—C. H. Baker, Esq., as trustee advertises the Elijah Bond lot of land.

—Betterton has organized a base-ball nine, which is prepared to receive challenges.

—The Elkton M. E. Church made an excursion to Tolchester yesterday on the steamer Chester.

—Crabs should have made their appearance in Chester River waters by this time, but they are missing.

—Harvest is near at hand. The wheat crop in Kent is looking well, and there is promise of a good yield.

—C. H. Baker, Esq., as trustee, sells the Shade Nichols lot in front of the Court House next Tuesday.

—The Hibernian beneficial society of Baltimore comes to Chestertown next Wednesday on an excursion by the Nelly White.

—Six of the colored converts who have changed their allegiance from the Methodist to the Baptist Church, were dipped at Millington on last Sunday.

—The excursion to Annapolis on last Friday of the M. P. Sunday school on the Nelly White was a very pleasant affair, and more than paid expenses though there was not a large surplus after deducting costs. Two Kent county people will go on an excursion to Cape May, where one will go to Annapolis.

—The closing examinations in the public schools of this county have begun. After two more weeks, the struggle with modes, tenses, vulgar fractions, cube roots and other abstractions will be over, and then hurrah for a glorious two-month holiday. The small boy has our congratulations. So also has the small girl.

—R. Hynson, Esq., as trustee, offered for sale at the Voshell House, on Tuesday last, the Duyer property comprising two farms, and two small tracts of land. Only the farm known as Sandy Hill was sold, the remainder of the property being held at private sale. Sandy Hill, containing 142½ acres, brought $25.75 per acre, or an aggregate of 3656.50.

—A *Transcript* representative last week made a trip on the Louise, the steamer put on this season by the Tolchester company. She is a big boat and no mistake; and is splendidly fitted up for the excursion trade. Tolchester is now daily visited by great numbers of Baltimore people, and the handsome grounds present the usual scenes of animated enjoyment.

—The Washington College base-ball nine met the St. John boys last Friday, and came off very badly defeated, the game standing 16 to 2 in favor of St. John. For a nine that last year made a clean record, without a single defeat, this first disastrous game is of course humiliating. It should inspire the boys, however, to a determination to win next time. Plucky people are never defeated by defeat, either in play or in the more important affairs of life.

—A Kent county teachers' institute will be held in Chestertown, at the public school building, commencing on Wednesday, the 27th day of June, and will continue through Thursday and Friday following. During the institute, addresses will be delivered by the Rev. W. S. Hammond, recently pastor of the M. P. Church, Chestertown, Dr. F. L. Bardeen, of Washington College, and Mr. Reese, of Georgetown, D. C. The general programme of proceedings has not yet been outlined.

—The annual meeting of the Queen Anne's and Kent railroad was held at Centreville on Thursday of last week. The private car of Superintendent I. N. Mills took down president Hinckley and other officers of the road. B. T. Biggs was re-elected president, Robert Craven secretary, and Isaac Hinckley, S. M. Felton, Frank Thomson, Strickland Kneass, T. M. Perrott and B. T. Biggs directors. The gross earnings of the road last year were $30,900.

—Orphans' Court, Tuesday, June 12, 1883—Present, Judges Nicholson, Shallcross and Willson.

Thos. B. Hadaway, administrator c.t.a., of John Hadaway, returned his account of sales, of the personal estate of the said deceased; also list of debts due said deceased, which were received and ordered to be recorded.

Harriet M. Usilton and Joseph R. Usilton, administrators of Lewin Usilton and acting guardians to Jesse H. Usilton, Mary S. Usilton, Harriet A. Usilton, Clara F. Biddle and Thomas S. Biddle, returned their guardian account for said wards, for the year 1881 and 1882, which was examied, passed as stated and ordered to be recorded.

Harriet M. Usilton and Joseph R. Usilton administrators of Lewin Usilton, returned their second administration account, which was examined, passed as stated and ordered to be recorded.

PENINSULA ITEMS.

John Denney, a native of Dover, Del., got out of money in Denver, and on Wednesday of last week cut his throat.

At the Catholic fair held in Easton week before last, Joseph B. Seth, Esq., was voted a gold-headed cane, as the most popular lawyer in Easton.

"Rose Villa," the home farm of the late John W. E. Sudler, of Sudlersville, Queen Anne's county, was sold last Saturday to Mrs. M. Virginia Sudler at $87 per acre. The farm contained about 176½ acres.

Mr. J. Frank Turner, of Easton, Talbot county, has sold the Tilghman homestead on Miles river, to Mr. Geo. W. Towle, of Rhode Island, for $20,000. The farm contained 258 acres, and in addition 35 acres of very fine oyster lands.

The 'turtle dinner' of the democracy of Wicomico county came off last Thursday. Of this affair the *Advertiser* says: "It is a matter of sincere congratulation that Thursday's meeting was indicative of harmony and a regard for the best interests of the democratic party. There was, at least on the surface, no disposition to push any candidate."

The new national bank of Middletown, Del., has been christened "the people's national bank of Middletown." At a recent meeting, twelve directors were elected among whom were T. C. Cruikshank, Samuel Mallalieu and J. G. Griffith from Maryland. The stockholders are mostly financially solid, and the new bank has a promise of success from the start.

The Conference Academy of Dover, Del., begins commencement exercises on Monday, June 18th. The programme is as follows:

Annual address, by the Principal, Sunday, June 17th, at 8 P. M., in the M. E. Church: Annual sermon, by Rev. John Y. Dobbins, of Trenton, N. J. Monday and Tuesday, June 18th and 19th: Examination of classes. Monday, June 18th, at 8 P. M., in the M. E. Church: Address before the Scott Literary Society, by Rev. J. S. Willis, of Milford. Tuesday, June 19th at 8 P. M., in the Academy Hall: Exercises by the Middle Class. Wednesday, June 20th, at 2 P. M.: Business meeting of the Alumni Association. Wednesday, June 20th, at 8 P. M., in the M. E. Church: Address before the Alumni Association, by Francis Shunk, Esq., of Philadelphia. Thursday, June 21st, at 11.30 A. M.: Annual Meeting of the Board of Trustees. Thursday, June 21st, at 8 P. M., in the court house hall: Exercises of the Graduating Class.

George Washington Childs, A. M., the proprietor of the Philadelphia *Ledger*, has been interviewed for the columns of the *Paper World*, and in connection with some statements concerning his paper mill in Cecil county, he makes the following remarkable utterance with regard to that section.—

"There have been fires and explosions and break-downs, and we found long ago that we could buy paper cheaper than we could make it. I suppose that our paper now costs us between twenty and thirty thousand dollars a year more than we could buy it for in the open market."

"Why don't you stop it?"

"That reminds me of a little anecdote of General Grant," said Mr. Childs, with another laugh. "Some one asked him why he appointed Creswell Postmaster General and he replied: 'I was down looking at Childs' paper mill and as Creswell was the only man I found in the vicinity of Elkton who could read, I thought it would be a good thing to put him at the head of the Postoffice Department.' The fact is," continued Mr. Childs, "the neighborhood was in a forlorn state and the people steeped in ignorance when we went there. We have built them a church and schools. The operatives are all preperous and happy. Many of them built comfortable little houses of their own. To stop the mill would ruin them. And not only the operatives but the country around would feel it very much. The mill is practically the bank of the neighborhood. When a farmer wants to pay his taxes or buy a new suit of clothes he brings us a load of straw and gets the money. We consider it a duty to help the poor and I don't know any way of helping them so well as in helping them to earn their own living. And I think it is just as well to keep the mill going—although I could get my paper cheaper by stopping it—as it would be to give the same amount of money to be applied by charitable institutions."

THE MEETING OF THE DEMOCRATIC COUNTY EXECUTIVE COMMITTEE.

CHESTERTOWN, June 12, 1883.

The Democratic County Executive Committee met at the Court House on Tuesday, June 12, at 11 o'clock, A. M., in pursuance of the call of the Democratic County Convention, issued May 28.

On motion by Benj. F. Beck, Esq., Wm. S. Walker was appointed temporary chairman and Dr. J. Horton Kelley was appointed temporary secretary. On motion, the chair then appointed a committee on permanent organization, consisting of the following gentlemen: Robt. C. Morgan, J. Horton Kelley, M. D., Luther Handy, J. M. J. Byron and Dr. Sam'l G. Fisher. This committee made the following report:

Resolved, That the following be selected as the permanent officers of the Democratic County Executive Committee: Wm. S. Walker, chairman; Hope H. Barroll, secretary; Luther Handy, treasurer.

The report was adopted unanimously. The following resolution was offered by Joseph Dulaney, of the first district:

Resolved, That the Democratic primaries be held between the hours of 2 and 6 o'clock, P. M., on Saturday, the 14th day of July, 1883.

This resolution was freely discussed by the various members present, and after a general interchange of views it was unanimously adopted.

At the suggestion of the chairman, the following resolutions, which had been previously passed by the late County Executive Committee were ordered to be appended to our proceedings and published for the information of the people:

Resolved, That the delegates from each district shall have power to appoint, in their respective districts, three discreet men who shall act as judges of the nominations, and who shall have power to appoint clerks.

Resolved, That in voting at the primaries no one shall be allowed to vote whose name does not appear upon the registration books.

Resolved, That in receiving the votes the judges shall be assured that the party offering to vote is a Democrat.

Resolved, That it is the sense of this committee that the nominations shall be made by the district plan.

Resolved, That as explanatory of the district plan the following be taken:

Each district shall appoint or elect five delegates who shall meet in convention in the Court House in Chestertown, on the Tuesday succeeding the primaries, at 11 o'clock, A. M., to nominate and publish the names of candidates for all offices to be filled—*provided* that each district shall be entitled to one candidate for county commissioner who shall be voted for only in the district in which he may reside; provided, further, that all candidates shall be voted for at the time of the appointment or election of delegates. The candidate or candidates having a plurality in the district shall be entitled to the votes of the delegates in convention.

There being no further business, the committee adjourned subject to the call of the chairman.

WM. S. WALKER, Chairman.
HOPE H. BARROLL, Sec'y.

James A. Pearce, Esq., was appointed by the bishop chancelor of the diocese.

CHILDREN'S DAY AT THE M. E. CHURCH.

The Children's Day exercises at the M. E. Sunday School on last Sunday evening, were of quite an interesting nature. Around the pulpit of the church were beautiful floral decorations. Across the front of the pulpit there was an arch bearing the words, NATURE, HOME, CHURCH. The exercises were opened by an address from Mr. Thos. G. DeFord, which was followed by a responsive reading conducted by the pastor and seven young ladies. There was a very pretty recitation of memorized passages by the seven young ladies who stood on the pulpit platform. A number of beautiful selections were sung by the choir, and there were several solos which were also most pleasing. Under part the second, the partor delivered an interesting address, taking for his subject "Home." After the address the choir sang "Home, Sweet Home." During the singing the seven young ladies began the construction of a pillar of an archway to the representation of a temple. The younger children of the school marched to music around the aisles of the church, bearing flowers. A third address was delivered by the son of the pastor, and after the singing of a selection by the choir, the ceremony of constructing a second pillar was gone through with. The exercises were very pleasant and entertaining to the grown-up people as well as to the children.

Fertilizer Cases in Talbot.

The cases of the Maryland Fertilizer Company against sundry farmers of Talbot county, suits on notes for fertilizer purchased, which notes, it was claimed by the defendants, were paid to the company's agents, were taken up in the Circuit Court for Talbot county last week, the case called being the one against Joseph H. Newnam. "The note sued on," says the Easton *Ledger*, "was one now very much used in this county, and contained the agreement to pay all costs and charges for collecting the same. Mr. Martin, for the defendant, made the point, by filing a demurrer to the declaration that the negotiability of the note was destroyed by reason of this agreement to pay the costs and charges of collection. The court decided the point well taken, ruled the demurrer good, and entered up judgement for the defendant. The effect of this ruling is to open up all the equities between the maker and payee of the note. It is not claimed by the company that it ever gave any of the makers of these notes notice of assignment, and without notice of such assignment, if the makers paid the payee in the note the code will allow him to make that defense against the assignee. An appeal was at once entered, and if the Court of Appeals affirms the decision of this court it will virtually end all of these cases."

FOREIGN LABOR.

Mr. G. W. Lockwood, one of the most enterprising and successful farmers over in Cecil county, made an immigration commissioner of himself this season and has got a number of good foreign laborers from Castle Garden. He has not only supplied his own wants in this direction but has also procured a number of laborers for his neighbors. Two of the field hands engaged by Mr. Lockwood are Englishmen, and one of them, he says, is the best hand he ever had in his employ. Mr. Lockwood engaged him at ten dollars per month for the season but has already advanced his wages. This Englishman is so much pleased with his place that he has written to England for his sister to come over, and she has replied, asking if any more house girls are wanted in this section. She says she can bring a dozen or more with her if they are wanted. Mr. Lockwood has assured her that homes will be found for all she brings, and it is expected that the girls will reach New York in about ten days. Good homes and good wages will of course be ready for these English girls. It doesn't seem to be a difficult matter for our people to get good foreign labor if they go about it in the right way, as Mr. Lockwood evidently has.—*Middletown Transcript.*

The Production of Oysters—What Professor Brooks Reports About His Experiments at Hampton, Va.

Prof. W. K. Brooks, of the Johns Hopkins University, reports as president of the Maryland Oyster investigation commission some interesting results from the experiments he is making in the artificial propagation of oysters at Hampton, Va. The oyster commission was appointed by the State of Maryland to inquire into the present condition of the oyster beds of the Chesapeake bay and its tributaries, and report the same to the next General Assembly, preliminary to legislation for the protection and increase of oysters in Maryland waters. Prof. Brooks says:

"I discovered five years ago that it is possible to rear oysters in unlimited numbers from the eggs, and to keep them alive for a few days, and for some time after they have developed their shells. If these young oysters could be reared until they are large enough to handle and plant, the supply of oysters would be increased indefinitely. There would be none of the uncertainty which attends fish hatching, for the young oysters would stay where they are put, and would be as tangible as potatoes. The great importance of the subject has led many naturalists to experiment at it within the last five years, but they have not advanced beyond the point where I left the subject. The difficulty which they have met is due to inability to renew or replace the water without losing all the oysters, as they are so small that no method of straining can be employed.

"During the winter I designed an apparatus to meet this difficulty, and the Johns Hopkins University allowed us to construct it at their expense. It is a system of inclined troughs with ledges on the bottoms, like those used in gold washing, and the young oysters are caught like the gold in the pockets formed by the ledges, while the water flows on. A renewed supply of water is poured into the top of the trough by a steam pump. A number of very young oysters, four days old were put into the apparatus and none of them have escaped, although all the water has been replaced by new many times. These oysters which are now nine days old, are still healthful and vigorous, so the experiments are so far successful. The apparatus has completely removed the obstacle which has stopped all investigation up to this time, and it will therefore allow me to try other experiments. So far the new method is a success, but the oysters have not grown. Out of many hundreds I have found only three which are any larger than they were when they were put into the machine.

"The weather has been cold and unfavorable and their failure to grow may be due to this, or to a lack of proper food, or to some cause as yet unsuspected. I feel though, that I have command of the subject, and can now experiment until I find what is needed. Capt. Waddell and I have agreed that the importance of this matter justifies me in sticking to it for the present, and we have decided that it will be best for me to remain here while he resumes the work of examining the oyster beds of Maryland."

Peach Crate Material.

We offer to the trade and PEACH GROWERS a LARGE STOCK of peach crate material at LOWEST RATES (put up in Shooks ready to nail together) delivered to all points accessible by rail or water. Correspondence solicited; address G. H. Toadvine, (successor to H. Humphreys) Salisbury, Md. je. 7—tf.

THE NEW PASSENGER TRAIN SERVICE ON THE DELAWARE DIVISION.—The great success of the new morning train up and the evening train down the Delaware Division has already proven the wisdom of the departure, and now that residents along the line may spend nearly four hours in Philadelphia and return to their homes the same night, many of them are taking advantage of it.

The residents of Cambridge may leave home at 6.00 A. M. by the train that stops at all principal stations, and reach Philadelphia at noon; returning leave Philadelphia at 3.01 P. M. and arrive at Cambridge 8.15. For such places as Seaford, Farmington, Harrington, Felton, Dover, Smyrna, Middletown and Wilmington, the allowance of time is of course proportionately longer.

DR. THAYER,

—THE—

Great Specialist,

Who has been at Centreville five weeks, has concluded to make visits to Chestertown, remaining two weeks at each visit.

CHESTERTOWN.
ARMSTRONG'S HOTEL.

Monday, June 18; remain until July 2.
" July 23; " Aug. 6.
" Aug. 20; " Aug. 27.

The Doctor has now on his book 105 Patients from Centreville and surrounding, 47 of whom are entirely well.

DR. THAYER

Is a physician who has had a most successful practice for a quarter of a century, and traveled a great portion of the Old World—England, Ireland, Scotland, France, Italy, Sicily, Switzerland, Turkey; also, China and Japan, Central and South America, for study and information.

He is competent to treat the most obstinate complaints that have baffled the skill of the most eminent physicians of the day. He does not treat Symptoms that so many complain of, but goes to the Root and Cause of the disease, and will tell you how you feel better than you know yourself.

Therefore it is obvious that a man that is capable of knowing the cause must be more qualified to make a successful and speedy cure, without keeping the patient lingering along from month to month, or year to year, until the sufferer has almost given up in despair of ever being cured or benefited. He does not bleed you out of your money at one dollar and two dollars a visit, day after day, and month after month, as the general practicing physician does, but gives you the benefit of his long practice and medicine at a fair and reasonable price, and within the reach of all

DR. THAYER

Treats successfully and guarantees a CURE in any of the following complaints: Liver Complaint, Consumption, Malaria, Diarrhœa, Nervous, Sick and Bilious Head Ache, Constipation or Costiveness, Neuralgia of the Heart, Heart Disease, Lumbago, Kidney Complaints in their Worst Form, and Bright's Disease of the Kidneys, Dyspepsia, Jaundice, Loss of Energy, Loss of Appetite, Restlessness, Loss of Sleep, Tiredness in the morning on rising, a General Breaking Down of the Whole System, Catarrh of the Bladder, Blood and Urinary Complaints, in their Worst Forms, also Rheumatism and Diabetis, Asthma or Shortness of Breath, Goitre or Thick Meck, Lung and other Complaints. Tape Worms extracted in four hours.

FEMALE COMPLAINTS.

Those Ladies that are afflicted so much with Falling of the Womb or that feeling of Bearing Down, Leucorrhœa or Whites should lose no time in giving Dr. Thayer a call, even if they have despaired of ever being benefitted, as he will give them a medicine that he will cure them in a very short time.

Consultation Free and Strictly Confidential.

REFERENCES AND TESTIMONIALS.

Extract from the Frederick Daily Times.

Dr. Thayer's success in treating and curing all chronic and complicated diseases has become known to us to be an accomplished fact, and it is certainly surprising and remarkable that a man—a perfect stranger—should come among us and treat all diseases with such almost superhuman results that have baffled the skill of the most noted physicians. The people of Chestertown and its surroundings will now have the opportunity of calling on Dr. Thayer: the sick and afflicted and, heretofore, incurable, can call and be treated and receive the benefit of this remarkable man's skill. It is certainly surprising that persons afflicted come to him and are told of all their complaints by him almost better than they know them themselves, as in most cases they have hitherto been treated for symptoms and not the cause of the disease. Dr. Thayer treats the cause of all diseases, and strikes at the root and cause of the complaint. We would advise all, no matter how afflicted, not to delay in giving him a call.

The following are some few of the names of persons that have been cured from Washington and Frederick counties, Md., by DR. THAYER: Mr. Charles W. Young, Consumption four years; John M. Brain, Rheumatism; Daniel Meyer, Sore Legs from Knees to feet, Rohrersville, Md.; Rachel Haupt, Mrs. H. C. Murdock, Kidney Complaint; Mr. J. M. Huffer, Kidney Complaint; Miss Annie Dagenhart, General Debility; Miss Prudence Herr, Consumption; Mrs. Catharine Repp, Liver Complaint, Boonsboro', Md.; Martin Line; Mrs. Martin Line, Kidney Complaint; George W. Baker, Bright's Disease seven years, Keedysville, Md.; Mrs. S. Remsburg, Kidney Complaint; Ezra Smith, Dyspepsia; Mrs. Martha Remsburg, Skin Disease, Middletown, Md.; Samuel L. THIN THINGS

FOR THE

THOUSANDS.

Half-lined and Skeleton Suits in all the newest and most desirable shades in Serges; also, Blue Flannels, Yacht Cloth, Mohairs, Drap D'Ete and Worsted. Our assortment of Alpacas, Pongee Silk and Seersucker Suits (all colors) was never approached in magnitude or variety before in the State.

In Dusters we can astonish you. We have them in all the best fabrics in Linen, Mohair, Alpaca, &c

We also have the Largest Line of Boys' and Children's Clothing for Summer wear ever shown.

A Separate Department for White and Fancy Vests, in which over 1,500 Styles are shown, from 35 cents to $5.00 in price.

We always excel in getting up Clothing for Summer wear, and we are proud of our magnificent assortment.

Furnishing Goods.

Our Furnishing Goods Department contains everything needed in a gentleman's wardrobe. No gentleman of taste who appreciates richness and elegance of fabric and style should miss seeing our stock. Remember, while this assortment is largely composed of the finest grades, we do not ask fancy figures on a single article. Our price will bear comparison with those usually asked for cheaper goods, while in quality and make-up they will be found immensely superior.

HATS and CAPS.

We have in our cases Hats from the most celebrated manufacturers in the United States, and we defy any Hat House in Baltimore to show finer goods or better styles. They will show you higher-priced Hats and you may think they are better because the High-toned Hatters tell you so, but they are not. Our display of Straw Hats cannot be equaled or our low prices beat.
