LOOK for the following points in the manure spreader you buy: 1. Correct, efficient, well-tested design. 2. Guarantee of first-class materials. 3. Reinforcing of parts where strains usually come. 4. Strength of parts where occasional strains come. 5. Wearing qualities and protection of driving parts. 6. Reputation of manufacturer, insuring efficient repair service. Satisfied American farmers find these essentials in International manure spreaders.

International spreaders have, besides, many features that grew out of long field experience. Study the steel construction in frame, wheels, and driving mechanism; the easily-removable beater; the differentials in rear axles, insuring even spreading while turning corners; the reversible worm and gear; low, easily-loaded box; and many others.

International spreaders are of all styles and sizes, high and low, endless and reverse apron. Write for illustrated catalogues, and when we send them we will tell you where you may see the spreaders.

AN EXPENSIVE LEGISLATURE.

Legislative Expenses $20,000 in Excess of Any Former Session.

The total appropriations by the recent Legislature will not be known with certainty until Governor Goldsborough on Tuesday disposes of two or three bills, which have a bearing on the total sum. The calculations, however, point to a big increase, an increase of half a million dollars over the total sum by any previously Assembly. This increase does not include an increase in bond issues, which also surpassed any former issue. The total is $7,000,000 in which is included $6,000,000 for State roads. The gross State debt is now in the neighborhood of $25,000,000, the highest figure reached since the close of the Civil War. The State tax rate will be 32½ cents in 1915 and 1916, which registers a new high water mark in State tax rates. The net debt of the State is about $17,000,000. It is the general belief of the treasury officials that the limit of the State's indebtednes has been reached and that there will be no additional loans, certainly none for several years. This means that no loans for extension of the State road system will be authorized. Funds for this work, as well as for road maintenance, will have to be forthcoming from the general treasury and from the receipts from taxes on automobiles.

The legislative expenses exceed by $20,000 the expenses of any former session.

A dozen new positions, carrying salaries, were created. There were increases in the salaries of rural officials, as well as increases in allowances for departments.

A problem which confronts the State Treasury Department is how to meet the increased appropriations with no corresponding increase in receipts into the treasury.

Grange Notes.

Kent Pomona Grange was delightfully entertained by Fairlee Grange on April 16th. The hall was tastily decorated with grange colors, potted plants and a delicious luncheon was served.

Worthy Master, Mr. G. R. Rasin, presided. One item of interest was the advisability of building a Grange Home at College Park as a memorial to Mr. H. O. Kelley, the founder of the Grange. A full explanation of the plans was given by Worthy Master of State Grange, Mr. B. John Black, and Mr. J. T. Anthony. It was voted to be the unfinished business at the next session in July at Worton Grange.

It was decided to make an exhibit of products of the farm and home at the Horticultural Show next fall in Baltimore and a committee composed of the lecturers of each grange was appointed to work it up. So now at planting time is the time to get ready for it.

The grangers are asked to assist in the Baby Health Contest. A committee was appointed to report at the next meeting.

Worthy State Master Mr. B. John Black, then gave an interesting talk on grange work.

In the absence of Worthy Lecturer, Mr. John Medders, the program was in the hands of Mrs. Harry Williams and consisted of an interesting paper on the manure heap by Mr. W. G. Smyth which will appear in one of the papers next week. Rev. Mr. Clews entertained the grange on "Some Recollections of the Places I Have Lived". Mrs. Wilbur Morris' interesting paper on House Cleaning and the value of the Vacuum Cleaner and other conveniences was enjoyed by all and will be published later. Mr. W. T. Nicholson gave an important talk about seed potatoes, especially important just at this time when farmers are planting potatoes. Music by the choir was very much appreciated especially the duett by Mrs. Jones and Mrs. Hatcherson.

The Still Pond Grange held an interesting meeting in their hall in Still Pond last night. The grange will continue to meet on Friday evenings until further notice, for the benefit of the non-attending members.

WORTON GRANGE.

Owing to the inclement weather of last Monday night the attendance at our grange meeting was small. However the few who did venture out enjoyed a very pleasant evening. A report from the recent Pomona meeting was given by Sister Blanche Loller, and discussions pertaining to the several topics were entered into by Bro. and Sister Turner, Sister Florence Jewell, Sister Katie Cooper, and several others. The literary program, which was to have been a feature of this meeting, was carried over until next Monday night.

After this meeting the ladies will serve refreshments, so be sure and be on hand.

A full attendance is desired at all our meetings but most especially at the next as some new business is to be brought up. Therefore come out. 'Nuf sed.

Prepare For Corn Crop.

According to Prof. Grantham of the Agronomy Department of Delaware College, much of the seed corn saved last fall is likely to be of low germination owing to the severe freezing weather of last winter. This condition will apply particularly to seed corn that was not fully dried out before the cold weather came. He says:

"All seed corn should be tested to determine its state of vitality. A few kernels taken at random from several ears of the lot of seed corn should be sprouted. If 95 per cent of the kernels are strong and vigorous, no further testing will be neccessary. If, however, the germination falls below 95 per cent each individual seed ear should be tested. Directions for testing a large number of seed ears will be furnished by the Agronomy Department upon request. Inquiries from many parts of the state incicate that there is a considerable demand for seed corn. It is suggested that those growers who have seed corn for sale should write to the department stating the kind of corn and the quantity they have for sale. This will enable the owners of good seed corn to come in touch with those looking for good seed. The department is often at a loss to know where to locate supplies of seed corn in the state and will gladly cooperate with growers in affecting the distribution of seed of good quality.

Seed corn should preferably be purchased in the ear. Exanmination as to type and characteristics of the variety can then be made more satisfactory. Corn in the ear may also be tested more accurately than shelled grain. Do not purchase seed corn from a locality too remote. Seed from 100 miles farther north or south is not so likely to produce as well as corn grown on the Peninsula. If it is desired to grow a new variety from a distance, begin a small way but do not depend on it for the entire crop."

Klinefelter's woods caught fire on Sunday afternoon, burning over about half of the woods. The young growth was badly damaged, but the larger trees were not greatly hurt.

Annual Report
OF THE
Commissioners of Chestertown
Ending April 25th, 1914.

POULTRY ADVERTISEMENTS

Fairview Farm's Reds!

MY RHODE ISLAND REDS are the greatest prize winners on the Eastern Shore of Maryland in all classes, and I defy the whole of Maryland, Delaware and Pennsylvania to show a better Cockerel than the one that heads my pen No. 1. My Reds were shown in 11 classes at Baltimore, Allentown, Wilmington, Dover and Centreville and won 5 firsts, 2 seconds, 2 thirds, 2 fourths and 2 specials. Special at Dover for the best Cockerel in the American class. Special at Centreville for the best pullet in the entire show.

My birds also are great layers. Four pullets in 30 days, parts of January and February, laid 104 eggs. Phone or write for prices on the best pens I ever had. Utility Eggs, 5c each.

Change In Duration of Terms of Chestertown Water Board.

Under and by virtue of a law passed by the General Assembly of Maryland of 1914, at the election for Commissioner of Chestertown to be held Monday, April 27th, 1914, there will be submitted to the qualified voters of Chestertown, the question contained in a Bill the provisions of which are as follows:

AN ACT to repeal and re-enact with amendments Section 7 of Chapter 412 of the Acts of the General Assembly of Maryland passed at the January Session of 1910, entitled "An Act to repeal Sections 4, 7, 8, and 9, of Chapter 289 of the Acts of the General Assembly of Maryland passed at the January Session of 1908, entitled an Act to provide for the franchise of the waterworks for the town of Chestertown, in Kent County, Maryland, and to authorize the appointment of a Water Board for conducting, carrying on and maintaining same, and to issue bonds to pay therefore and to levy an annual tax for the payment of such bonds and the interest thereon."

SEC. 1. *Be it enacted* by the General Assembly of Maryland, That Section 7 of Chapter 412 of the Acts of the General Assembly of Maryland, passed at the January Session of 1910, be and the same is hereby repealed and re-enacted with amendments to read as follows:

SEC. 7. That on the fourth Monday in April 1915, at a regular election for a Commissioner entitled to vote for Commissioners thereof, shall elect by ballot a Water Board which shall consist of three persons, each of whom shall have the same qualifications as those required of a Commissioner of Chestertown, one of whom shall hold office for one year, one of whom shall hold office for two years, and one of whom shall hold office for three years, and until their successors are elected and qualified, and the said duly qualified voters of Chestertown, entitled to vote for Commissioners thereof,

Shall elect by ballot on the fourth Monday in April 1916, and in each year thereafter, at a regular election of a Commissioner of Chestertown, one member of said Water Board, with the qualifications above named, who shall hold office for three years and until his successor is elected and qualified, and the members of the Water Board of Chestertown to be elected as aforesaid shall qualify in the same manner as do the Commissioners of Chestertown, and said Water Board shall hold public meetings in January and July of each year. Any vacancy in said Water Board created by death, resignation or otherwise shall be filled by the Commissioners of Chestertown.

SEC. 2. *And be it enacted*, That at the next regular election of Commissioners of Chestertown, to be held on the fourth Monday of April, there shall be submitted to the qualified voters of Chestertown, the question whether there shall be a change in the duration of the terms of the members of the Water Board to be elected at the election to be held on the fourth Monday of April 1915, and at such election the ballots cast upon that question shall have the words "For a change in terms of Water Board," or "Against a change in term of Water Board," thereon, and if the majority of votes cast upon said question shall be "For a change in terms of Water Board," then this Act shall be effective and operative, but if the majority of the votes cast be "Against a change in terms of Water Board," then this Act shall be of no effect.

SEC. 3. *And be it enacted*, That this Act shall take effect from the date of its passage.

By order of
CHESTERTOWN WATER BOARD.
CHAS. S. SMITH, Clerk, a11.tf

TOLCHESTER COMPANY
