Housekeeping by Wire

Every morning the modern housekeeper turns to her telephone, and begins the day's business. She calls up the butcher, grocer, iceman, market, and orders the daily supplies. She makes an appointment with the dentist, consults her dressmaker, talks with her husband at the office, orders tickets for the afternoon concert; and altogether accomplishes more by telephone in half a day than she could in a week without it.

PROOF OF MR. TURNER'S REPUBLICANISM.

Two well-known gentlemen of this county were in Chestertown one day the latter part of last week, and they made the statement that they were in a certain store in Betterton sometime ago, when Mr. Howard Turner was present and they heard Mr. Turner make the statement that he voted the Republican national ticket for McKinley. These gentlemen asked to have their names withheld, but if Mr. Turner denies having made the statement, they are willing to publish a statement over their signatures that Mr. Turner so declared himself.

Another gentleman now living in Queen Annes, but who resided for years near Kennedyville, was in Chestertown the latter part of last week and he stated that during one of the primaries he was in the polling room in Kennedyville when Mr. Howard Turner came in to vote, and the Democratic judge of election, who some weeks ago signed a petition saying that he believed Mr. Howard Turner is a Democrat, challanged Mr. Turner's vote, stating that he was a Republican and had no business voting in a Democratic primaries. The gentleman said he was present and heard the conversation, and everybody believes that Mr. Turner is a Republican.

The most convincing proof in the world that Mr. Turner is a Republican is the fact that in the recent election in Betterton, when a Democrat opposed a Republican, Mr. Turner opposed the Democratic candidate, and even went so far as to induce a colored man to vote against the Democratic candidate—the only election in which a colored man ever voted for town commissioner.

And besides all this Mr. John D. Urie is extremely anxious to have Mr. Turner nominated, and Mr. Urie even went so far as to ask a gentleman in Chestertown to vote for Mr. Turner, before Mr. Turner had announced himself a candidate.

IN THE Legislature of 1910 the Organization passed what is known as the Gibbs Road Law, which they say reduced the expenditure of money on the roads from $40,000 to $21,000 per year. The Organization, of course, would not dare admit that they were the ones who spent $40,000 a year on the roads, nor will they dare say that their real motive in passing this law was an economic one. They passed this law only because they wanted to maintain control of the roads, and use them for political purposes, and it is a significant fact that every year since the passage of this law, the Organization has been dunning the Board of County Commissioners for MORE MONEY, and they have been spending every year since its passage from $7,000 to $10,000 more than the law allows. Mr. Urie appeared upon the scene in 1912; he became a School Commissioner through the grace of Mr. Wm. W. Beck, the assistant leader of the Organization faction, and Mr. Urie is recognized by Gov. Goldsborough as the leader of the Republican party in Kent county, and yet Mr. Urie is going the rounds asking first one and then another to vote for Turner and Shallcross, and he is not the only Republican in Chestertown who is doing this thing. Why does Urie want Turner nominated and elected? So as to help Beck keep the Road Engineer in office, and Urie can thereby get jobs on the roads for some of his friends. And so there it is again, URIEISM AND MORE MONEY on the roads as well as in the schools, and the tax-payers bear the burden.

THERE seems to be a general uprising of the people against Organization rule all over the State, and some pretty warm fights are on in a number of the Eastern Shore counties. This to us is a striking illustration of the fact that the people are tired of ring rule and that Woodrow Wilson Democrats who stand for progress and economy are determined to place their financial and political affairs in the hands of those who believe in the rule of the people. The people in Kent county are awake to their opportunity to keep the ring out of power here, and there is going to be a great victory for the people and the 94 cent tax rate in the primaries on September 8th.

GOOD BUSINESS JUDGMENT.

The 94-cent tax rate is the best evidence in the world that the Anti-Organization faction is the tax-payers' faction. No tax-payer can afford to belong to a faction that saddles a tax rate of $1.85 on the people, and that is what the Organization did. They spent $35,000 of the tax-payers' money on the roads in the last six months of their term, besides all the other indebtedness they piled up, just to make their action reflect upon the Antis, and when the Antis went in power in December, 1909, they found the county so burdened with debt, due to Organization extravagance, that they were compelled to levy a tax rate of $1.85 to pay Organization debts. In less than three years the Anti-Organization has paid $78,000 of the county's indebtedness, which the Organization piled up, and in spite of that enormous sum, the Antis have reduced the county's indebtedness to about $32,000 and have given the people a 94 cent tax rate. Just suppose the commissioners had done what the Organization advocated—pay a part of their debt each year instead of paying it all at once and get rid of it. Where would your taxes have been to-day with the new assessment which the Organization forced upon the tax-payers, and a tax rate of $1.25, such as it would possibly have been if the commissioners had adopted the Organization plan? A man's taxes would have been so high that he would have had no money left after paying his taxes, and hundreds of our small property holders would have been sold out at a treasurer's tax sale. The Anti-Organization "saddled" a tax rate of $1.85 upon the people to pay the Organization's debts all at once, and there is not a tax-payer in this county to-day, under the present high assessment who is not delighted that the County Commissioners displayed such good judgment. If they had listened to the Organization faction, they would have been paying taxes yet.

The Brodbeck-Such Concert Company

AT THE 1913 CHAUTAUQUA.

Mr. Henry Such has, with his violin, won the praise of half the crowned heads of Europe. His startling public career began at the age of eight. To-day, in every large city at home and abroad, he has been singled out as a musician who uses his brains as well as his poetic temperament to play with. Mr. Such is master of the fairy-like and delicate, and of the tremendously powerful in compositions, too. With Miss Viola Brodbeck, the great Philadelphia soprano, he gives one of the most compellingly artistic entertainments of the Chautauqua program.
