Washington College begins the scholastic year 1882--83 next Wednesday the 27th day of September.

The Premium List of the Kent fair reached us too late for insertion in this week's issue. It will appear next week.

Quite a Number went up on the road yesterday for the Middletown Fair. The bulk of the fair-goers will turn out today.

Chapman & Lambert have a new advertisement in this issue. They probably do a larger business in their line, than any other firm on the peninsula, south of Wilmington.

Quarterly Conference of the M. E. Church will be held in Kent as follows.—Millington, Sept. 24th and 25th, Galena, Sept. 24th and 25th, Chestertown, Sept., 29th Oct., 1st, Kent, Oct,, 8th, Pomona, Oct., 7th and 8th, Still Pond, 7th and 9th.

The Cecil County Fair which has heretofore been among the most attractive in the State, promises to measure fully up to its past reputation this fall. The exhibits in all departments will be full and interesting: The purses for the races are liberal. See advertisement elsewhere.

The Milford News Says: A peach shipper the other day showed us his returns. One hundred baskets of fine Mixons netted 97 cents. He seems to think that he should have had three cents more, or an average of one cent per basket. The railroads received for carrying these peaches $57, the carter $3, the commission merchant $6.78, and the grower 97 cents.

The Kent County Agricultural Association proposes for next year, to postpone the time of holding its fair till two weeks later in the season making it begin about Sept., the 27th instead of Sept., 13th. This is the old time of holding the fair, and is more convenient, especially when there is a peach crop to be handled. This is the time now appropriated by the Dover fair, but the Kent fair claims a prior right to the date.

Personal.—Mr. W. Vannort continues in an enfeebled condition, though some improvement is noted.

Dr. Meeteer is yet confined to his bed, though it is hoped his symptoms are for the better.

Land Sale.—R. Hynson Esq., as trustee, sold at private sale last Tuesday, the Shriver farm, on Worton Point, containing 305 acres, to Mr Wm. R. Gale, for $9760.

Smashed by a Steamboat.—On Friday night of last week the steamer Jersey Blue, on her down trip from Crumpton, in attempting to pass through the draw of Chester River Bridge, ran into the bridge on the Queen Anne's side of the draw and slewed it from off the piles into the river. A breach of some thirty or forty feet between the bridge and the draw was thus made which prevented, for a time, the passage of vehicles. Mr. H. M. Stuart set about repairing damages Saturday morning, and the bridge was soon again put in condition for travel. Not much damage was done the steamboat.

Death of John H. Evans.—On Wednesday evening of last week, after a lingering illness, John H. Evans of Queen Anne's county died. Mr. Evans was a man of remarkable energy. He started poor, and was a carpenter by trade. During his whole life, he scarcely knew what it was to rest from active employment. Even after he was paralyzed, which happened a considerable time back, he kept up a remarkable mental activity. He leaves an estate valued at from $175,000 to $200,000. This is divided equally between six children and one grand child by a deceased son.

Death of a Prominent Citizen.—On last Monday, Mr. Wesley Melvin, a prominent farmer of Kent county, living in Morgan's Creek Neck, died after a long and helpless illness. More than a year ago Mr. Melvin suffered a stroke of paralysis, by which he was rendered almost entirely helpless, and from which he never recovered. In the last few weeks, he has been observed by his family to be growing gradually weaker, and his death on last Monday, was therefore not a surprise. Mr. Melvin was in the 73d year of his age.

Jurors for October Term 1882.—His honor, Judge Wickes, on Monday last drew the following list of jurors to serve for the October term of court,—

George L. Maslin,	Samuel J. Wickes,

The Kent Fair closed a financially successful exhibition on Thursday of last week. Aside from the races, it was generally remarked that the exhibition did not come up to its own past record. The rush of the peach season prevented the attention being given the preparation for the fair, that would otherwise have been given. The races, however, were quite as interesting, if not more interesting than for previous years. The following is the record of the trotting on the last two days of the fair, which was not given in our last issue:

Registration of Voters.—The September sitting of registrars closed last Saturday. During the two previous sittings there had been a total enrollment throughout the county of 2,083. At the September sitting, the enrollment in the four districts, leaving out the second, is 625. We have not received, up to time of going to press, the enrollment of the last sitting of the 2d district, but it is probably about 125, bringing the total registration for the September sitting up to 750. This will make the total registration for the county, including the September enrollment, 3433. Last year, the total vote cast at the election summed up 3581. But in 1879 at the gubernatorial election, when a very full vote was brought out, there were cast 4207 votes.

At the September sitting, the registration as divided on the color line, sums up as follows,—first district, 166 white, 59 colored; Second district, estimated 80 white, 45 colored; Third district 90 white, 36 colored, Fourth district 96 white, 59 colored; Fifth district 73 white, 46 colored. This division will make the total enrollment, including all sittings up to date, 1963 white 1470 colored. This gives the white vote a majority over the colored of 493. The colored vote is nearly all in, and the last registration will be almost exclusively of white voters.

Orphans' Court.—TUESDAY, Sept. 19, 1882.—Present, Judges Nicholson Shallcross and Willson.

Wm. G. Trew, guardian to Henry Brown, returned his final guardian account, which was examined passed as stated and ordered to be recorded.

The release of Henry Brown to William G. Trew as guardian was received and ordered to be recorded.

W. S. Culp administrator, of Henry Culp filed his release from Edward S. and Michael S. Culp which were received and ordered to be recorded.

KENT COUNTY AFFAIRS.

A LETTER WRITTEN FROM ROCK HALL TO THE BALTIMORE SUN.

ROCK HALL, KENT CO., MD., Sept., 14.

Copious rains have fallen the past few weeks at proper intervals, and now the corn fields promise a fine crop where, a few weeks ago, everything indicated an almost entire failure. This fact, combined with an immense peach crop and the largest wheat harvest ever saved in Kent, is making our farmers feel good in mind, body and pocket, and lands have undoubtedly advanced. A farm sold a few weeks ago in this immediate neighborhood for $14,000, and every indication points towards higher prices, as we do not depend upon strangers for purchasers, as nearly all lands have been bought by residents of the county, our capitalists finding that land pays better than any other investment. The Rock Hall fruit canning and drying factory has been in full blast for some weeks, running to its full capacity on peaches and tomatoes, giving employment to about a hundred hands, old and young. The tomatoes seem to be uncommonly fine, ripe and solid, which indicates, like everything else that grows on the Eastern shore, the superiority of our lands for fruit-growers and truckers. Speaking with a large grain grower from Frederick county a few days ago, who had just left the corn exchange, he admitted that this shore could beat Frederick in the quality of the grain. It is well known that the Eastern Shore wheat is used almost exclusively by the Gambrills in making their world-wide known family flour, the peculiarity consisting in the fact that the wheat has more gluten and less bran than any known wheat.

This village is almost in sight of Baltimore and has the nearest post office to the city on the Eastern Shore, and it is 9 o'clock P. M. before the mail reaches here, although leaving Baltimore at 7 A. M. Everything connected with the Eastern Shore railroads seems identified with the interest of Philadelphia. What is needed badly is the completion of the Kent County Railroad to this point, eleven miles, and then Baltimore would have a near connection with all parts of the Eastern Shore and Delaware, Cape May and Ocean City. It is the opinion of many that it would prove one of the best paying roads in the country, as not only would it draw the trade of the most productive county in the State, Kent, but be the natural outlet and inlet to most of the trade of the shore, which would naturally tend towards Baltimore. For what family on the shore who has not relations and family connections in the city? The completion of the eleven miles, most of which is graded, and could be finished at a moderate cost, would connect at Clayton, say three hours from Baltimore, with every road on the shore. Every county has a railroad, hence every point on the shore would be within a few hours of the city, and from many points visitors could come, transact their business, and return the same day, as is now done by hundreds, via, Tolchester, many coming to this point from Queen Anne's and Kent. To come by rail demands a trip via Wilmington. Clayton, way down the peninsula, is not as far from Baltimore as Wilmington. It is to be hoped the merchants of Baltimore will look into this matter, as every one knows much of the best trade of the shore is being lost to Baltimore. Some of the money could be raised in this county.

Near a dozen steamers are now making daily round-trips to Baltimore loaded with the productions of the south side of Kent, and a number from the north side are making daily trips to both Baltimore and Philadelphia, and this will give some idea of the trade of the shore. A visit to the Baltimore Corn Exchange and along the wharves of the city will convince any one of the importance of the Eastern Shore trade. I expect it can be said with great truth that more produce, such as fruit and grain, is transported on Chester river than on any other stream in the world of its size and of that of the section which it drains.

The two artesian wells in the village are supplying abundant pure water, while many of the open wells close by are entirely unfit for drinking purposes. The artesian water is the only water in reach that the canning-house finds fit to make syrup, and are hauling all their water from it. It keeps cool and clear as crystal, and as the price of these wells do not exceed the cost of open wells with pumps, they bid fair to supersede the old open wells.

AN IMPORTANT MOMENT.—It is puzzling to decide between the rival clothiers, where a man should buy his clothing. If he seeks enlightenment by reading the advertisements, for he will find each to claim to sell cheaper than the others, &c. We say to you, buy from a house of known reputation for square dealing, where goods are sold by the manufacturers themselves upon precise statements as to kind and quality, and at a strictly uniform low price, and where you can go back for your money if after reaching home you should think you had purchased unwisely. Such a house is C. N. OHM & SON, 230 W. Pratt St., through to 55 Hanover St., Baltimore, Md.

TO WHEAT GROWERS.

The undersigned, *PIONEER* in the manufacture of FERTILIZERS in this city, and *ORIGINATOR* in 1858 of the formulas and processes of manufacture of

"Excelsior" and Ammoniated Phosphate

So well and favorably known by the agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these FERTILIZERS as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the *High Standard Quality* of each will be maintained as heretofore.

The above are the most concentrated *FERTILIZERS* ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of Bones in fine, dry powder, prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years' experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated materials and superintending in person their manufacture, as for the past *twenty-four years*,

UNIFORM QUALITY IS GUARANTEED.

☞ Farmers, to secure the ONLY GENUINE *EXCELSIOR* and *PHOSPHATE* prepared according to my original formulas established in 1858, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market.
