, but he will now have to step down and out.

A murder has been committed on Kent Island of Queen Anne's county. About two weeks ago, John Wright, a Kent Island colored man suddenly disappeared. On last sunday, the body of Wright was found, thinly buried in a bunch of briers. Not far from where the body was buried was a pool of blood. The hole in which Wright had been burried, was only one and a half feet deep. An examination before a jury of inquest was made, and Wright's head was found to have been badly crushed. His lower jaw was broken in two places. Suspicion attaches to Pere Robinson, another colored man. Wright it is said had been unduly intimate with Robinson's wife, and ill-feeling between the two had long existed.

LIME PAINT.
It is good for Frame Houses, outside being Water Proof
The attention of Housekeepers, Farmers and others is called to the above Useful and Valuable Preparation for Whitewashing and Sanitary Purpoes. It costs less in comparison than Common Whitewash, or the unslacked lime, and its durability and beauty are two-fold greater. It never loses its strength. It can be kept for years. When applied, it forms a surface as smooth as calsomine, without glue or plaster. It can be used conveniently and economically in making Mortar, Finishing Insides, and for all purposes in which sand and lime are employed. We solicit a trial. We refer to the Knickerbocker Ice Co., and others. Sold at wholesale, by the barrel, and in smaller packages, at the Manufactory.

NEW YORK SUN FOR 1882.
THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining, as always, for all, bunand little, mean and gracious, contented and happy, Republican and Democratic depraved and virtuous, intelligent and obtuse. THE SUN'S light is for mankind and womankind of every sort; but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wicked.
THE SUN of 1868 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN. It effected a permanent change in the style of American newspapers. Every important journal already existing has been modified and bettered by the force of THE SUN'S example.
THE SUN of 1882 will be the same outspoken, truth-telling and interesting newspaper.
By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.
We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with THE SUN. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or in Bokhara.
In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of THE SUN'S political course.
THE WEEKLY SUN gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unequal merit, full market reports, and a liberal proportion of literary, scientific, and domestic intelligence complete THE WEEKLY SUN, and make it the best newspaper for the farmer's household that was ever printed.
Who does not know and read and like THE SUNDAY SUN, each number of which is a Golconda of interesting literature, with the best poets of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little?
If our idea of what a newspaper should be pleases you, send for THE SUN.
Our terms are as follows:
For the daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or $7.70 a year, postage paid.
The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.
The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.
