Chestertown Transcript

THURSDAY, OCT. 14, 1882.

Subscription $1.50 per year; 75 cents for six months, in advance.

Advertising Rates.

Transient advertising will be charged at the rate of *one dollar* per square for first three insertions, and twenty-five cents per square for each subsequent insertion. A space equal to eight lines of brevior, constitutes a square. Figure-work will be charged fifty cents per square additional for first three insertions.

Simple notices of marriages and deaths, inserted free. Obituary notices will be charged at the rate of five cents per line.

JOB WORK.

Handbills, large and small, flyers, dodgers, letterheads, billheads, envelopes, cards, tags, programmes, and other kinds of job work will be done neatly and reasonably.

Correspondence upon matters of local interest desired. Anonymous communications will not be inserted.

It is desirable that communications be in by Saturday night if possible, and in any case not later than Monday night or Tuesday morning.

The Jersey Blue has laid off for a short time to clean up.

The Kent Guards give a notice elsewhere to all old and new members.

Mr. L. E. Stam has put up, by contract, a handsome lambrequin back of the judges' stand in the Court House.

The court house has been freshly re-painted on the inside, and looks much better. Mr. John H. Greenwood supervised the work.

Sale of a Farm.—Mr. John A. Miller has sold his farm, near Lynch's Station, in this county, containing about 200 acres, to Mr. John Z. Clark, for $12,000.

The Philadelphia Bi-Centennial promises to be quite a show. See special excursion rates, advertised elsewhere, over the Kent County railroad.

Court assembles next Monday, the 16th inst. The case of Morris, charged with the murder of Mrs. Turner, is the only one that will probably occasion much interest.

A Mid-day Train.—As will be seen by time table published in this issue, we shall have, on and after next Monday, a train which will deliver mail at Chestertown at 1.45, P. M., and at other stations along the road correspondingly early.

Mr. D. B. Stewart, who has been with T. H. Kepner through the past peason, will continue his relations with the house. Mr. Stewart is a young man, but he is quite well known in this county for prompt business capacity, as is also the firm which he represents. Advertising card will be seen elsewhere.

The Water-works.—A public meeting was called on last Monday evening to ascertain what the citizens of the town proposed doing in way of encouraging the proposed water-works. The plan and conditions upon which Mr. Adelsberger proposed constructing the works was laid before the meeting. The greatest cost for supplying a private house, per annum, was put at ten dollars. For houses requiring only a small supply, the proposed charge is fifty cents per month. A large number of subscriptions were taken, and the prospect is encouraging. We shall probably have water running through our houses within the next six months.

A New Variety of Wheat.—Hon. A. P. Gorman sowed last year one bushel and three pecks of Sparks' swamp wheat on one acre of land in the corner of a field, sown with Fultz wheat. It yield 55 bushels, whilst the Fultz, with the same amount of fertilizers, yielded but 29 bushels. It is a bearded wheat, and originated in Ohio. The wheat sowed by Mr. Gorman came from the Agricultural Department and was out of a lot purchased in Tennessee from a gentleman who got his first sowing in Ohio three years ago, which proves that it does not degenerate.—*Howard County Times.*

This beats all the big yields we have heard of. We are informed that Marion deK. Smith has seeded this fall, one bushel of the same variety of wheat on the Beaston farm, near Locust Grove.

Sale of Business Properties in Chestertown.—Mr. M. A. Toulson, druggist, recently purchased of Mr. C. Rolph the old Canady house, in the block opposite the market house. The price paid was $2,325.00, and there is a ground rental of $25 per annum upon the property. Mr. Toulson has a perpetual insurance of $600 on the building.

Mrs. Ruth A. Maul has purchased of Mr. Levi Fiddis the lot of ground and store-house now occupied by Mr. J. R. Parker. The lot has a front of 16 feet 4 inches, and a depth of 135 feet. Price paid $2,000.

Mr. Thompson, the butcher, has purchased of J. A. Jones the store-room now occupied by Frank Chambers, with a ground front of 23 feet, and running back the depth of the alley adjoining, for which he pays $1,500.

Dr. Whaland's Death.—On last Monday night, after a long illness, Dr. T. H. Whaland died. Deceased was born in this county on the 24th of December, 1811. At the age of nineteen, he married Miss Eliza Camp, also of this county. He began the study of medicine and at first attended lectures at the Maryland University. He afterward entered the University of Pennsylvania, where he graduated in 1839. He immediately began the practice of medicine in Chestertown, and his successful treatment of some severe cases gave him an early established reputation. His practice became very extensive and remunerative. He kept up the active practice of his profession till he was disabled by bodily illness. Some six months ago, he suffered from a general breaking down of the system, and for the last four months he has been confined to his bed. He leaves eight children all grown. His funeral was held yesterday at his home near Chestertown, and his remains were interred in Chester cemetery.

Registration in Kent.—The following is the registration in Kent at the several sittings:

	White.	Colored	Total
JULY SITTING.			
First	205	218	423
Second	139	177	316
Third	106	130	236
Fourth	363	230	593
Fifth			230
Total	713	755	1,748
AUGUST SITTING.			
First	95	53	148
Second	115	52	167
Third	70	67	137
Fourth	120	92	212
Fifth	163	108	271
Total	563	372	935
SEPTEMBER SITTING.			
First	156	64	220
Second	56	29	85
Third	90	38	128
Fourth	105	59	164
Fifth	73	46	119
Total	480	236	716
OCTOBER SITTING.			
First	42	26	68
Second	67	29	96
Third	43	19	62
Fourth	56	30	86
Fifth	100	25	125
Total	308	129	437
Grand total white			2204
" " colored			1632

The total registration, including both colors, will be found to sum up 3836. Last year, when a State comptroller and county officers were elected, 3581 votes were brought out in this county. This was 355 less than the number enrolled at the new registration. In 1879, at the gubernatorial election, 4207 votes were cast. This is 371 more than were enrolled at the new registration.

The following table will show the new registration compared by districts with the vote cast in 1870 for Gov. Hamilton:

	1st dist.	2d dist.	3d dist.	4th dist.	5th dist.
New registration	859	664	563	955	795
Vote 1879	873	1026	591	894	823
Maj. for new registra.	01				
	1st dist.	2d dist.	3d dist.		5th dist.
Maj. for vote of 1879	14	362	28		28

It will be observed that the white vote registered this fall, exceeds the colored vote by 572.

In the fifth district, at the first registration, no division was kept between white and colored voters, so that it can not be told exactly how many of each were registered. In making up the grand total, the *Transcript* has divided the first registration in that district equally between the two colors.

The New Steamer Enterprise hove in port last Wednesday night. She came from Philadelphia, and was loaded with phosphate for Harrison & Spry, of Crumpton, and she had in tow a barge loaded with coal for Foard & Bacchus, of Chestertown. The coming of the Enterprise had been watched for by quite a number, but she came in the night and left in the night without giving an opportunity for steamboat critics to inspect her. On Saturday morning last, she anchored at the Chestertown wharf to lay off a cargo, and was soon boarded by an interested crowd, who took in all her fine points. The *Enterprise* was generally pronounced a very neat little craft. She is painted white, and her freights of phosphate and coal, have already marred her neat outside appearance. However, this can easily be washed off, when the season for dirty freights is over. She is fitted up for night passengers, and contains a number of cozy staterooms. The Enterprise is a propeller, 120 feet long, 22 feet beam and 7 feet depth of hold, and is claimed to run at the rate of 11 miles an hour. The hull was built by Enoch Moore, Jr., of Wilmington, Del., and the boiler and engine by Neafie & Levy, of Philadelphia. The officers are Capt. Washington Woodall, of Crumpton; mate, Capt. Thos. Ware of Crumpton; engineer, Harvey Ward, of Philadelphia; clerk, Chas. S. Smith, of this town. The boat will be placed on the line between Chester river and Baltimore as a night boat for the accommodation of passengers and freight. See schedule elsewhere.

Suicide by Drowning.—On last Friday afternoon, a telegram came to Chestertown from Shallcross' wharf near Locust Grove, stating that C. C. Hynson, a resident of this town, had jumped into the river there and drowned himself. Some doubt was entertained as to whether or not a mistake in identity had been made, but further investigation proved the report to be correct. In the first part of last week, deceased went up into Cecil county, looking for work, and he was on his way down from Cecil, when he tragically ended his life at Shallcross' wharf. He seems not to have designed committing suicide in the first place, as he tore up two letters before reaching the wharf, both of which stated that he had gone away because he had unlawfully used his mother's name as a signature to some papers, and that he was not coming back, because he would by so doing lay himself liable to prosecution.

A little girl, who was about one hundred yards from the wharf, saw him when he jumped over, and immediately told two men who were passing. They went to the place, but not seeing anything of him, left without attempting to recover his body. It was some half hour before Mr. T. J. Shallcross was notified and when he went down with a grappling hook, there was little difficulty in drawing the body ashore. His friends sent for his body and had it brought to his home; it was interred in Chester cemetery on Sunday.

C. C. Hynson was aged about forty years. He was the son of Thomas Hynson, a farmer residing near Chestertown, who died some four years ago. At the death of his father, deceased received as his portion $1200, or $1500. In less than six months he had got rid of this sum. He was very much given to drink, and it is remarked that he was a greater enemy to himself than to any one else. He had naturally a kind heart. He leaves a wife, and three children, who take his death very much to heart.

Run Over by a Railroad Engine—On last Thursday morning of last week, Mr. Horace Spruance met with his death in the following horrible manner:—At about 11.10 A. M., the Kent train was making up to come down on its regular Thursday noon trip, and at the time was shitting on a side track; Mr. Spruance was standing on the adjoining track talking to a gentleman, when he noticed a south-bound Delaware passenger train approaching upon the track on which he stood. He stepped out of the way of the latter and on the track of the Kent train; this train was close upon him at the time and seems not to have been noticed by him. In an instant he was struck by the tender and knocked down and across the track, his body outside the rail and his head under the wheels. *His head was cut clear off*, and his face deeply gashed, while the body was torn and mangled by the bolts of the tender.

The force of the collision threw the tender off the track and it ran into a high platform between the two tracks, while came near adding to the fearful calamity by knocking the Delaware train off its track.

The mangled remains of the unfortunate man were gathered up and a jury of inquest impanneled with Mr. Joseph Smithers foreman. The gentleman who was talking with Mr. Spruance at the time just preceding the accident had left, and consequently his attendance and evidence before the inquest could not be obtained, but all the evidence went to show that both the Delaware and Kent trains had aken the precautions required in the ringing of bells, whistling and signalling, and the jury exonerated the railroad officials from all blame.

Mr. Spruance was slightly deaf, which accounts for his failure to hear he approaching engine. The deceased was a prominent and successful farmer and fruit grower. He resided between Clayton and Smyrna. He was the son of Hon. Presley Spruance, United States Senator from Delaware from 1847 to 1853. His widow and five children, three daughters and two sons, survive him. His age was 47.

Orphans' Court.—TUESDAY, Oct. 10, 1882—Present, Judges Nicholson and Shallcross.

James B. Willson, executor of Henrietta E. Willson and acting guardian o Frederick de Salle Willson, returned his firstand final guardian account, which was examined, passed as stated and ordered to be recorded.

Eben F. Perkins, executor of Caroline Perkins, returned his first and final administration account, which was examined, passed as stated and ordered to be recorded.

Eben F. Perkins filed his rebase from Benjamin P. Perkins, which was received and ordered to be recorded.

Eben F. Perkins filed his reease from James A. Perkins, which was receives and ordered to be recorded.

"NOTES BY THE WAY."

A NUMBER OF TOPICS IN BRIEF.

Peach season with its toil and excitement is over, and with a few exceptions, the crop has been very remunerative to the growers in this section.

Bilyeu's late October peach has been marketed during the past week. It has been of fine size, and is our most valuable peach for evaporating.—drying about six pounds per basket.

Farmers are busy preparing the ground and seeding wheat.

There is a great deal of wheat to be threshed in this section.

Farm labor is scarce at one collar and twenty-five cents per day.

E. M. Bonwell, near Still Pond, sold his peaches to Kreb's cannery this season, for forty cents per basket, realizing about five thousand dollars from thirty-four hundred trees.

Senator Hepbron has evaporated five thousand baskets peaches this year.

W. D. Pennington says the steam peach pearer is a success, though it is not manufactured with as much care as it should be.

The Still Pond cemetery company has been incorporated and three-and-a-half acres of land purchased. A landscape gardener is laying it out at present. This is an enterprise that should be encouraged by our citizens.

White perch and rock fish abound in the bay. Fishermen and sportsmen are catching them in large quantities.

Joseph Crew is having a dwelling erected at Beitterton; John Robenson one at Still Pond; Isaac Perkins one at Lynch's, and Alfred Perkins one at Worton Station.

Malarial fever has prevailed around Stanley for the past two months.

Still Pond, Oct. 9th, 1882.

SOME UP-THE-COUNTY DOTS.

TO MILLINGTON, AND BACK ROUND BY THE WAY OF CHESTERVILLE.

About the first of June, a ride through Kent county is charming. The roads at that time are generally fine, and all nature is blooming, fresh, and fragrant. The fields of wheat are beginning to turn, and the corn fields are far enough advanced to present a forest of green. About the first of June, perhaps, Kent county is to be seen at her best; but about the first of October is also a very charming season for a country trip, and a ride through Kent county at this season will show to the traveler some as fine land as the sun shines upon.

On last Thursday morning a TRANSCRIPT representative, combining business and pleasure, made a trip to Millington, and thence home by the way of Chesterville. He found Millington as quiet as usual,—that is to say, as peaceful, and as serene as a summer Sunday morning. No disrespect is meant to Millington in this comparison. She is really a charming village, with numerous cozy looking houses, and her air of restfulness is one of her principal charms. Notwithstanding Millington's quiet seeming, there is evidently much business done there, as her mercnants carry large and varied stocks, and her other industries seem to sustain a state of vigor. Mr. J. H. Hartt was opening some fresh goods, preparatory to the fall trade, and Messrs. T. H. McWhorter & Co., J. C. Johnson, W. S. Harper and Pratt & Vansant also seem to be doing a prosperous business. Our County Commissioner from the first district,—Mr. C. P. Loper, was kept from his place of business by an attack of the billious. His son, however, seemed to be making things go as briskly as though the head of the firm were present. Mr. James A. Edwards is the proprietor of the Millington carriage factory, from which is turned out some very tasty work. Next to him Mr. M. E. Painter has his harness shop, and has succeeded in establishing a good line of trade. A green grocery and meat store is conduced by Mr. J. Bottomly and a drug store by Mr. L. T. Williams. There are a number of other business enterprises in the village, which a brief stay did not give time for visiting.

The Millington hotel, conducted by Mr. J. H. Thomas, is an inn which the wayfaring man will not soon forget. Mr. Thomas sets a good table, and gives his guests good, comfortable rooms. No trouble seems to be too much for him in way of accommodating those who are stopping at his house. Much of this praise, however, is due to Mrs. Thomas, who acts behind the scenes. Among matters of note in Millington, are three big pumpkins, which pull down the scales at over one hundred lbs. each. Millington takes considerable pride in these pumpkins, and if there is any other part of the county which can do better, the TRANSCRIPT should be glad to hear from it. Mr. J. H. Thomas also has an egg-plant, which measures 28 inches in circumference, and weighs over eight lbs. Millington is further noted for the great number of marriageable young men, who hang on persistently to the benighted condition of bachelorhood. This is quite astonishing, considering the number of charming young ladies there are in and around the town.

A ride out to the woolen mill of Mallalieu & Sons, which is on the Queen Anne's side, gave a chance to inspect a very interesting manufacturing industry. Mr. James Mallalieu politely took the TRANSCRIPT representative around and explained things, which explanations after all cannot very well be transferred to paper. The building is filled to its capacity with machinery, and the carding machines, the spinning machines and the looms in active operation, form an interesting sight. The mill runs 650 spindles, two sets of carding machines (which comprise 6 machines) and 18 looms. 25 hands in all, are employed in the mill. The firm now ships most of its goods to New York, where it is sold by commission merchants to the trade. On last Thursday, the mill was running principally on ladies' cloaking goods.

There is some beautiful farming land around Millington, and upon many farms there are handsome and substantial buildings. Mr. Jones owns a very handsome tract of land, and has upon it a commodious three-story brick dwelling, and large and convenient out-buildings. Mr. C. O. Casy has a fine tract of land running down near to Millington, and carries on farming on quite an extensive scale. He will seed this fall, in all, nearly 300 acres of wheat. Mr. Wm. H. Foard, one of our representatives to the legislature of 1880, and Mr. H. Clay Hendrickson, also have fine farms within a mile of Millington. Mr. Hendrickson is putting up a large new building for stabling and hay loft. On the road to Chesterville, beside those before mentioned, the farm where Mr. Geo. H. Staats resides, and the farms of Messrs. E. J. Moffett and R. F. Moffett, attract attention by the appearance which they present of neat and systematic farming. Running down to Chesterville, on the left hand side of the road from Millington, Mr. S. W. Aldridge has a very large and fine tract of land. On the road from Chesterville out toward Galena, another very beautiful agricultural section is passed. Capt. Andrew Woodall owns some fine farms in the vicinity of Chesterville, and Mr. W. T. Miller and Mr. W. E. Jarrell have very handsome farms lying on the left of the road leading to Galena. The farm of Mr. Jarrell is set off by an imposing residence. Further down on the right hand of the road, is the home farm of Capt. E. B. Woodall, with very attractive residence and out-buildings, and opposite him resides his son. A road that turns off to the left from the Galena road, lets into a number of highly improved farms, among which may be mentioned those of Mr. R. Lockwood, Mr. E. England and Mr. T. F. Hurlock.

In all sections corn is being cleared from the fields, and fallow is being put in condition to receive the plant for next year's wheat crop. The abundant wheat yield of the past season has encouraged farmers to put in a large seeding this fall, and the acreage in wheat this year, will undoubtedly be larger than that of last. In a number of instances farmers have not threshed the crop of this year, and it is no uncommon sight to find a wheat thresher in operation, now in the month of October.

From Worton,

Mr. Editor:—It has been some time since we have had the pleasure of seeing in your valuable journal a letter from "Old Worton." The great peach crop has kept all so busy that it was impossible to send you, Mr. TRANSCRIPT, a few lines—but, now, since happy days and full pockets have followed, some of us must "find time" to let you have the news. Our farmers are now pushing to get in their wheat crop. The past wet spell has been a great draw-back to most of us, and the ground is still in bad condition for seeding. I noticed, a day or two ago, that Mr. Jos. R. Usilton had finished seeding his lots on Worton Point. As the land is light, he has it in fine condition. Thos. and John Gale are hard at work preparing for their large seeding. Mr. John Gale raised 2300 bushels this year, and wants to beat this next by over 1,000. Mr. Gale is a young farmer, but things have to move under his supervision. Our friend Will B. S. has finished his new house, and now only wants some nice young housekeeper to take charge. Dr. Merritt has his new house on the way, and from the well-known reputation of the builder, it will be a handsome one. Mr. Fisher, at Castletown, has his nearly ready for occupation. Mr. Al White has purchased also in Castletown, and intends soon to commence building. So you see, Mr. Editor, we are not idle here in Worton. Labor has been very scarce in our neighborhood, so far, this fall. The farmers have been put to it to get hands to cut off their corn. Our neighbor, Mr. Alrich, sent to Baltimore and got a baker's dozen who soon cleaned his field. We have been paying from $1.00 to $1.10 per day for hands, which is rather high compared with the price of grain. We have had some sickness in the neighborhood lately, and our Drs. have had their hands full.

Death has been among us. We have to record the death of Miss Susan Copper, daughter of Charles Copper, Worton Point, under very sad circumstances. Mr. Copper was sitting in the room with his sick daughter when, without warning, he fell over with apoplexy, and was apparently dead for some hours. It is thought that the shock hastened the death of the daughter, as at the time she was improving from an attack of typhoid. Mrs. James Skirven, widow of the late James Skirven of Green Point, died at the residence of her cousin, Mrs. Mollie Skirven, early last Friday morning. We also note the death of Capt. Thomas T. Tucker of Balto., the father of Mrs. Aug. J. Mathiot, in the 84th year of his age. The old gentleman was well known in this county. He was in good health up to a few days before his death. Capt. Tucker was a native of West River, A. A. county, where he had many friends and relatives.

Jack Frost has paid us one or two slight visits as the vines can tell, for they look a little sick from his touch.

Our minister at St. James has quite a revival going on at his chapel at Lynch's. The work is going on with a good attendance.

We had a peep for a few minutes at the smiling face of Mr. Charley Crittenden, since his return from Virginia, and just enough to see that he has improved "hugely."

Mr. Wm. E. Gale, having purchased the Skirven farm, you may look for an improvement in that locality as he is the boy to do it.

Mr. Chas. Copper died this afternoon. Mr. Copper was in his 50th year, and of late years had been in delicate health. He resided with his son, Chas. Copper, Jr., who lived on the lower Skirven farm, Worton Point.

MAJOR JACK.

FOR THE YOUNG FOLKS.

SOMETHING TO OCCUPY THE EVENING HOURS OF THE BOYS AND GIRLS WHO READ THE TRANSCRIPT.

The word "Transcript is a compound one. It is composed of "trans" a Latin preposition meaning "over"—and "script" a writing which is also derived from the Latin "scribo" signifying I write.

The letters used in spelling "Transcript" will make at least sixty-two (62) good English words such as are in common use, and two proper names.

To the boy or girl not over fourteen years old who will write out legibly and neatley 62 words and the meanings of each one and the two proper names and to whom they appertain, I will give a copy of "Gow's good Morals and gentle Manners."

No letter is to be used more than once in the same word. Plural nouns not to count when the singular is given.

The manuscripts to be left with E. F. Perkin's Esq., Secretary of the Board of School Commissioners on or before the 15th proxo, who will make the award.

HOWARD MEEKS.

LUMBER.—We wish to call the attention of our many readers to the new and attractive card of Sam'l Barns & Co., Baltimore, which appears in another column. This old established and responsible firm carries a large and well selected stock of lumber, sash, doors, blinds, &c., which they sell at the most reasonable rates; and all in want of building material would do well to give them a call before purchasing elsewhere.

BARRETT, NEPHEWS & Co., of 43 North Charles street, formerly No. 110 West Baltimore street, the old established dyeing house, is prepared to do all kinds of work in their line with neatness, cheapness and dispatch. In dress goods of all wool and also of cotton and wool, etc., their success is greatly superior to that of a year ago. The firm lay aside every year a certain amount of their profit to buy the most improved machinery, and during their existence have expended over one half million of dollars in that department alone. This firm calls especial attention to the rapid advances made by them during the past few years in the art of dyeing. It has been the desire and aim to present to their customers work perfect in every respect.

FANCY DYEING ESTABLISHMENT,
No. 43 N. Charles street.

Sept. 28, 1882—6m.

AN IMPORTANT MOMENT.—It is puzzling to decide between the rival clothiers, where a man should buy his clothing. If he seeks enlightenment by reading the advertisements, for he will find each to claim to sell cheaper than the others, &c. We say to you, buy from a house of known reputation for square dealing, where goods are sold by the manufacturers themselves upon precise statements as to kind and quality, and at a strictly uniform low price, and where you can go back for your money if after reaching home you should think you had purchased unwisely. Such a house is C. N. OEHM & SON, 230 W. Pratt St., through to 55 Hanover St., Baltimore, Md.

STRAW.

The Chestertown Straw Board Company desires to purchase Straw, either to be delivered at their mill or to be hauled by the company. Those anticipating a sale of their straw should have it well put up in stacks or ricks, so as to keep it dry and sound. It must also be free from chaff.

The company is now prepared to make purchases for future delivery.

T. R. Hubbard & Son
MANUFACTURERS,
July 20, 1882—3m. CHESTERTOWN, MD.

TO WHEAT GROWERS.

The undersigned, *PIONEER* in the manufacture of FERTILIZERS in this city, and *ORIGINATOR* in 1858 of the formulas and processes of manufacture of

"Excelsior" and Ammoniated Phosphate

So well and favorably known by the agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these FERTILIZERS as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the *High Standard Quality* of each will be maintained as heretofore.

The above are the most concentrated *FERTILIZERS* ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of Bones in fine, dry powder, prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years' experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated materials and superintending in person their manufacture, as for the past *twenty-four years*,

UNIFORM QUALITY IS GUARANTEED.

Farmers, to secure the ONLY GENUINE *EXCELSIOR* and *PHOSPHATE* prepared according to my original formulas established in 1858, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

J. Q. A. HOLLOWAY.

LARGEST ESTABLISHMENT
IN MARYLAND.

ROLAND
CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION
GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.
